

Art

Create images of volcanic eruptions using pointillism

Express emotion through art

History

Learn about the Roman Empire and its impact on Britain- Pompeii

Understand the methods of historical enquiry, including how evidence is used to rigorously to make historical claims

Geography

Describe and understand key aspects of physical geography, including volcanoes and earthquakes.

Locate the world's countries, using maps to focus on Europe (including the location of Russia) and North and South America, concentrating on environmental regions, key physical and human characteristics, countries and major cities.

Use maps, atlases, globes and digital/computer mapping to locate countries and describe features studied.

Tremors

Science

Compare and group together different kinds of rocks on the basis of their appearance and simple physical properties.

Set up simple practical enquiries, comparative and fair tests

Identify differences, similarities or changes related to simple scientific ideas and processes

Computing

Select, use and combine a variety of software on a range of devices to design and create a range of programs, systems and content that accomplish given goals e.g collecting and analysing data.
