Coronavirus (COVID-19)

Implementing protective measures within FCAT

COVID-19 Risk Assessment

Academy	Armfield Academy
Activity / Procedure	Managing the risk and rate of transmission of coronavirus (COVID-19) and variants Inc Lockdown, Closure, Roadmap of Reopening, KVV, Students, Staff, Visitors and all Stakeholders. Operational Guidance from 10th May 2021
Assessment date	14 th May 2021
Review date	To be reviewed and updated frequently in light of any updates to existing government guidance or any new guidance.

Identified groups at risk	
Employees	YES
Children	YES
Visitors	YES
Contractors	YES

This risk assessment does not supersede any legal obligations relating to health and safety, employment or equalities.

This risk assessment is completed based on the guidance and information available on the 10th May 2021. This Risk assessment will be updated to reflect any changes in published guidance.

System of controls

This is the set of actions schools must take. They are grouped into 'prevention' and 'response to any infection' and are outlined in more detail within the guidance:
[Schools coronavirus \(COVID-19\) operational guidance](#)

Prevention

You must always:

- 1) Minimise contact with individuals who are required to self-isolate by ensuring they do not attend the school.**
- 2) Ensure face coverings are used in recommended circumstances.**
- 3) Ensure everyone is advised to clean their hands thoroughly and more often than usual.**
- 4) Ensure good respiratory hygiene for everyone by promoting the 'catch it, bin it, kill it' approach.**
- 5) Maintain enhanced cleaning, including cleaning frequently touched surfaces often, using standard products such as detergents.**
- 6) Consider how to minimise contact across the site and maintain social distancing wherever possible.**
- 7) Keep occupied spaces well ventilated.**

In specific circumstances:

- 8) Ensure individuals wear the appropriate personal protective equipment (PPE) where necessary.**
- 9) Promote and engage in asymptomatic testing, where available.**

Response to any infection

You must always:

- 10) Promote and engage with the NHS Test and Trace process.**
- 11) Manage and report confirmed cases of coronavirus (COVID-19) amongst the**

FCAT

school community.

12) Contain any outbreak by following local health protection team advice.

PROTECTIVE MEASURES AND CONTROLS

This outlines the key protective measures the academy will take to deliver the essential controls identified 11th May 2021 [Schools coronavirus \(COVID-19\) operational guidance](#)

Further controls are set out in this risk assessment.

No.	Control	Actions
1	<p>Minimise contact with individuals who are required to self-isolate by ensuring they do not attend the school</p>	<p>When an individual develops coronavirus (COVID-19) symptoms or has a positive test Pupils, staff and other adults must not come into the school if:</p> <ul style="list-style-type: none"> • they have one or more coronavirus (COVID-19) symptoms • a member of their household (including someone in their support bubble or childcare bubble if they have one) has coronavirus (COVID-19) symptoms • they are required to quarantine having recently visited countries outside the Common Travel Area • they have had a positive test <p>They must immediately cease to attend and not attend for at least 10 days from the day after:</p> <ul style="list-style-type: none"> • the start of their symptoms • the test date if they did not have any symptoms but have had a positive test (whether this was a Lateral Flow Device (LFD) or Polymerase Chain Reaction (PCR) test) <p>You must follow this process and ensure everyone onsite or visiting is aware of it.</p> <p>Anyone told to isolate by NHS Test and Trace or by their public health protection team has a legal obligation to self-isolate, but you may leave home to avoid injury or illness or to escape risk of harm. More information can be found on NHS Test and Trace: how it works.</p> <p>If anyone in your school develops a new and continuous cough or a high temperature, or has a loss of, or change in, their normal sense of taste or smell (anosmia), you:</p> <ul style="list-style-type: none"> • must send them home to begin isolation - the isolation period includes the day the symptoms started and the next 10 full days • advise them to follow the guidance for households with possible or confirmed coronavirus (COVID-19) infection • advise them to arrange to have a test as soon as possible to see if they have coronavirus (COVID-19) <p>Other members of their household (including any siblings and members of their support or childcare bubble if they have one) should self-isolate. Their isolation period includes the day symptoms started for the first person in their household, or the day their test was taken if they did not have symptoms, whether this was a Lateral Flow Device (LFD) or Polymerase Chain Reaction (PCR) test), and the next 10 full days. If a member of the household starts to display symptoms while self isolating they will need to restart the 10 day isolation period and book a test.</p> <p>If anyone tests positive whilst not experiencing symptoms but develop symptoms during the isolation period, they must restart</p>

FCAT

		<p>the 10 day isolation period from the day they developed symptoms.</p> <p>In non-residential schools, if a pupil displays coronavirus (COVID-19) symptoms, or has a positive test, while at their school they should avoid using public transport and, wherever possible, be collected by a member of their family or household.</p> <p>In exceptional circumstances, if parents or carers cannot arrange to have their child collected, if age-appropriate and safe to do so the child should walk, cycle or scoot home following a positive test result. If this is not possible, alternative arrangements may need to be organised by the school. The local authority may be able to help source a suitable vehicle which would provide appropriate protection for the driver, who must be made aware that the individual has tested positive or is displaying symptoms.</p> <p>If a pupil is awaiting collection:</p> <ul style="list-style-type: none">• they should be moved, if possible, to a room where they can be isolated behind a closed door, depending on the age and needs of the pupil, with appropriate adult supervision if required• a window should be opened for fresh air ventilation if it is safe to do so• if it is not possible to isolate them, move them to an area which is at least 2 metres away from other people• if they need to go to the bathroom while waiting to be collected, they should use a separate bathroom if possible - the bathroom must be cleaned and disinfected using standard cleaning products before being used by anyone else• personal protective equipment (PPE) must be worn by staff caring for the pupil while they await collection if a distance of 2 metres cannot be maintained (such as for a very young child or a child with complex needs) – more information on PPE use can be found in the safe working in education, childcare and children’s social care settings guidance <p>In an emergency, call 999 if someone is seriously ill or injured or their life is at risk.</p> <p>Anyone with coronavirus (COVID-19) symptoms should not visit the GP, pharmacy, urgent care centre or a hospital, unless advised to.</p> <p>If a pupil in a boarding school shows symptoms, they should initially self-isolate in their residential setting household. Most will benefit from self-isolating in their boarding house so that their usual support can continue. Others will benefit more from self-isolating in their home.</p> <p>The individual should not use public transport if they are symptomatic. If arranging their return to their family home to isolate, schools should follow advice on transport arrangements in the safe working in education, childcare and children’s social care settings guidance.</p> <p>Public Health England (PHE) has good evidence that routinely taking the temperature of pupils is not recommended as this is an unreliable method for identifying coronavirus (COVID-19). Further information is available on how to manage and report confirmed cases of coronavirus (COVID-19) amongst the school community.</p> <p>When an individual has had close contact with someone with coronavirus (COVID-19) symptoms</p> <p>Any member of staff who has provided close contact care to someone with symptoms, regardless of whether they are wearing PPE, and all other members of staff or pupils who have been in</p>
--	--	--

FCAT

		<p>close contact with that person, do not need to go home to self-isolate unless:</p> <ul style="list-style-type: none"> • the symptomatic person subsequently tests positive • they develop symptoms themselves (in which case, they should self-isolate immediately and arrange to have a test) • they are requested to do so by NHS Test and Trace or the Public Health England (PHE) advice service (or PHE local health protection team if escalated) • they have tested positive from an LFD test as part of a community or worker programme <p>Everyone must wash their hands thoroughly for 20 seconds with soap and running water or use hand sanitiser after any contact with someone who is unwell. The area around the person with symptoms must be cleaned after they have left, to reduce the risk of passing the infection on to other people. See the guidance on the cleaning of non-healthcare settings.</p> <p>If you are contacted by NHS Test and Trace or your local health protection team and told to self-isolate because you have been a close contact of a positive case, you have a legal obligation to do so.</p>
2	<p>Ensure face coverings are used in recommended circumstances</p>	<p>Based on the current state of the pandemic and the positive progress being made, it is no longer necessary to recommend the additional precautionary face covering measures put in place from the 8 March.</p> <p>From 17 May, in line with Step 3 of the roadmap, face coverings will no longer be recommended for pupils in classrooms or communal areas in all schools. Face coverings will also no longer be recommended for staff in classrooms.</p> <p>In all schools we continue to recommend that face coverings should be worn by staff and visitors in situations outside of classrooms where social distancing is not possible (for example, when moving around in corridors and communal areas).</p> <p>Where schools are delivering education and training, including extra-curricular activities and wraparound childcare, in a community setting (for example, library or community centre), staff and pupils will be exempt from the legal requirement to wear a face covering if they are in a private room or the premises has been exclusively hired for the sole use of its pupils and staff.</p> <p>The reintroduction of face coverings for pupils, students or staff may be advised for a temporary period in response to particular localised outbreaks, including variants of concern. In all cases, any educational drawbacks should be balanced with the benefits of managing transmission. The Local Action Committee structure (bronze/silver/gold) should be used in such circumstances to re-introduce the use of face coverings.</p> <p>Immediate outbreak response (at the level of individual settings or a cluster of settings) remains for local directors of public health to advise on.</p> <p>Children and young people aged 11 and over must still wear a face covering on public transport. In accordance with advice from PHE, they must also wear a face covering when travelling on dedicated transport to secondary school or college. This does not</p>

