This week's themed learning is based around our new *Marvellous Maps* topic

History

For many years Hyde was at the heart of industry. During the 1800s Hyde was famous for its cotton mills. Later coal and calico printing businesses grew.

The cotton mills were particularly famous because they had machines that spun and weaved the cotton.

Hyde businesses especially those run by the Ashton family were also famous for providing good working conditions for the workers. The estate at Flowerly Field that belonged to the Ashton family was one of the first factories to provide day schools for their child workers.

Discuss: How would you feel if you had to work instead of going to school every day? Do you think it was fair that children had to work?

Do you know any factories that are based in Hyde or the local area? What do they make? Create a list.

Creature comforts

Do some research on how different animals build their houses and present your findings on a poster. You could think about one of the following ideas or you could use your own:

A bee hive

A bird's nest

A termite mound

A caddis fly larvae case

A badger set

What sorts of materials are used to build the home? How are they constructed? Are they made by one animal or are they made as a group?

What size and shape structures do they build?
