

Evergreen Primary Phase Long-Term Overview						
Oak Base B						
Project	Autumn One	Autumn Two	Spring One	Spring Two	Summer One	Summer Two
ID	A Child's War	Frozen Kingdom	Blood Heart	Tomorrow's World	Hola Mexico!	
Overview	<p>Who do you think you are? Are you an extrovert or an introvert, a singleton, a twin or even a triplet? Let's discover what makes you, you. From your fingerprints and footprints to your genes and DNA, everything is unique to you. So why do you look like Mum or Dad, or even Auntie Rose? Explore the world of human identity and how our unique features can be used to tell us apart from others or help to solve a crime. Write reports, adverts and poems on the theme of identity and express your opinions, views and beliefs. Do you like the same things as others, or are your tastes uniquely yours? Then, it's time for some detective work. In the case of the stolen handbag, use your knowledge and skills to solve the crime and identify the culprit. And remember to love being you. Why? Because there's only one you. You're one of a kind.</p>	<p>A siren sounds, a building crumbles, a Spitfire zooms overhead. Take cover. It's 1939 and Britain is at war. Deep down in the Anderson shelter, learn why nations are fighting and why child evacuees must make the long journey from their homes and families into unknown territory. Read the diary of Anne Frank, written whilst hiding from the terrifying stormtroopers in a secret annexe, and try to empathise with her hopes and fears. Make do and mend. Cook up a family meal from meagre rations. Delve deep into a bygone era, when loose lips sunk ships. And, as peace is declared, let's get ready to celebrate. Mr Churchill says 'It's an unconditional surrender.'</p>	<p>Welcome to the planet's coldest lands. Vast wilds and hostile territories; incredibly beautiful, yet often deadly. Take shelter from the elements or fall prey to icy winds and the deepest chill. Trek bravely and valiantly across treacherous terrain to the ends of the Earth, treading deep in snow or being pulled by a team of mighty sled dogs. Be alert, for magnificent mammals roam these lands, sometimes hungry or fresh for a fight. Perhaps a hungry polar bear or an Arctic fox is hunting rodents, as swift as the wind. Research facts and figures of climate, temperature, habitats and ecosystems, and compose evocative poems about the Northern Lights. Become part of an Antarctic rescue team, braving the elements to rescue terrified passengers from a ship struck by a deadly iceberg that hides deep beneath the Southern Ocean. Wrap up well and settle by the fire. I'm just going outside and may be some time.</p>	<p>Crimson, scarlet, burgundy, cherry. Blood flows through our bodies in all its vibrant shades of red. Let's explore our circulation system. Now, surgeons, don't be squeamish as we dissect an animal heart and examine the veins, arteries and chambers up close. They all work hard to move blood around our bodies. William Harvey was fascinated with anatomy, and made groundbreaking discoveries about valves. I wonder what we might uncover? Why do people give blood? Find out how to keep your heart happy with cardiovascular exercise and healthy food. Kickstart a campaign to spread the word about the damage caused to the lungs and heart by smoking. Hearts pound, flutter and maybe skip a beat. What makes your heart race? Is it a secret? Cross my heart, I won't tell.</p>	<p>Text messages, emails, websites, blogs and podcasts. There are so many ways to communicate. Learn how to set up a class blog and build a homepage on a subject of your choice. Suggest ways to improve your school website, and hopefully the headteacher will listen to your ideas. Discover the movers and shakers in the world of technology, the people who've shaped the modern world. Perhaps you might be a visionary for the next generation. Build robots and circuits, break codes and investigate gadgets galore. Why not write a thriller narrative in the style of Anthony Horowitz? Then, on request from MI99, build a website for a new Spy School. What pages will it need? One for gadgets? A secret lunch menu? You decide. Let's start today on Tomorrow's World.</p>	<p>Welcome to Mexico. Get ready to explore this unique country, from its towering temples and stunning geography to its pulsing rhythms and fun festivals. Is your tummy rumbling? Concoct a traditional fruit cocktail or a delicious Mexican meal. What's on your shopping list? Go steady with the spices. Discover the mysterious world of the ancient Mayan civilisation. Make their chocolate, learn their poetry, play their ball game and follow all of their curious rituals. Just try to keep your head. Feel like celebrating? Design a flute, grab a drum, join a tribe and make some noise. Have you got what it takes to be chief? Let's find out.</p>
Memorable Experience	Meet John Doe	Evacuees	Investigate ice	Sheep's heart dissection	Spy school website	Mexican musical performance

Innovate Challenge	Forensic crime scene	Street party	Polar rescue mission	Heart charity fundraiser	Spy school website	Festival procession