FCAT

		<p>apply to children and young people who are exempt from wearing face coverings.</p> <p>The use of face coverings may have a particular impact on those who rely on visual signals for communication. Those who communicate with or provide support to those who do, are exempt from any recommendation to wear face coverings in education settings or requirements in public places.</p> <p>Where our guidance recommends face coverings, transparent face coverings, which may assist communication with someone who relies on lip reading, clear sound or facial expression to communicate, can also be worn. Transparent face coverings may be effective in reducing the spread of COVID-19. However, the evidence to support this is currently very limited. Face coverings (whether transparent or cloth) should fit securely around the face to cover the nose and mouth and be made with a breathable material capable of filtering airborne particles.</p> <p>The main benefit from a transparent face covering is that they can aid communication, for example enabling lip-reading or allowing for the full visibility of facial expressions, but this must be considered alongside the comfort and breathability of a face covering which contains plastic which may mean that the face covering is less breathable than layers of cloth.</p> <p>More broadly, schools have a duty to make reasonable adjustments for disabled pupils and students, to support them to access education successfully.</p> <p>The following is a non exhaustive list which provides examples of possible adjustments where face coverings are recommended: the provision and effective use of assistive listening devices, such as radio aids</p> <p>an increased focus on the listening environment, minimising all unnecessary background noise - steps should be taken so that children with hearing loss are taught in classrooms with the best possible acoustic conditions allowing the use of speech-recognition apps on mobile devices and tablets in classrooms, taking into account possible variations in the effectiveness of such apps in different classroom situations</p> <p>additional communication support, including remote speech-to-text reporters or sign language interpreters</p> <p>Where appropriate, education settings should discuss with pupils and parents the types of reasonable adjustments that are being considered to support an individual.</p> <p>Face visors or shields can be worn by those exempt from wearing a face covering but they are not an equivalent alternative in terms of source control of virus transmission.</p> <p>They may protect the wearer against droplet spread in specific circumstances but are unlikely to be effective in preventing the escape of smaller respiratory particles when used without an additional face covering. They should only be used after carrying out a risk assessment for the specific situation and should always be cleaned appropriately.</p>
--	--	--

FCAT

		<p>Exemptions:</p> <p>Where face coverings are recommended there are some circumstances where people may not be able to wear a face covering.</p> <p>This includes (but is not limited to):</p> <ul style="list-style-type: none">people who cannot put on, wear or remove a face covering because of a physical or mental illness or impairment, or disability where putting on, wearing or removing a face covering will cause people severe distresspeople speaking to or providing assistance to someone who relies on lip reading, clear sound or facial expressions to communicateto avoid harm or injury, or the risk of harm or injury, to the wearer or others – including if it would negatively impact on people’s ability to exercise or participate in a strenuous activity <p>The same exemptions will apply in education and childcare settings and you should be sensitive to those needs, noting that some people are less able to wear face coverings and that the reasons for this may not be visible to others.</p> <p>Access to face coverings</p> <p>Due to the use of face coverings in wider society, staff and pupils are already likely to have access to face coverings.</p> <p>You should have a small contingency supply available for people who:</p> <ul style="list-style-type: none">are struggling to access a face coveringare unable to use their face covering as it has become damp, soiled or unsafehave forgotten their face covering <p>Safe wearing and removal of face coverings</p> <p>You should have a process for when face coverings are worn within your school and how they should be removed, for example when pupils arrive at school wearing them. You should communicate this process clearly to pupils, staff and visitors and allow for adjustments to be made for those who may be distressed if required to remove a face covering against their wishes.</p> <p>Safe wearing of face coverings necessitates:</p> <ul style="list-style-type: none">cleaning hands before and after touching face coverings, – including to remove or put them on safelystoring face coverings in individual, sealable plastic bags between usenot touching the front of face coverings during use or when removing them <p>Where a face covering becomes damp, it should not be worn, and the face covering should be replaced carefully. Staff may consider bringing a spare face covering to wear if their face covering becomes damp during the day.</p> <p>If pupils arrive at school wearing a face covering you must instruct pupils to:</p>
--	--	--

FCAT

		<p>not touch the front of their face covering when removing it dispose of temporary face coverings in a 'black bag' waste bin (not recycling bin)</p> <p>place reusable face coverings in a plastic bag they can take home with them</p> <p>wash their hands again before heading to their classroom</p>
3	<p>Ensure everyone is advised to clean their hands thoroughly and more often than usual</p>	<p>COVID-19 is an easy virus to kill when it is on skin. This can be done with soap and water or hand sanitiser. You must ensure that pupils clean their hands regularly, including:</p> <ul style="list-style-type: none"> when they arrive at the school when they return from breaks when they change rooms before and after eating <p>Consider how often pupils and staff will need to wash their hands and incorporate time for this in timetables or lesson plans.</p> <p>Staff working with pupils who spit uncontrollably may want more opportunities to wash their hands than other staff.</p> <p>Pupils who use saliva as a sensory stimulant or who struggle with 'catch it, bin it, kill it' may also need more opportunities to wash their hands.</p> <p>Continue to help pupils with complex needs to clean their hands properly.</p> <p>Frequent and thorough hand cleaning should now be regular practice. You should consider:</p> <ul style="list-style-type: none"> whether you have enough hand washing or hand sanitiser stations available so that all pupils and staff can clean their hands regularly if you need to supervise hand sanitiser use given the risks around ingestion – skin friendly skin cleaning wipes can be used as an alternative <p>building these routines into school culture, supported by behaviour expectations</p> <p>and helping ensure younger pupils and those with complex needs understand the need to follow them</p>
4	<p>Ensure good respiratory hygiene for everyone by promoting the 'catch it, bin it, kill it' approach</p>	<p>The 'catch it, bin it, kill it' approach continues to be very important. Make sure enough tissues and bins are available to support pupils and staff to follow this 15 routine. As with hand cleaning, you must ensure younger pupils and those with complex needs are helped to get this right, and all pupils understand that this is now part of how the setting operates. The e-Bug coronavirus (COVID-19) website contains free resources for schools, including materials to encourage good hand and respiratory hygiene.</p> <p>Some pupils with complex needs will struggle to maintain as good respiratory</p>

FCAT

		<p>hygiene as their peers, for example those who spit uncontrollably or use saliva as a sensory stimulant. This should be considered in risk assessments in order to support these pupils and the staff working with them and is not a reason to deny these pupils face-to-face education.</p>
5	<p>Maintain enhanced cleaning, including cleaning frequently touched surfaces often, using standard products, such as detergents</p>	<p>In line with the risk assessment and timetabling of the day, put in place and maintain an enhanced cleaning schedule. This should include:</p> <ul style="list-style-type: none"> • more frequent cleaning of rooms or shared areas that are used by different groups • frequently touched surfaces being cleaned more often than normal • cleaning toilets regularly • encouraging pupils to wash their hands thoroughly after using the toilet • if your site allows it, allocating different groups their own toilet blocks <p>PHE has published guidance on the cleaning of non-healthcare settings. This contains advice on the general cleaning required in addition to the existing advice on cleaning when there is a suspected case.</p>
6	<p>Consider how to minimise contact across the site and maintain social distancing wherever possible</p>	<p>Minimising contacts and mixing between people reduces transmission of COVID-19. This is important in all contexts, and you must consider how to implement this. You must do everything possible to minimise contacts and mixing while delivering a broad and balanced curriculum.</p> <p>The overarching principle to apply is reducing the number of contacts between pupils and staff. This can be achieved through keeping groups separate (in 'bubbles') and through maintaining distance between individuals. These are not alternative options and both measures will help, but the balance between them will change depending on the:</p> <ul style="list-style-type: none"> pupil's ability to distance layout of the building feasibility of keeping distinct groups separate while offering a broad curriculum <p>How to group pupils</p> <p>Consistent groups reduce the risk of transmission by limiting the number of pupils and staff in contact with each other to only those within the group. Maintaining distinct groups or 'bubbles' that do not mix makes it quicker and easier in the event of a positive case to identify those who may need to self-isolate and to keep that number as small as possible.</p> <p>When using larger groups, the other measures from the system of controls become even more important to minimise:</p> <ul style="list-style-type: none"> transmission risks the numbers of pupils and staff who need to self-isolate

