A love of words.

We know that all children benefit from having a love of language and a wide vocabulary. We have fun with words through poems, songs, rhymes and books. We learn new words across the curriculum. We foster a love of reading to go through all our lives.

A love of ourselves and other people.

We are all different but we are all special!

We get to know about each other in school and right across the world. We learn about different religions, cultures, abilities and families through books, on-line and meeting others. We value everyone's contribution to the world we all live in and learn to listen and understand. We know how to keep our own minds and bodies healthy so we are happy and ready to learn.

At Euxton Primrose Hill we know that every child has their own needs and interests. By the end of their Reception year with us we want to have particularly fostered a love of these things.

A love of investigating.

The world is such an exciting place! There is lots to explore and we know that families can be hard pushed to find the time. In school we want to give the children as many experiences as possible. At Euxton Primrose Hill we love baking, gardening, crunching in leaves, splashing in puddles and squelching in mud! We are creative and curious. We build models, play board games, solve puzzles and have fun with numbers.

We know that we can do anything if we put our minds to it.
