

Fluent in Five Questions and Answers

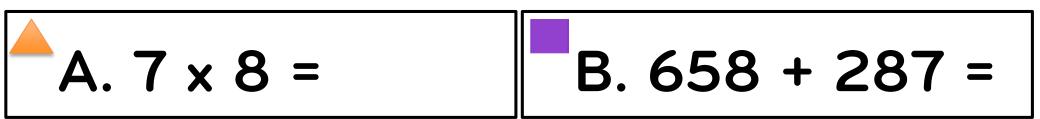

By this week, children should have become familiar with the Fluent in Five challenge and therefore be increasing their speed. For the first time, days with two questions which require a written method are introduced.

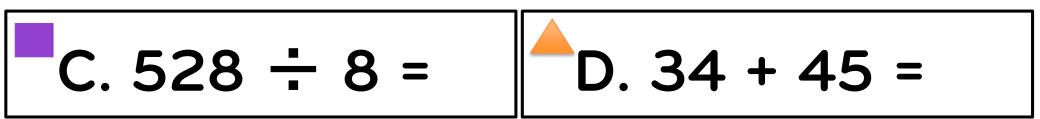

This week:

- Multiplication facts for the 8 times table are tested.
- Mental multiplication focuses on multiplying by 10 and 100.
- Mental addition focuses on adding 2 single-digit numbers without crossing the tens or hundreds boundary.
- Written addition and subtraction calculations this week cross the place value boundaries in 2 places, but do not extend beyond 1 000.
- Both written multiplication and division is based on the 8 times table.

8. 658 + 287 =

C. 528 ÷ 8 =	D. 34 + 45 =