FCAT

		<p>Younger pupils and those with complex needs will not be able to maintain social distancing and it is acceptable for them not to distance within their group.</p> <p>Using small groups can: restrict the normal operation of education present educational and logistical challenges</p> <p>You will need to consider: the cleaning and use of shared spaces, such as: playgrounds boarding houses dining halls toilets the provision of specialist teaching and therapies</p> <p>Assess your circumstances and try to implement 'bubbles' of an appropriate size to achieve the greatest reduction in contact and mixing. Make sure this will not affect the quality and breadth of teaching or access for support and specialist staff and therapists.</p> <p>Whatever the size of the group, they should be kept apart from other groups where possible. Encourage pupils to keep their distance within groups. Try to limit interaction, sharing of rooms and social spaces between groups as much as possible.</p> <p>Both the approaches of separating groups and maintaining distance are not 'all or nothing' options and will still bring benefits, even if partially implemented.</p> <p>You may keep pupils in their class groups for most of the classroom time, but also allow mixing in wider groups for: specialist teaching wraparound care transport boarding pupils who may be in one group residentially and another during the school day</p> <p>Siblings may also be in different groups.</p> <p>All teachers and other staff can operate across different classes and year groups to facilitate the delivery of the timetable and specialist provision.</p> <p>Where staff need to move between groups, they should try and keep their distance from pupils and other staff as much as they can, ideally 2 metres from other adults. Try to minimise the number of interactions or changes wherever possible.</p> <p>Measures within the classroom</p> <p>Maintaining a distance between people while inside and reducing the amount of time they are in face-to-face contact lowers the risk of transmission. There is strong public health advice that staff in secondary schools maintain distance from their pupils, staying at the front of the class, and away from their colleagues where possible. Ideally, adults should</p>
--	--	---

FCAT

		<p>maintain 2-metre distance from each other and from children. We know that this is not always possible, particularly when working with pupils with complex needs, or those who need close contact care. Provide educational and care support for these pupils as normal, with other increased hygiene protocols in place to minimise the risk of transmission.</p> <p>Where possible, for example with older pupils with less complex needs who can self-regulate their behaviours without distress, they should also be supported to maintain distance and not touch staff and their peers. This will not be possible for the youngest children, and some children and young people with complex needs. It may also not be feasible where space does not allow it. Doing this where you can, even some of the time will help.</p> <p>When staff and pupils cannot maintain distancing, the risk can be reduced by keeping pupils in the smaller, class-sized groups.</p> <p>You should make small adaptations to the classroom to support distancing where possible. That should include seating pupils side by side and facing forwards, rather than face-to-face or side-on. It might also include moving unnecessary furniture out of the classroom to make more space.</p> <p>Measures elsewhere</p> <p>You should avoid large gatherings such as assemblies or collective worship with more than one group.</p> <p>When timetabling, groups should be kept apart and movement around the school kept to a minimum. While passing briefly in the corridor or playground is low risk, avoid creating busy corridors, entrances and exits. Consider staggered break times and lunch times.</p> <p>Make sure you allow time for cleaning surfaces in the dining hall between groups.</p> <p>You should also plan how shared staff spaces are set up and used to help staff to distance from each other.</p> <p>You should minimise the use of staff rooms, although staff must still have a break of a reasonable length during the day.</p> <p>Measures for arriving at, and leaving the setting</p> <p>Consider staggered starts or adjusting start and finish times to keep groups apart as they arrive and leave.</p> <p>Staggered start and finish times should not reduce the amount of overall teaching time. A staggered start may include:</p> <ul style="list-style-type: none">condensing or staggering free periods or break time but retaining the same amount of teaching timekeeping the length of the day the same but starting and finishing later to avoid busy periods
--	--	--

FCAT

		<p>You should consider how to communicate any changes to parents. Remind them about the process that has been agreed for drop off and collection, including not to:</p> <ul style="list-style-type: none">gather at the gatescome onto the site without an appointment <p>Travelling to the setting</p> <p>Pupils and staff may use public transport where necessary, but we encourage them to walk, cycle or scoot to and from school wherever it is possible and safe to do so. Where pupils and staff need to use public transport, they should follow the safer travel guidance for passengers.</p> <p>The transport to schools and other places of education guidance requires those involved in the provision of dedicated transport to schools to identify the risks. You should adopt measures to address those risks in a way that works in the local circumstances.</p> <p>Distancing should be maximised and the mixing of groups should be minimised where possible and practical.</p> <p>People aged 11 and over must wear a face covering when travelling on public transport.</p> <p>In accordance with advice from PHE, they must also wear a face covering when travelling on dedicated transport to secondary school. People who are exempt do not need to wear a face covering.</p> <p>Other considerations</p> <p>Some pupils with SEND (whether with EHC plans or on SEN support) will need specific help and preparation for the changes to routine that these measures will involve. Staff should plan to meet these needs, for example using social stories. To make sure pupils with medical conditions are fully supported, work with:</p> <ul style="list-style-type: none">local authoritieshealth professionalsregional schools' commissionersother services <p>Use individual healthcare plans to help pupils receive an education in line with their peers. In some cases, the pupil's medical needs will mean this is not possible, and educational support will require flexibility. Further information is available in the guidance on supporting pupils at school with medical conditions.</p> <p>Specialists, therapists, clinicians and other support staff for pupils with SEND should provide interventions as usual. They, as well as supply teachers, peripatetic teachers or other temporary staff, can move between settings. They should ensure they minimise contact and maintain as much distance as possible from other staff. Such specialists will be aware of the PPE most appropriate for their role. Schools should consider how to</p>
--	--	--

FCAT

		<p>manage other visitors to the site, such as contractors, catering staff and deliveries, as well as cleaning staff on site who may be working throughout the school and across different groups. This will require close co-operation between schools and the other relevant employers.</p> <p>You should have discussions with key contractors about the school's control measures and ways of working. They should ensure site guidance on physical distancing and hygiene is explained to visitors on or before arrival. Where visits can happen safely outside of school hours, they should. A record should be kept of all visitors with sufficient detail to support rapid contact tracing if required by NHS Test and Trace.</p> <p>As normal, you should engage with your local immunisation providers to provide routine immunisation programmes on-site, ensuring these will be delivered in keeping with the school's control measures. These programmes are essential for children's health and wellbeing and can also provide benefits for staff.</p> <p>Where a pupil routinely attends more than one setting on a part-time basis, for example, because they are dual registered at a mainstream school and a special setting, the settings should work through the system of controls collaboratively, enabling them to address any risks identified and allowing them to jointly deliver a broad and balanced curriculum for the pupil. Pupils should be able to continue attending both settings. While some adjustment to arrangements may be required, pupils in this situation should not be isolated as a solution to the risk of greater contact except when required by specific public health advice.</p> <p>Equipment</p> <p>For individual and very frequently used equipment, such as pencils and pens, staff and pupils should have their own items.</p> <p>Classroom-based resources, such as books and games, can be used and shared within the bubble. These should be cleaned regularly, along with all frequently touched surfaces.</p> <p>Resources that are shared between classes or bubbles, such as sports, arts, and science equipment should be cleaned frequently. When sharing equipment between different bubbles, you should either:</p> <ul style="list-style-type: none">clean it before it is moved between bubblesallow them to be left unused for a period of 48 hours (72 hours for plastics) <p>You will need to assess the ability to clean equipment used in the delivery of therapies, for example, physiotherapy equipment or sensory equipment. Determine whether this</p>
--	--	--

