

Kingfisher Class

Maths Medium Term Planning: Spring Two

W/C	Area to be studied	Main Learning Intentions	Additional Fluency
19/2/24	Multiplication and Division	Revisit taught numeracy strategies taught so far Doubling and halving	Children will begin to select appropriate strategies for different calculations. They will be able to apply these and solve varied calculations with increasing ease. Children will be able to recall the 2, 5, and 10 times tables fluently. They will be able to solve multiplication and division problems with these times tables, including missing number problems and using the inverse. Children will be able to recognise, draw and write fractions accurately. They will be able to solve abstract questions with known fraction amounts.
26/2/24	Multiplication and Division	Learn and be able to fluently recall the 2 times table. Learn and be able to fluently recall the 5 times table. Learn and be able to fluently recall the 10 times table. Solve calculations with the 2, 5 and 10 times tables.	
4/3/24	Multiplication and Division	Learn and be able to fluently recall the 2 times table. Learn and be able to fluently recall the 5 times table. Learn and be able to fluently recall the 10 times table. Solve calculations with the 2, 5 and 10 times tables.	
11/3/24	Fractions	Recognise, find and name write fractions $\frac{1}{2}$, $\frac{1}{3}$, $\frac{1}{4}$, $\frac{2}{4}$, $\frac{3}{4}$, of a set of objects, quantities and of a length.	
18/3/24	Fractions	Write simple fractions accurately as a calculation. Recognise equivalent fractions	

25/3/24	Consolidation of strategies	Revise and consolidate numeracy strategies taught so far.
