Module: Feelings and Emotions

Topic: Worry and Summative Assessment

Year 6

Key Facts

- Families are important for children growing up because they can give love, security and stability
- There is a normal range of emotions (e.g. happiness, sadness, anger, fear, surprise, nervousness) and scale of emotions that all humans experience in relation to different experiences and situations
- It is important to judge whether what you are feeling and how you are behaving is appropriate and proportionate
- Mental wellbeing is a normal part of daily life, in the same way as physical health

I will learn the following new words/phrases:

Worry	To feel anxious or troubled over actual or potential problems.
Anxious	Feeling worried, nervous, or afraid about something certain or uncertain.
Troubled	Having problems or difficulties. Feeling nervous or worried.
Positive action	Doing something that results in a good or beneficial outcome
Prepare for change	To make or get ready for something different.
Mindfulness	Slowing down to really notice what you're doing.
Strategies	A plan, method, or series of actions meant to perform a particular goal or effect.
Managing emotions	To look after and make decisions about your feelings.

By the end of these topics, I should:

- recognise our thoughts, feelings, and emotions
- identify how we can reduce our feeling of worry
- explain how we can support others who feel worried
- recognise that we can choose how we act on our emotions and that our choices and actions can affect ourselves and other people

Ask me a question!

- How can you manage feelings of worry?
- If someone you know is feeling worried, what could you do to help?
- Who could you talk to to help you manage a difficult emotion?