FCAT

		<p>equipment can withstand cleaning and disinfecting between each use before it is put back into general use. Where cleaning or disinfecting is not possible or practical, resources will have to be either:</p> <ul style="list-style-type: none"> restricted to one user left unused for a period of 48 hours (72 hours for plastics) between use by different individuals <p>Outdoor playground equipment should be more frequently cleaned than normal. This also applies to resources used inside and outside by wraparound care and out-of-school settings providers.</p> <p>Pupils should limit the amount of equipment they bring into school each day, including essentials such as:</p> <ul style="list-style-type: none"> lunch boxes hats and coats books stationery mobile phones <p>Bags are allowed.</p> <p>Pupils and teachers can take books and other shared resources home, although unnecessary sharing should be avoided. Similar rules on hand cleaning, cleaning of the resources and rotation should apply to these resources.</p> <p>Parent pick-up and drop-offs</p> <p>We know that travel to school patterns differ greatly. If those patterns allow, schools should consider staggered starts or adjusting start and finish times to keep groups apart as they arrive and leave school. Staggered start and finish times should not reduce the amount of overall time children spend in school. A staggered start may, for example, include keeping the length of the day the same but starting and finishing later to avoid rush hour. Schools should consider how to communicate this to parents and remind them about the process that has been agreed for drop off and collection, including that gathering at the school entrance and otherwise coming onto the site without an appointment is not allowed.</p>
7	<p>Keep occupied spaces well ventilated</p>	<p>Good ventilation reduces the concentration of the virus in the air, which reduces the risk from airborne transmission. This happens when people breathe in small particles (aerosols) in the air after someone with the virus has occupied and enclosed area. When your school is in operation, it is important to ensure it is well ventilated and</p>

FCAT

		<p>a comfortable teaching environment is maintained. These can be achieved by a variety of measures including:</p> <ul style="list-style-type: none"> • mechanical ventilation systems – these should be adjusted to increase the ventilation rate wherever possible and checked to confirm that normal operation meets current guidance and that only fresh outside air is circulated. <p>If possible, systems should be adjusted to full fresh air or, if not, then systems should be operated as normal as long as they are within a single room and supplemented by an outdoor air supply</p> <ul style="list-style-type: none"> • natural ventilation – opening windows (in cooler weather windows should be opened just enough to provide constant background ventilation and opened more fully during breaks to purge the air in the space). Opening internal doors can also assist with creating a throughput of air • natural ventilation – if necessary external opening doors may also be used (as long as they are not fire doors and where safe to do so) <p>The Health and Safety Executive guidance on air conditioning and ventilation during the coronavirus outbreak and CIBSE coronavirus (COVID-19) advice provides more information.</p> <p>To balance the need for increased ventilation while maintaining a comfortable temperature, consider:</p> <ul style="list-style-type: none"> • opening high level windows in colder weather in preference to low level to reduce draughts • increasing the ventilation while spaces are unoccupied (for example, between classes, during break and lunch, when a room is unused) • providing flexibility to allow additional, suitable indoor clothing – for more information see school uniform • rearranging furniture where possible to avoid direct draughts <p>Heating should be used as necessary to ensure comfort levels are maintained particularly in occupied spaces.</p>
8	<p>Ensure individuals wear the appropriate personal protective equipment (PPE) where necessary</p>	<p>Face coverings are not classified as PPE (personal protective equipment). PPE is used in a limited number of settings to protect wearers against hazards and risks, such as surgical masks or respirators used in medical and industrial settings. A face covering is a covering of any type which covers your nose and mouth.</p> <p>Most staff in schools will not require PPE beyond what they would normally need for their work. If a pupil already has routine intimate care needs that involve the use of PPE, the same PPE should continue to be used.</p>

FCAT

		<p>Additional PPE for coronavirus (COVID-19) is only required in a very limited number of scenarios, for example, when:</p> <ul style="list-style-type: none"> • a pupil becomes ill with coronavirus (COVID-19) symptoms, and only then if a 2 metre distance cannot be maintained • performing aerosol generating procedures (AGPs) <p>When working with children and young people who cough, spit or vomit but do not have coronavirus (COVID-19) symptoms, only any PPE that would be routinely worn, should be worn.</p> <p>The guidance on safe working in education, childcare and children’s social care provides more information about preventing and controlling infection. This includes:</p> <ul style="list-style-type: none"> • when and how PPE should be used • what type of PPE to use • how to source it
<p>9</p>	<p>Promote and engage in asymptomatic testing, where available</p>	<p>Rapid testing remains a vital part of our plan to suppress this virus. Schools should follow the guidance set out for their settings:</p> <ul style="list-style-type: none"> • Primary schools, school-based nurseries and maintained nursery schools • Secondary schools and colleges • Specialist settings
<p>10</p>	<p>Promote and engage with the NHS Test and Trace process</p>	<p>Staff members, parents and carers will need to:</p> <ul style="list-style-type: none"> • book a test if they or their child has symptoms - the main symptoms are: <ul style="list-style-type: none"> o a high temperature o a new continuous cough o a loss or change to your sense of smell or taste • self-isolate immediately and not come to school if: <ul style="list-style-type: none"> o they develop symptoms o they have been in close contact with someone who tests positive for coronavirus (COVID-19) o anyone in their household or support or childcare bubble develops symptoms of coronavirus (COVID-19) o they are required to do so having recently travelled from certain other countries o they have been advised to isolate by NHS test and trace or the PHE local health protection team, which is a legal obligation • provide details of anyone they have been in close contact with, if they test positive for coronavirus (COVID-19) or if asked by NHS Test and Trace <p>Polymerase Chain Reactions (PCR) tests for symptomatic testing Booking a polymerase chain reaction (PCR) test through 119 Anyone who displays symptoms of coronavirus (COVID-19) can and should get a</p>

FCAT

		<p>test. Tests for symptomatic illness can be booked online through the NHS testing and tracing for coronavirus (COVID-19) website, or ordered by telephone via NHS 119 for those without access to the internet.</p> <p>Essential workers, which includes anyone involved in education or childcare, have priority access to testing.</p> <p>All children and young people can be tested if they have symptoms. This includes children under 5, but children aged 11 and under will need to be helped by their parents or carers if using a home testing kit.</p> <p>Polymerase Chain Reaction (PCR) tests contingency supply Separate to the asymptomatic testing regime, all schools were sent an initial supply of 10 PCR test kits before the start of the autumn term in 2020. You can replenish these kits when they run out by making an order through the online portal. You should call the Test and Trace helpdesk on 119 if the kits that you have ordered have not arrived.</p> <p>Having a test at a testing site will deliver the fastest results for symptomatic cases.</p> <p>These PCR test kits are provided to be used in the exceptional circumstance that an individual becomes symptomatic and you believe they may have barriers to accessing testing elsewhere.</p> <p>You will need to decide how to prioritise the distribution of your test kits.</p> <p>These kits can be given directly to:</p> <ul style="list-style-type: none">• staff• parents collecting a pupil who has developed symptoms at school <p>These PCR tests kits will also help ensure that symptomatic staff can get a test. If they test negative, they can return to work as soon as they are well and no longer have symptoms of coronavirus (COVID-19).</p> <p>Further information on test kits for schools and further education providers is available.</p> <p>Ask parents and staff to inform you as soon as they get their results.</p> <p>NHS COVID-19 app</p> <p>The app is available to anyone aged 16 and over to download if they choose. For some young people, particularly some with SEND, parents will need to decide whether their use of the app is appropriate.</p> <p>This will mean that some pupils in year 11, and most pupils in years 12 and above will be eligible to use the app and benefit from its features. Staff members are also able to use the app.</p> <p>The guidance for schools and further education colleges in England provides</p>
--	--	--

