The Enquire Learning Trust

We are a multi-academy trust currently responsible for 32 academies in four clusters across the North of England; North East Lincolnshire, Hull, Manchester, Teesside and North Yorkshire.

We work in complete collaboration with each of our academies and place a strong emphasis on school-to-school support and learning. Our academies work in collaboration with one another, sharing both their talent and ideas with others, giving employees the opportunity to learn from individuals within our other academies.

We recognise that the most important assets we have are our employees, and for our academies to succeed we need to ensure we employ the very best people in every single role. Our core values and beliefs are consistent throughout all of our academies, and our keys to success are at the heart of everything we do.

Every role across the Trust is valued, appreciated and purposeful. We believe that the outcome of every role across the Trust should improve the education each of our learners receive. Whether teaching, support or leadership, every single role is vital to the success of our academies.

We also recognise that all of our academies are different, and we encourage individuality. Whilst we believe our academies should work together to support best practice and to share ideas, we don't believe that implementing blanket priorities and objectives is pertinent to a successful academy, and we encourage autonomy for academy leaders wherever possible.

Values

- We believe that all learners can be powerful learners given access to extraordinary learning experiences. We want children and the academies they attend to be confident, successful and ambitious.
- We envisage a Trust where well led, highly skilled and committed professionals collaborate, learn and innovate together to ensure that all academies are successful and where all learners have access to effective and innovative provision that meets their needs and aspirations.
- We want to add value to achievement and raise standards. We also want to change lives. We know this requires our provision and our practice to be world-class – because of the distance we have to travel, we understand that good will not be good enough and that we need to develop a shared appreciation of excellence and then strive to enact this every day.
- We take learning seriously and work together to create a vibrant culture in which this can happen. We know that it's what we do that counts and that our thinking must be visible in classrooms if it is to have leverage. Children are at the forefront of all that we do and aspire to do. We take serious steps to engage them, to hear their voice in authentic ways and then to use their insight and expertise to develop radical pedagogies that tap into their passions and interests and use the potential of emergent technologies.
