| UK | United Kingdom: Scotland, England, Wales, Northern Ireland. |

Human Features

Human features found at the seaside might include the pier, the promenade, a lighthouse and a fairground. These features are all man-made.

Physical Features

A seaside resort has many physical features. Features such as the beach, the sea, cliffs and caves have been made naturally. This means they were made by nature.

Coast to Coast

| Key Vocabulary | |
|---------------------|---|
| habitat | A habitat is the natural place something lives. A habitat provides living things with everything they need to survive such as food, shelter and water. |
| microhabitat | A microhabitat is a very small habitat in places like under a rock, under leaves or on a branch. Minibeasts live in microhabitats . The microhabitats have everything they need to survive . |
| depend | Many living things in a habitat depend on each other. This means they need each other for different things. |
| survive | This means to stay alive. |

Examples of **habitats**:

Examples of **microhabitats**:

Key Knowledge

Food chains. The arrows mean 'is eaten by'.

Key Vocabulary

| | |
|-----------------------|--|
| life processes | These are the things that all living things do. They move, breathe, sense, grow, make babies, get rid of waste and get their energy from food. |
| living | Things that are living have all the life processes . |
| dead | Things that are dead were once living . They did have all the life processes but don't now. |
| never living | Things made out of metal, plastic or rock were never living . They never had the life processes . |
| food chain | A food chain shows how each animal gets its food. Food chains are one of the ways that living things depend on each other to stay alive. |
| food sources | This is the place a living thing's food comes from. |
