

# Science- Animals Including Humans- Year 1 Spring Term

## Prior Learning:

In **RECEPTION** you were taught to:  
Talk about similarities and differences between living things.  
Made observations about plants and animals.

## Key Vocabulary

Animal	A living creature that is not a plant including a human.
Amphibian	A small animal that is born in water and then lives on land for part of its life. Frogs and toads are kinds of amphibians.
Bird	An animal with two wings, two feet, and feathers.
Fish	A fish is a creature that lives in water and has a tail and fins.
Mammal	Mammals are animals such as humans, dogs, and whales. In general, female mammals give birth to babies rather than laying eggs, and feed their young with milk.
Reptile	Reptiles are a group of cold-blooded animals which have skins covered with small hard plates called scales and lay eggs.
Carnivore	An animal that eats meat.
Herbivore	An animal that only eats plants.
Omnivore	An animal that eats plants and meat.

## Can I answer:

- Explain what a carnivore, omnivore and herbivore are.
- Name a carnivore, omnivore and herbivore
- Name a fish, mammal, amphibian, reptile, mammal and bird.
- Identify and name basic parts of the

## Sir David Attenborough

Raised awareness about the natural world for over 60 years. With programmes such as 'Our Planet'
