

<p>Geography - Coastal Erosion</p> <p>In Autumn 2, children will learn what coastal erosion is and how it changes the shape of the coastline over time. They will explore the different processes of erosion, including hydraulic action, abrasion, attrition, and solution, and consider how waves, tides, and weather contribute to these changes.</p> <p>Pupils will study the landforms created by erosion, such as caves, arches, stacks, and stumps, and investigate how erosion affects people, homes, and the environment. They will also learn about different methods humans use to manage and reduce erosion, such as sea walls and groynes, and use maps, diagrams, and case studies to explain where and how coastal erosion takes place.</p>	<p>Languages - French</p> <p>In this unit, the children will be learning how to ask and answer questions about pets in French using the phrase <i>As-tu un animal?</i></p> <p>They will practise key phonics sounds to improve their pronunciation and will learn the names of common animals such as <i>un chien</i>, <i>un chat</i>, <i>un poisson</i> and <i>un oiseau</i>. Through games, repetition and simple conversations, they will build confidence in speaking and listening, while also beginning to create short dialogues to talk about the pets they have or don't have. By the end of the unit, children will be able to recognise and say a range of animal names, ask others if they have a pet, and respond appropriately using full sentences in French.</p>	<p>PE - Fundamentals</p> <p>Fitness</p> <p>Develop attacking principles, understanding when to run and when to pass.</p> <p>Use the 'forward pass' and 'offside' rules. Play games using tagging rules. Develop dodging skills to lose a defender.</p> <p>Develop drawing defence and understanding when to pass.</p> <p>Indoor Athletics</p> <p>Children will develop range of skills including; running, jumping, and throwing events such as sprints, relays, standing long jump, and chest push. The focus is on improving personal performance, working as a team, and understanding the importance of fitness, fair play, and perseverance. It's a great way to build confidence, coordination, and a love for physical activity indoors.</p>
<p>Science - Forces</p> <p>In this unit, pupils will learn about the effects of forces on objects, including gravity, air resistance, water resistance, and friction. They will explore how forces can slow objects down, speed them up, or change their direction. Pupils will investigate the role of mechanisms such as levers, pulleys, and gears in making work easier and will carry out practical experiments to observe and measure different forces in action. Through these activities, they will develop their ability to make predictions, take measurements, and draw conclusions based on evidence.</p>	 <p>Kestrel Class - Autumn Term 2 Curriculum Overview</p>	<p>RE - Christianity</p> <p>In this unit, pupils will learn about key beliefs and practices within Christianity, exploring how these influence the lives of Christians today. They will study stories from the Bible and consider their meanings, reflecting on how these texts guide Christian values and decision-making. Pupils will learn about Christian worship, festivals, and traditions, and examine the significance of places of worship and symbols such as the cross. They will have opportunities to discuss big questions about faith, belonging, and identity, making links between Christian beliefs and their own ideas and experiences.</p>
<p>Art - Monochromatic</p> <p>In this unit, children will explore the art of collage by experimenting with a range of materials, textures and techniques to create layered and visually interesting artworks. They will learn how to combine different media</p>	<p>Computing - Podcasting</p> <p>In this unit, children will be introduced to the world of podcasts and how they are made. They will begin by listening to and</p>	<p>PSHE - Celebrating Differences</p> <p>In this unit, pupils should be able to understand what culture means and identify their own and others' cultures. Recognise that cultural differences can</p>

<p>such as paper, fabric, and natural or recycled materials to build up images and patterns. Children will study the work of collage artists to inspire their own creations and will develop their skills in cutting, overlapping, arranging and layering for effect.</p>	<p>exploring different podcasts, identifying common features such as themes, jingles, and audience style</p> <p>By the end of the unit, children will understand how podcasts are structured and produced, be able to use digital tools to record and edit audio effectively, and create a polished podcast that demonstrates creativity, technical skill and clear communication.</p>	<p>sometimes lead to conflict and explore ways to resolve it. identify direct and indirect bullying, including rumour-spreading and name-calling, and know how to respond. Compare their lives with those of children in the developing world and reflect on the concept of happiness beyond wealth. Respect and celebrate differences in others, including race, culture, and background.</p>
