

School Development Plan – 2024-2025

DELIVER

These aspects are our priorities for school improvement this year – see action plans

- 1. Oracy**
Further develop opportunities for all pupils to have consistent, coherent and adequately resourced provision to develop the oracy skills they need for success in school and in life.
- 2. Whole school approach to metacognition**
To enhance metacognitive skills and self-regulated learning strategies, ensuring pupils become more aware of their learning processes and can independently apply effective strategies.
- 3. Community**
To solidify our position as a Primary School community hub, by actively engaging with local families, businesses, and residents to foster partnerships and enhance support for pupil's holistic development.
