

Key Facts

- We all have shared responsibilities for caring for other people and living things
- There are ways of carrying out shared responsibilities for protecting the environment

I will learn the following new words/phrases:

Reduce	<i>To make the size or quantity of something smaller.</i>
Re-use	<i>To use more than once.</i>
Recycle	<i>To convert waste into reusable materials or to use again.</i>
Environment	<i>The surroundings in which a person, animal, or plant lives.</i>
Carbon footprint	<i>The amount of carbon dioxide we produce.</i>
Carbon dioxide	<i>A gas released into the environment when we carry out certain activities, such as driving or using electricity.</i>
Global warming	<i>A change in the planet which can cause it to become warmer than usual.</i>

By the end of these topics, I should:

- be able to explain the meaning of reduce, reuse, and recycle
- recognise how we can help look after our planet
- be able to identify how to reduce the amount of water and electricity we use
- understand how we can reduce our carbon footprint

Ask me a question!

- What does the phrase 'reduce, re-use, recycle' mean?
- How can we save water?
- How can we reduce the amount of electricity we use?
