

FOOD CHAINS - Science Activity Sheet

1) Look at the food chain below and draw on the arrows. Write below each if they are a producer, consumer, predator or prey.

What do the arrows show ?

Explain what is happening in the food chain above ?

Where does the grass get its energy from as a producer ?

What in the food chain above is the secondary consumer ? Explain why

(2) Order and draw a snake, grasshopper, plant and frog into a food chain - below. Then correctly label your food chain showing the producer, consumers, predator and prey. Add the arrows too!

What would happen in this food chain if there were suddenly less grasshoppers ? Give reasons for your answer

(3) Can you now draw and a label correctly a food chain where the tertiary consumer is a LION?
