HEADTEACHER MESSAGE

Sports Day

After having numerous weather apps on the go over the past few days, it looks as though we might have a dry spell on Friday. Therefore, as things currently stand, Sports Day will go ahead as planned, with the original timings remaining in place.

As this is our final available date for Sports Day this year, we are very much hoping that it will be a case of third time lucky!

We understand that many of you will have arranged time away from work to attend the previous dates and appreciate that it is not always easy to cancel or rearrange commitments at short notice. Thank you for your patience, support and understanding as we continue to navigate the ever-unpredictable British weather.

Whilst we are hopeful, we do need to be realistic that if the weather changes significantly, we may have to make the difficult decision to cancel before the event or, if conditions deteriorate, part way through the day.

Here's hoping the rain stays away and we can finally enjoy a successful Sports Day together!

QUAD KIDS COMPETITION

Years 3/4 and Years 5/6 recently competed in a Quad Kids competition. Years 3/4 finished in 6th place overall, while Years 5/6 achieved an excellent 4th place finish.

All of the children performed brilliantly, giving their very best effort throughout the event. We are incredibly proud of our pupils for their determination, teamwork, and sportsmanship. Well done to everyone who took part!

CHILDREN'S UNIVERSITY GRADUATION

It really was such a pleasure and privilege to take our graduates to Edge Hill University yesterday to celebrate their successes both inside and outside of the classroom - a journey of discovery, challenge and growth. A special mention goes to Isabel M who, not only received the outstanding achievement award but also achieved the highest learning credits from a Year 2 child within Lancashire! Well done Isabel.

Before the ceremony, those who had photo permissions had an individual photograph taken. These photos can now be viewed and purchased, please see Showbie for the link and password. You will have to scroll rather a long way down to find our school.

All of the children were a credit to you and our school and we had a wonderful afternoon. Thank you for your continued support.

What Parents & Educators Need to Know about SPORTS BETTING ONLINE

Sports betting online involves placing wagers on real-world sporting events through websites, apps, and linked accounts. In the UK, licensed gambling is illegal for under-18s, yet young people may still encounter betting through sports coverage, social media, gaming spaces, friends, or adult accounts. With gambling content increasingly visible online, parents and educators should help children understand the risks, financial impact, pressure, and how to make safer choices.

WHAT ARE THE RISKS?

EASY ONLINE ACCESS

Online sports betting sites and apps are widely available and can be accessed through phones, tablets, computers, and, indirectly, gaming or social platforms. Some young people may attempt to bypass age checks using false details or someone else's account. Digital wallets, prepaid cards, and saved payment details can also make spending harder to notice, increasing the risk of discreet or impulsive betting.

PEER AND INFLUENCER PRESSURE

Social media influencers, online tipsters, and sports content creators can make betting appear fun, profitable, or part of being a committed fan. Young people may feel pressure to copy this behaviour, especially when friends talk about odds, accumulators, or predictions during matches. Gambling advertising rules aim to protect under-18s, but children can still see persuasive betting content in online spaces.

FREE BET OFFERS

Online betting platforms often use free bets, bonus credits, or 'risk-free' promotions to attract users. These offers can make gambling seem safe or low commitment, but they usually include terms and conditions that young people may not understand. A free incentive can lead to real spending, repeated deposits, or the belief that gambling is easier to control than it is.

NORMALISING GAMBLING BEHAVIOUR

Online sports betting can make gambling feel like a routine part of watching sport. Young people may begin to see odds, predictions, and wagers as harmless entertainment rather than as financial risk. This can also blur boundaries with other gambling-like activities, including loot boxes, skins betting, or casino-style games, making later gambling feel more acceptable or familiar.

ADVERTISING AROUND SPORT

Young people can be exposed to betting brands through sports broadcasts, social media, sponsorship, pitch-side advertising, and content linked to major fixtures. Repeated exposure may make gambling seem normal, glamorous, or expected as part of the sport. Without adult guidance, children may connect betting with excitement, loyalty, and success, rather than understanding that gambling is designed to make money from customers.

CHASING WINS AND LOSSES

A winning bet can create excitement and encourage a young person to try again, while a losing bet may lead them to place another wager to win back the money. This is known as chasing losses. Because online bets can be quick, small, and available at any time, children may not recognise how rapidly repeated decisions can become costly and emotionally harmful.

Advice for Parents & Educators

START EARLY CONVERSATIONS

Talk openly with children about how betting works, including odds, losses, advertising, and the fact that gambling companies are commercial businesses. Use examples they may recognise, such as betting adverts during football matches, influencer predictions, or online tipsters. Keep the tone calm and curious, so that children feel able to ask questions, share concerns, and discuss pressure from friends without fearing punishment.

EXPLORE ONLINE EXPOSURE

Ask which apps, websites, games, sports channels, and social media accounts children use around live sport. Betting content may appear through adverts, sponsorship, livestreams, tipster pages, or discussions between friends. Watching a match together can help you point out gambling messaging in real time and explain how it is designed to influence choices, normalise betting, and encourage spending.

SET SAFER BOUNDARIES

Use device, app store, and bank settings to limit spending, block gambling transactions where possible, and require adult approval for purchases. Check payment histories for unfamiliar withdrawals, digital wallet use, or repeated small transactions. These safeguards work best alongside clear conversations, helping children understand that online payments are still real money, even when they feel quick, hidden, or invisible.

NOTICE AND SEEK SUPPORT

Look out for secrecy around devices, sudden interest in odds, requests for money, unexplained spending, mood changes linked to sports results, or late-night phone use. Respond with support first, then gather information and seek specialist advice where needed. Organisations such as GambleAware, Ygam, GAMSTOP, and the Gambling Commission provide information about gambling harms, education, blocking tools, and support routes.
