

# Year 3 to Year 6 weekly challenges

**Humankind**

Choose a challenge to complete. You could also ask an adult to share your challenge on Twitter @Cornerstonesedu or Instagram @cornerstonesedu.

## **Around the world**

Using a world map, pinpoint a place you'd like to find out more about. Make a fact file about it and the everyday lives of people who live there, researching facts and information using books and the internet.

## **Hand hygiene**

Keeping our hands clean is very important. Use the internet to find out why hand hygiene is so vital to human health. Make a fact file on this topic and design an informative poster to display by the sink, reminding everyone in your house what to do.

## **Past civilisations**

Choose a historical period you've studied at school. Write down all the things that you can remember about it. Design your notes into a knowledge organiser, including images and writing. Check facts or find out more using useful websites. Add an additional paragraph to explain how this period has influenced modern life. Share your work with an adult or sibling.

## **Community**

Draw a map of your local community from memory. What facilities do you have? How do they help the people in your community? Who lives in your community? Write a short paragraph to go with your map, describing these aspects of your community. Add a fact or two to describe its unique qualities.

## **Interconnections**

The human race is interconnected. Make a friends and family tree to show your network. Start with you and build outwards. How many people are you connected to?

## **Self**

Draw a detailed portrait of yourself. Use a mirror to get a good look at the main details, such as eyes, skin and teeth. Why not use old magazines and other materials to make a collage of your portrait?
