

Science

Animals Including Humans

In science, children will learn about animals, including humans, which have offspring which grow into adults. They will find out about and describe the basic needs of animals, including humans, for survival. The children will also learn about the importance, for humans, of exercise, eating the right amounts of different types of food and hygiene.

Geography

My Local Area and Tulum, Mexico

In this unit, children will use atlases and globes to discover the world, including the seven continents and five oceans, the countries, capital cities and surrounding seas of the UK and the equator and poles. Children will develop fieldwork and map skills, creating maps of the school and local area. Children will learn Tulum's geographical human and physical features in Mexico and compare them to the geographical features of their own local area.

Music

Performing rhythms and movement to a steady pulse

In music, children will learn about pulse helping children to build important musical skills for the future. They will learn how to feel and keep a steady beat by moving, clapping and playing instruments together, helping them to listen carefully, work as a team and perform with confidence. Understanding pulse will give children the building blocks for rhythm and timing, so they can play music with others. It will also help them enjoy music and express themselves through movement and sound.

PE

Parkour and Ball Skills

In PE this term, pupils will be developing a range of ball skills, including throwing, catching, rolling, dribbling, kicking and hitting a target. They will practise these skills with increasing control, accuracy, coordination and balance, working independently, in pairs and in small groups. Pupils will also take part in parkour sessions, where they will explore different ways of moving safely around, under, over and through equipment in a controlled indoor environment. Throughout both units, children will build confidence, teamwork and resilience while developing their fundamental movement skills.

Kingfisher Class Curriculum Planning

Autumn Term 2

Computing

Computers

In computing, the children will collect data that can be used to make charts and graphs. They will use numbers to record and organise data.

Design and Technology

Cooking and Nutrition

In D&T children will discover the importance of a balanced diet. They will design and create a tasty, balanced snack for them to try incorporating the Geography unit on Tulum, Mexico.

RE

Worldview-Christianity

In this enquiry, children explore key beliefs and values central to the Christian faith. They learn about the life and teachings of Jesus, focusing on themes such as kindness, forgiveness, and the importance of community. Through stories, discussions, and reflective activities, pupils begin to understand how Christian values influence behaviour and decision-making in everyday life.

PSHE

Celebrating Differences

In this unit, the children learn about recognise gender stereotypes, that boys and girls can have differences and similarities and that is OK. They explore how children can be bullied because they are different, that this shouldn't happen and how they can support a classmate who is being bullied. The children share feelings associated with bullying and how and where to get help. They explore similarities and differences and that it is OK for friends to have differences without it affecting their friendship.