FCAT

		<p>information about how the app works and guidance for its use within schools in England.</p>
<p>11</p>	<p>Manage confirmed cases of coronavirus (COVID-19) amongst the school community</p>	<p>Swift action must be taken when someone tests positive for COVID-19. If someone who uses dedicated transport tests positive, local authorities should work with schools and colleges to identify close contacts. Schools may receive support on this through the dedicated advice service introduced by PHE, which can be reached through the DfE helpline on 0800 046 8687, or their PHE local health protection team if escalated. Based on their advice, people who have been in close contact with the person who has tested positive must be sent home and advised to self-isolate immediately and for at least the next 10 full days counting from the day after contact with the individual who tested positive. It is a legal requirement for an individual to self-isolate if they have been told to do so by NHS Test and Trace. A risk assessment may be undertaken to determine this, but a close contact can be anyone who:</p> <ul style="list-style-type: none"> lives in the same household as someone with COVID-19 symptoms or who has tested positive for COVID-19 has had any of the following types of contact with someone who has tested positive for COVID-19 with either a PCR test or LFD test (if a confirmatory PCR test is negative, provided it was taken within two days of the positive LFD, it overrides the lateral flow test and close contacts can stop selfisolating): <ul style="list-style-type: none"> • face-to-face contact including being coughed on or having a face-to-face conversation within 1 metre • been within 1 metre for 1 minute or longer without face-to-face contact • been within 2 metres of someone for more than 15 minutes (either as a one-off contact or added up together over 1 day) • travelled in the same vehicle or a plane <p>Whilst awaiting the confirmatory PCR result, pupils, students and staff and close contacts should continue to self-isolate. If someone who uses transport tests positive, the assessment is likely to take account of factors such as:</p> <ul style="list-style-type: none"> vehicle size degree of face-to-face contact length of time in close proximity whether a Perspex screen is in place <p>The advice service (or PHE local health protection team if escalated) will provide advice on who must be sent home and asked to self-isolate. To support them in doing so, we</p>

FCAT

		<p>recommend you keep a record of pupils and staff in each group, and any close contact that takes places between pupils and staff in different groups (see section 6 of the system of control for more on grouping pupils). This should be a proportionate recording process. You do not need to ask pupils to record everyone they have spent time with each day or ask staff to keep definitive records in a way that is overly burdensome.</p> <p>Where individuals are self-isolating and are within our definition of vulnerable, it is important that schools put systems in place to keep in contact with them, offer pastoral support, and check they are able to access education support. A template letter has been provided for you to send to parents of children asked to selfisolate. This can also be used for staff if needed. It is important that this letter is shared promptly with all parents of children that have been asked to self-isolate as this letter allows parents who are on a low income and unable to work from home to apply to their local authority for financial support under the Test and Trace Support Payment scheme.</p> <p>They will not be able to make an application without providing this letter as supporting evidence. You must not share the names or details of people with COVID-19 unless essential to protect others.</p> <p>Household members of those contacts who are sent home do not need to self-isolate themselves unless the pupil or staff member who is self-isolating subsequently develops symptoms. This is unless they have been told to self-isolate by NHS Test and Trace or their public health protection team, in which case they must self-isolate; this is a legal obligation. If someone in a class or group that has been asked to self-isolate develops symptoms themselves within the 10 days from the day after contact with the individual who tested positive, they should follow guidance for households with possible or confirmed coronavirus (COVID-19) infection.</p> <p>They should get a test, and: if the test delivers a negative result, they should remain in isolation for the remainder of the 10-day isolation period - this is because they could still develop COVID-19 within the remaining days if the test result is positive, they should inform their school immediately, and must isolate from the day of onset of their symptoms and at least the following 10 full days - their household should self-isolate starting from when the symptomatic person in their household first had symptoms and the next 10 full days,</p>
--	--	---

FCAT

		<p>following guidance for households with possible or confirmed COVID-19 infection You should not request evidence of negative test results or other medical evidence before admitting children or welcoming them back after a period of self-isolation. Further guidance is available on testing and tracing for COVID-19. Reporting actual or suspected cases of COVID-19 through the education setting status form From 11 January, we asked you to resume completing the educational setting status form. From 8 March, the form was amended to reflect wider opening. The data you supply helps the government monitor the impact of COVID-19 on schools. See guidance on how to submit the educational settings status form for more information. Test and Trace Support Payments Some school staff, parents and carers may be eligible for a one-off Test and Trace Support Payment of £500. This is payable in one lump sum from your local authority. To be eligible for a Test and Trace Support Payment, you must: be on a low income be unable to work from home be at risk of losing income as a result of self-isolating be living in England meet the eligibility criteria Staff identified as close contacts of a positive case will require an NHS Test and Trace Account ID number (CTAS number) to be able to claim a Test and Trace Support Payment or discretionary payment. Parents and carers of self-isolating children should be provided with a letter to support their application for payment, but will not require an NHS Test and Trace Account ID number (CTAS number). The Department of Health and Social Care (DHSC) has launched the self-isolation service hub (020 3743 6715). The phone line is open 7 days a week, 8am to 8pm, allowing a school to provide contact details of any staff who have been asked to self-isolate and are likely to be eligible for the Test and Trace Support Payment or discretionary payment. In order for any of your staff who may be eligible for a payment from the Test and Trace Support Payment scheme to be able to claim, you must follow these steps. Ensure that you collate a list of appropriate close contacts for the person who has tested positive within your establishment and inform these close contacts that they now need to self-isolate. Call the service hub on 020 3743 6715 as soon as you have the 8-digit NHS Test and Trace Account ID (sometimes referred to as a CTAS number) of the person</p>
--	--	---

FCAT

		<p>who has tested positive. Provide the details of the person who has tested positive, along with the details of the relevant staff members you have identified as close contacts. If you do not have NHS Test and Trace Account ID for the person who has tested positive, Hub staff will assist in tracing the person in order to register their contacts on the Test and Trace system (CTAS). NHS Test and Trace will then contact individuals to formally advise them of their need to self-isolate and provide them with an NHS Test and Trace Account ID. Following this, individuals who are employed or self-employed, on a low income, unable to work from home and losing income as a result may qualify for the Test and Trace Support Payment scheme through their local authority. Applications from parents and guardians who need to take time off work to care for a child who is self-isolating Eligible parents or guardians of children who have been advised to self-isolate by their education setting (even where they have not been told to self-isolate by NHS Test and Trace) can also apply for the Test and Trace Support Payment scheme if they are on a low income, unable to work from home and need to take time off work to care for a child who is self-isolating. Parents and carers do not require an NHS Test and Trace Account ID number in order to claim and schools are not required to register all children asked to self-isolate with NHS Test and Trace in the same way as staff. The scheme is open to eligible parents and carers of children aged 15 and under, and parents of young people aged 16 to 25 with an education health and care plan. Further information on how parents and guardians can claim financial support under the Test and Trace Support Payment scheme is available. Schools should provide parents and carers of children advised to self-isolate with the template letter, detailing the child's name and the dates of their isolation period. The parent or guardian will need to use this letter as supporting evidence as part of their application to their local authority for a payment from the Test and Trace Support Payment scheme. Parents whose children are told to self-isolate by their school will not be able to apply for financial support without a letter. When a parent or guardian applies to the Test and Trace Support Payment scheme because they need to care for a child who is self-isolating, their local authority will be required to contact their child's school via phone or email to verify information about the</p>

FCAT

		<p>child. This includes the child's name, age and dates of self-isolation. This is a standard check against fraudulent claims, and may take place before or after a payment is made.</p> <p>You will only be asked to share information on children whose parents have made an application to their local authority for the Test and Trace Support Payment scheme. You may wish to update your data privacy notice to reflect this.</p>
<p>12</p>	<p>Contain any outbreak by following PHE local health protection team advice</p>	<p>If you have 2 or more confirmed cases within 14 days, or an overall rise in sickness absence where coronavirus (COVID-19) is suspected, you may have an outbreak.</p> <p>You should call the dedicated advice service who will escalate the issue to your local health protection team where necessary and advise if any additional action is required. You can reach them by calling the DfE Helpline on 0800 046 8687 and selecting option 1 for advice on the action to take in response to a positive case.</p> <p>In some cases, health protection teams may recommend that a larger number of other pupils self-isolate at home as a precautionary measure. This could be the class or year group.</p> <p>If you are implementing the system of controls, addressing any issues you have identified and therefore reducing transmission risks, whole site closure will not generally be necessary. You should not close except on the advice of health protection teams.</p> <p>Admitting children and staff back to the school</p> <p>The pupil or staff member who tested positive for coronavirus (COVID-19) can return to their normal routine and stop self-isolating after they have finished their isolation period and their symptoms have gone or if they continue to have only a residual cough or anosmia. This is because a cough or anosmia can last for several weeks once the infection has gone. If they still have a high temperature after 10 days or are otherwise unwell, you should advise them to stay at home and seek medical advice.</p> <p>You should not request evidence of negative test results or other medical evidence before admitting pupils or welcoming them back after a period of self-isolation.</p> <p>In the vast majority of cases, parents and carers will be in agreement that a pupil with symptoms should not attend the school, given the potential risk to others. In the event that a parent or carer insists on a pupil attending your school, you can take the</p>

