**TRIANGLE HUNT**

# Triangle Hunt

Look around the house, garden or on your daily exercise see how many triangles you can see. Decide which type of triangle it is that you spot - keep a tally - and record where you saw your triangles!

Type of Triangle	How many?	Where?
Equilateral		
Isosceles		
Scalene		
Right-Angle		

Where else can we find triangles?

Look at the following pictures. See if you can see any triangles. Which types of triangles can you see?
