Everyday Life
<p>The river Nile was central to life in ancient Egypt; most Egyptians still live along and around it today. It had many uses as it provided:</p> <ul style="list-style-type: none"> • Silt from annual floods • Irrigation • Water for drinking and washing • Fishing • Trade • Mud for making bricks • Papyrus plants for making paper <p>The jobs of many people in ancient Egypt, such as farmers, merchants and builders, relied on the river.</p>

Tomb Raiders

Mummification	When they died, pharaohs and important or wealthy people in ancient Egypt were mummified. Their organs, with the exception of the heart, were removed. Their body would then be dried in natron salt and wrapped in linen fabric with amulets and a Book of the Dead to take with them in the next life. The mummy would then be put in a sarcophagus (decorated coffin) and placed in a tomb. Ordinary Egyptians were simply buried in the desert.
Which account do you think is most reliable?	Some say that Howard Carter found a curse written in hieroglyphs in Tutankhamun's tomb, but hid it to avoid alarming the workers. However, Lord Carnarvon, who funded the discovery, died within six months of the tomb being opened. Other people involved in the opening of the tomb died in the years following. People say that this evidence suggests that the curse of Tutankhamun's tomb is real.
	Shortly after Tutankhamun's tomb was discovered, Lord Carnarvon, who funded the discovery, was bitten by a mosquito. The bite later became infected and he died of blood poisoning. However, Howard Carter and most other people with a link to the project went on to live long lives. People say that this evidence suggests that there is no curse associated with Tutankhamun's tomb.

The Rosetta Stone

The Rosetta Stone is an important artefact that was discovered in 1799. It has an inscription in **hieroglyphs** and two other languages – ancient Greek and Demotic, a more common Egyptian way of writing. It took linguists 20 years to translate the **hieroglyphs** by comparing the languages. We can now read the **hieroglyphs** found on many other artefacts, including on **cartouches**, to find out about different aspects of Egyptian life.