FCAT

		<p>decision to refuse the pupil if, in your reasonable judgement, it is necessary to protect your pupils and staff from possible infection with coronavirus (COVID-19). Your decision would need to be carefully considered in the light of all the circumstances and current public health advice.</p>

Further Controls ref Government announcement on 4th January 2021
Lockdown; further updated 10th May 2021

Issue:	Infection transmission rates are high due to the new Covid variant. Further operational controls / actions / required for key worker / vulnerable students and staff during lockdown		
Existing level of risk			
HIGH	MEDIUM	LOW	NEGLIGIBLE
How to manage it (control measures)	List your control measures required to reduce risk – add appropriate detail about the type and location of controls		
<ul style="list-style-type: none"> Follow Government guidance on further control measures (When available). Key worker and vulnerable student classes to be kept at a minimum due to higher transmission rates. Specific max numbers of KVV and staff will depend on the size and type of classrooms & workplaces. Social distancing to be maintained at 2 meters where possible. When staff or children cannot maintain distance, particularly with younger children in primary schools, the pupils will be kept in smaller, class-sized groups where possible. Wearing of masks in communal areas of all indoor settings at all times (staff and students) where possible. In secondary classrooms students and staff should wear masks. The teacher during teaching and correctly socially distanced, can wear a visor or be behind a screen. This position on the wearing of masks will be under constant review both at Trust level and nationally. This issue relates specifically to the different national guidance on this for Primary and Secondary settings. Primaries are all now going to be consistent about wearing masks in communal areas. Some individuals are exempt from wearing face coverings who: cannot put on, wear or remove a face covering because of a physical or mental illness or impairment or disability. Rooms must be well ventilated (with outside air) with extra heaters provided if necessary. Cleaning & hygiene protocols must be reviewed (Updated cleaning protocols from site management). All operational guidance and controls are contained within this RA. All symptoms of Control are being followed Guidance for full opening: schools - GOV.UK

How to manage it (control measures)	List your control measures required to reduce risk – add appropriate detail about the type and location of controls
--	---

- Schools following government recommended control measures set out in the school's protective measures risk assessment.
- At Armfield Academy, mass testing of staff can be tested on any day of the week and we recommend at least two tests per week.
- Staff results are recorded on government mass testing website, as per government guidance. This will support identifying staff with positive results.
- Those with symptoms are also expected to order a test online or visit a test site to take a polymerase chain reaction (PCR) test to check if they have the virus. They will then follow the current government guidelines.
- **Testing is not mandatory for staff and staff do not need to provide proof of a negative test result to attend school or nursery in person, although participation in testing is strongly encouraged.**
- **The asymptomatic testing programme does not replace the current testing policy for those with symptoms. Anyone with symptoms (even if they recently had a negative LFD test result), should still self-isolate immediately according to government guidelines**

Issue that could cause harm:		Lack of Social Distancing in the learning environment (classroom/ workshop/ hall/ outdoors) which could increase the risk and rate of transmission of coronavirus (COVID-19)	
Existing level of risk:			
HIGH	MEDIUM	LOW	NEGLIGIBLE
How to manage it (control measures)		List your control measures required to reduce risk – add appropriate detail about the type and location of controls	
<p>1. Reduce the number of children in the learning environment to enable social distancing with no more than 31 children per group.</p> <p>2. 1 or 2 members of staff only are recommended to be with each small group of children. For pre-school children in early years settings, the staff to child ratios within <u>Early Years Foundation Stage (EYFS)</u> continue to apply and these are recommended to group children.</p> <p>3. Organisation of the Primary School into three separate 'Bubbles' following consultation with staff and reviewing our practice over the first half-term; Bubble 1 – Nursery and Reception Classes / Bubble 2 – 2 x Y1 Classes / Bubble 3 - 2 x Y2 Classes; all other features of the system remain intact and as before. This increases COVID security; all parents consulted as appropriate to the change; (16 November 2020)</p> <p>4. Ensure that children are in the same small groups at all times each day, and different groups are not mixed during the day, or on subsequent days.</p> <p>5. Due to the movement of classes rather than staff in the Year 9 Bubble; as at Monday 12th October 2020 the academy has increased the cleaning schedules within the vicinity of the Year 9 classes and classrooms to account for the additional movements of students and increased numbers; this change in operational detail has been done in consultation with staff and students as appropriate to the needs of the Year group and their learning needs. The same principle will apply to the remaining two bubbles within the secondary school; Year 7 bubble will adopt the aforementioned principle from Monday 12th October 2020 and finally the Year 8 bubble will adopt the same principle within the confines of their classes from Wednesday 14th October 2020.</p> <p>6. Ensure that the same staff are assigned to each group of children and, as far as possible, these stay the same during the day and on subsequent days, recognising for secondary settings there will be some subject specialist rotation of staff, only where absolutely necessary and will be kept to a minimum based upon the capacity of the academy. Changing the assignment of staff to each group of children/young people should be a last resort but may be necessary for example due to staff absence or redeployment of secondary staff to primary who then may need to return to secondary.</p> <p>7. Maximise the number of learning environments used including outdoor space as much as possible to more easily allow for distance between children and staff.</p> <p>8. Access rooms directly from outside where possible to reduce mixing of groups.</p> <p>9. Ensure that wherever possible children use the same classroom or area of a setting throughout the day to minimise movement around school.</p> <p>10. Remove excess furniture to increase space if able to do so.</p> <p>11. Desks should be spaced as far apart as possible.</p> <p>12. In primary, unlike older children and adults, early years and primary age children cannot be expected to remain 2 metres apart from each other and staff. Children should be spaced as far apart as possible, aim for 2 metres but accept this may not always be possible.</p> <p>13. In secondary schools re-arrange classrooms/workshops with sitting positions 2 metres apart.</p> <p>14. Children keep to their desks when in the learning environment as appropriate in our secondary setting: within the primary phase, teaching staff will determine the optimum classroom dynamic in terms of seating, relevant to the task in</p>			

FCAT

hand versus the safety and wellbeing of the children and members of staff. This is necessary due to the young age level and maturity of the children within the primary phase.

15. Where possible seat children at the same desk each day if they attend on consecutive days.
16. Personal property of children should be kept to a minimum e.g. bags, coats, lunchboxes. If these are brought into school they should be stored within individual 'Bubbles' and assigned coat pegs.
17. Staff members keep a minimum 2 metre distance from each other in the learning environment where reasonably possible to do so.
18. Display signage in the learning environment regarding social distancing to reinforce, encourage and promote this for staff and children.
19. Academy SLT to create academy social distancing procedures for staff and children specific to the academy environment; Armfield Reopening Plan drafted in consultation with Primary Colleagues.
20. For children, procedures revisited and managed in line with academy behaviour policy.
21. The use of the School Lifts should be minimised to only those colleagues and students who require access due to infirmity or health reasons: Maximum number of occupants is limited to 2 however, depending on the individual cases of child or colleague and their specific requirements (i.e. incapacitated due to being in a wheelchair or any other disability) the number of occupants will be limited to 3 in order to support them; Face Coverings have to be worn and antibacterial wipes will be located within the lift area to sanitise the access buttons.

