

ONGOING:

Children will complete mental arithmetic, basic skills, reasoning, problem solving and times tables activities throughout each week to deepen and consolidate essential mathematical skills.

Main Learning Focus:

Year 5

Statistics (4 sessions)

- solve comparison, sum and difference problems using information presented in a line graph
- complete, read and interpret information in tables, including timetables.

Angles (6 sessions)

- know angles are measured in degrees: estimate and compare acute, obtuse and reflex angles
- measure angles in degrees

Geometry Position and Direction (6 sessions)

- identify, describe and represent the position of a shape following a reflection or translation, using the appropriate language, and know that the shape has not changed.

Decimals (6 sessions)

- Add and subtract decimals
- Multiply and divide by 10, 100 and 1000

Year 6

In the run up to SATS, children will be revisiting a range of topics, guided by AFL and the children's self-assessment.