<ol style="list-style-type: none"> 1. Academy SLT to create social distancing procedures for staff use of staff toilets specific to the academy environment; (N/A – individual staff toilets, which are used by colleagues). 2. Ensuring that toilets do not become crowded by limiting the number of children who use the toilet facilities at one time. 3. Allocated toilets for different groups of children and staff to enable toilet facilities to be used by the same small groups of children; coded in line with Armfield 'Bubbles' 4. Staff and children asked to clean hands after using the toilet - wash hands thoroughly for 20 seconds with running water and soap and dry them thoroughly or use alcohol hand rub or sanitiser ensuring that all parts of the hands are covered. 5. Ensure that help is available for children who have trouble cleaning their hands independently; Ensure supervision of hand sanitizer use given risks around ingestion. Small children and pupils with complex needs should continue to be helped to clean their hands properly, Skin friendly cleaning wipes can be used as an alternative. 6. Display signage in the toilets regarding hand washing to reinforce, encourage and promote this for staff and children; Children and young people should clean their hands regularly including when they arrive at school, when they return from breaks, when they change rooms and before and after eating. 7. Prop doors open, where safe to do so (bearing in mind fire safety and safeguarding), to limit use of door handles and aid ventilation. 8. Full stock of soap and sanitiser to be maintained in the toilets at all times. 9. Academy SLT agrees with the Site Supervisor cleaning schedule and frequency for staff and children's toilets in line with operational requirements (e.g. what needs to be cleaned in the toilets, how it should be cleaned and how often). This will be done on a daily basis, more regularly than normal throughout the day. Protocol from FCAT Premises to be issued to assist with this.

How to manage it (control measures)	List your control measures required to reduce risk – add appropriate detail about the type and location of controls
--	---

1. Tell staff, children, young people, parents, carers or any visitors, such as suppliers, not to enter the education or childcare setting if they are displaying any symptoms of coronavirus.
2. Academy SLT to create procedures for staff for entry and exit to the academy specific to the academy environment and to communicate these (e.g. what entrances/exits should be used by which staff, use of hand sanitiser as soon as possible each and every time enter/exit the building, staggered arrival times, sign in with fob instead of touching screen, maintain 2 metre distance, go straight to area of work and not to congregate with other staff etc.); Armfield Reopening Plan
3. Installation of hand sanitiser stations at staff entrances/exits to building.
4. Staff to sanitise hands on each and every entry and exit from the building.
5. Prop doors open, where safe to do so (bearing in mind fire safety and safeguarding), to limit use of door handles and aid ventilation.
6. Academy SLT to create procedures for operation of the academy Main Reception specific to the academy environment and to communicate these (e.g. keep the number of people in reception to a minimum, who may enter reception and on what basis, mark out a 2 metre area for the member(s) of staff to be able to maintain social distancing from staff, parents, carers, visitors and children, advise visitors that they cannot enter the site unless they have a pre-arranged appointment, utilise glass/perspex screens at the reception desk, use of hand sanitiser for all visitors upon entry/exit etc).
7. Make clear to parents and carers that they cannot gather at entrance gates or doors, or enter the site (unless they have a pre-arranged appointment, which should be conducted safely). Communication can be done via email, phone or Class Dojo.
8. Advise visitors that they cannot enter the site unless they have a pre-arranged appointment, which should be conducted safely.
9. Academy SLT to create arrival and exit procedures for parents, carers and children specific to the academy environment and to communicate these (e.g. drop off and collection times, markers outside/inside school at 2 metre intervals to encourage and maintain social distancing for children and adults when waiting outside school, children are queuing and walking in/out of school, allocated times and points of entry/exit for specific groups of children, prop open external doors to limit use of door handles, use of hand sanitiser upon each and every entry/exit etc.).
10. Implement staggered drop off and pick up times for different groups of children.
11. Tell parents that if their child needs to be accompanied to the education or childcare setting, only one parent should attend.
12. Staff supervision throughout drop off/pick up to encourage and insist on social distancing as appropriate and where reasonably it is possible to do so.
13. Display signage outside and inside the building regarding social distancing and good hygiene to reinforce, encourage and promote this for staff, parents, carers and children.
14. Everyone should use a tissue or elbow to cough or sneeze and use bins for tissue waste ('catch it, bin it, kill it').
15. Ensure there are lidded bins for tissues and these are emptied throughout the day.

HIGH	MEDIUM	LOW	NEGLIGIBLE
------	---------------	-----	------------

Issue that could cause harm:	Lack of social distancing and poor hygiene during break/ playtimes and lunchtimes which could increase the risk and rate of transmission of coronavirus (COVID-19)		
-------------------------------------	---	--	--

Existing level of risk:			
--------------------------------	--	--	--

HIGH	MEDIUM	LOW	NEGLIGIBLE
-------------	---------------	------------	-------------------

How to manage it (control measures)	List your control measures required to reduce risk – add appropriate detail about the type and location of controls		
--	---	--	--

1. Stagger break times (including lunch), so that all children are not moving around the school at the same time and that any corridors or circulation routes used have a limited number of children or young people using them at any time.
2. Consider using one-way circulation, or place a divider down the middle of the corridor to keep groups apart as they move through the setting where spaces are accessed by corridors.
3. Access rooms directly from outside where possible to reduce mixing of groups.
4. Ensure that children and young people are in the same small groups at all times each day, and different groups are not mixed during the day, or on subsequent days.
5. Ensure that the same staff are assigned to each group of children and, as far as possible, these stay the same during the day and on subsequent days, recognising for secondary settings there will be some subject specialist rotation of staff only where absolutely necessary, based upon the capacity of the academy. Changing the assignment of staff to each group of children should be a last resort but may be necessary for example due to staff absence or redeployment of secondary staff to primary who then may need to return to secondary.
6. As appropriate, allocate different areas for different groups of children and staff. Ideally only one group of maximum 20 children is in the same play area at any one time.
7. Children and young people should clean their hands before and after eating and enter in the groups they are already in, groups should be kept apart as much as possible and tables should be cleaned between each group. If such measures are not possible, children should be brought their lunch in their classrooms if appropriate; Children and young people should clean their hands regularly including when they arrive at school, when they return from breaks, when they change rooms and before and after eating
8. Prop doors open, where safe to do so (bearing in mind fire safety and safeguarding), to limit use of door handles and aid ventilation.
9. Where possible, all spaces should be well ventilated using natural ventilation (opening windows) or ventilation units.
10. Display signage outside and inside the building regarding social distancing and good hygiene to reinforce, encourage and promote this for staff and children. Use markers e.g. paint/tape outside school and inside school at 2 metre intervals to encourage and reinforce social distancing for children and adults.
11. Children and young people should clean their hands after sneezing or coughing, should be encouraged not to touch their mouth, eyes and nose, should use a tissue or elbow to cough or sneeze and use bins for tissue waste ('catch it, bin it, kill it').
12. Ensure there are lidded bins in break/playtime and lunchtime areas for tissues and these are emptied throughout the day.
13. Ensure that sufficient handwashing facilities are available. Where a sink is not nearby, provide hand sanitiser in play/break time and lunchtime areas.
14. Reduce break/playtime equipment. Remove soft furnishings, soft toys and toys that are hard to clean (such as those with intricate parts). Consider how play equipment is used ensuring it is appropriately cleaned between groups of children using it, and that multiple groups do not use it simultaneously.
15. Games discussed which encourage social distancing e.g. football passing and no sharing of equipment for games e.g. do not play catch, cordon off outdoor play equipment.

FCAT

16. Staff supervision throughout break/play and lunchtimes to actively encourage and reinforce social distancing where reasonably possible to do so.

17. The school will look to resume after school educational activities and wraparound childcare arrangements for our younger students in the primary school. In line with the current guidance, vulnerable children can attend, regardless of their personal circumstances. The terms of reference for said activities, will be in line with the current guidance and present system of controls to which the academy works closely to uphold and in doing so keeps staff and students safe.

18. Sport and physical activity will be provided while following the measures in our system of controls. Pupils should be kept in consistent groups, sports equipment will be thoroughly cleaned between each use by different individual groups. PE lessons will be held indoors, as appropriate, including those that involve activities related to team sports, for example practising specific techniques, within our own existing system of controls.

For sport provision, outdoor sports will be prioritised where possible, and large indoor spaces will be used where it is not, maximising natural ventilation flows (through opening windows and doors or using air conditioning systems wherever possible), distancing between pupils, and paying scrupulous attention to cleaning and hygiene. This is particularly important in a sport setting because of the way in which people breathe during exercise.

When considering team sports we will only consider those sports whose national governing bodies have developed guidance under the principles of the government's guidance on team sport and been approved by the government such as sports on the list available at grassroots sports guidance for safe provision including team sport, contact combat sport and organised sport events.

From 29 March, outdoor competition between different schools can take place.

From 12 April, indoor competition between different schools can take place.

As per the latest guidance on grassroots sports for public and sport providers, safe provision and facilities, and guidance from Sport England advice from organisations such as the Association for Physical Education and the Youth Sport Trust guidance from Swim England on school swimming and water safety lessons available at returning to pools guidance documents using changing rooms safely.

We will work with external coaches, clubs and organisations for curricular and extra-curricular activities, as appropriate. Only when satisfied that it is safe to do.

Activities such as active miles, making break times and lessons active and encouraging active travel can help pupils to be physically active while encouraging physical distancing.

Existing level of risk			
HIGH	MEDIUM	LOW	NEGLIGIBLE

How to manage it (control measures)	List your control measures required to reduce risk – add appropriate detail about the type and location of controls
--	---

- Call NHS 111 and parent (if child) or relative (if adult) and explain reasons for suspicions of exposure and ask for the parent to come to school. Call 999 if they are seriously ill or injured or their life is at risk.
- Child/ Adult is escorted to the main school office and will be seated in the Meeting Room/Conference Room where upon an appropriate adult will monitor them whereby every effort will be made to contact parent/guardian/appropriate adult forthwith, with a view to removing said child/adult from the premises and sent for a Covid test as soon as possible. Explain to them that they are safe and that you will close the door – make sure the blinds are up, so that they can be monitored and the window is open for ventilation.
- The Health Protection Team will also be in contact with the patient directly to advise on isolation and identifying other contacts, and will be in touch with any contacts of the patient to provide them with appropriate advice. Advice on cleaning of communal areas such as classrooms, changing rooms and toilets will be given by the Health Protection Team.
- If there is a confirmed case, a risk assessment will be undertaken by the educational establishment with advice from the local Health Protection Team. In most cases, closure of the childcare or education setting will be unnecessary but this will be a local decision based on various factors such as establishment size and pupil mixing.
- No restrictions or special control measures are required while laboratory test results for COVID-19 are awaited.
- No need to close the setting or send other learners or staff home.

In the event of a confirmed case:

- Contact with the local Public Health England Protection Team will be made to discuss the case, identify people who have been in contact with them and to advise on any actions or precautions that should be taken. An assessment of each childcare or education setting will be undertaken by the Health Protection Team with relevant staff. Advice on the management of pupils or students and staff will be based on this assessment.
- The Health Protection Team will also be in contact with the patient directly to advise on isolation and identifying other contacts, and will be in touch with any contacts of the patient to provide them with appropriate advice. Advice on cleaning of communal areas such as classrooms, changing rooms and toilets will be given by the Health Protection Team.
- If there is a confirmed case, a risk assessment will be undertaken by the educational establishment with advice from, the local Health Protection Team. In most cases, closure of the childcare or education setting will be unnecessary but this will be a local decision based on various factors such as establishment size and pupil mixing.

Advice & Guidance Published from the DFE: 28th August 2020

FCAT

<https://www.gov.uk/government/publications/how-schools-can-plan-for-tier-2-local-restrictions/how-schools-can-plan-for-tier-2-local-restrictions>

Full Document Link above – Key Principles cited below:

- The ‘tiered’ approach to control the spread of an infection will be adopted to the best of our ability where appropriate.
- In the event an area within the secondary school moves to tier 2 intervention; our EYFS & primary school will continue to allow all children to attend full-time. Our mainstream secondary school, will continue to operate on a rota system. Full-time on-site provision where possible will remain available for all vulnerable children and young people, who are expected to attend full-time, and for the children of critical workers who require this.
- **In the event of an outbreak in the Primary school/EYFS occurs the aforementioned point will be reversed: the secondary school will continue, whilst the control measures take effect to control the spread of the virus in our Primary setting (possible due to educational facilities being located with different sites, separated by Arnold Avenue)**
- Should ‘tier 2’ be necessary the school will move to a rota system which incorporates, blended learning with remote learning as appropriate to the technical capabilities of Armfield Academy, within each of the Year Group(s)/Primary, Segregated Bubbles.
- Should it be necessary to move to ‘tier 3’ or ‘tier 4’ the guidance refers to contingency measures adopted during the summer term at the height of the lockdown period.

How to manage it (control measures)	List your control measures required to reduce risk – add appropriate detail about the type and location of controls		
--	---	--	--

1. Learning environments to be properly cleaned at the start and end of each day and properly cleaned between uses by different groups of children. Academy SLT to agree with the Site Supervisor cleaning schedule and frequency for the academy in line with operational requirements (e.g. what needs to be cleaned, how should it be cleaned and how often). This should be at the start and end of each day as well as more regularly than normal throughout the day across school. **Cleaning protocol from FCAT Premises to be issued to assist with this.**
2. Clean surfaces that children and young people are touching, such as toys, books, desks, chairs, tables, doors, sinks, toilets, light switches, bannisters, more regularly than normal.
3. Shared materials and surfaces should be cleaned and disinfected more frequently than normal.
4. Ensure that sufficient handwashing facilities are available across the school. Where a sink is not nearby, provide hand sanitiser.
5. Children and staff to wash hands/use sanitiser frequently throughout the day - wash hands thoroughly for 20 seconds with running water and soap and dry them thoroughly or use alcohol hand rub or sanitiser ensuring that all parts of the hands are covered.
6. Children and young people should clean their hands on arrival at the setting, before and after eating, after sneezing or coughing, should be encouraged not to touch their mouth, eyes and nose, should use a tissue or elbow to cough or sneeze and use bins for tissue waste ('catch it, bin it, kill it').
7. Ensure there are lidded bins in break/playtime and lunchtime areas for tissues and these are emptied throughout the day.
8. Display signage across school regarding handwashing to reinforce, encourage and promote this for staff and children.
9. Full stock of soap and sanitiser to be maintained in school at all times.
10. Prop doors open, where safe to do so (bearing in mind fire safety and safeguarding), to limit use of door handles and aid ventilation.
11. Learning planned so resources are individual and not shared outside discrete Armfield 'Bubbles' – or on white board.
12. Resources on tables ready for learning and not distributed during the learning as appropriate.
13. Use plastic packets (zippy) bags used for individual resources as appropriate.
14. Limit the amount of shared resources that are taken home and limit exchange of take-home resources between children, young people and staff.
15. Seek to prevent the sharing of stationery and other equipment where possible.
16. Practical lessons can go ahead if equipment can be cleaned thoroughly and properly cleaned between different groups of children.
17. Children keep to their desks when in the learning environment as appropriate.
18. Where possible seat children at the same desk each day if they attend on consecutive days.

Issue that could cause harm:	First Aid/Accident/Administering medicines/EHP/Personal Care which could increase the risk and rate of transmission of coronavirus (COVID-19)
-------------------------------------	--

Existing level of risk:			
HIGH	MEDIUM	LOW	NEGLIGIBLE

How to manage it (control measures)	List your control measures required to reduce risk – add appropriate detail about the type and location of controls
--	---

1. Ensure there is a member of First Aid trained staff on site and only trained staff carry out First Aid (for primary requires Paediatric First Aid).
2. Ensure full and complete first aid stock on site at all times.
3. Ensure FCAT First Aid, Accident Administering medicines and EHP Policies are followed.
4. Staff should wear PPE if a child or young person becomes unwell with symptoms of coronavirus while in their setting and needs direct personal care until they can return home. A fluid-resistant surgical face mask should be worn by the supervising adult if a distance of 2 metres cannot be maintained. If contact with the child or young person is necessary, then disposable gloves, a disposable apron and a fluid-resistant surgical face mask should be worn by the supervising adult. If a risk assessment determines that there is a risk of splashing to the eyes, for example from coughing, spitting, or vomiting, then eye protection should also be worn.
5. Staff should wear PPE for children, young people and students whose care routinely already involves the use of PPE due to their intimate care needs. They should continue to receive their care in the same way.
6. Full and complete stock of PPE on site at all times.
7. Some pupils with complex needs will struggle to maintain as good respiratory hygiene as their peers, for example those who spit uncontrollably or use saliva as a sensory stimulant. Staff should wear PPE when supporting pupils with complex needs as outlined above.

Issue that could cause harm:	Risk of COVID-19 illness to extremely clinically vulnerable and clinically vulnerable children staff and family members.		
Existing level of risk			
HIGH	MEDIUM	LOW	NEGLIGIBLE
How to manage it (control measures)	List your control measures required to reduce risk – add appropriate detail about the type and location of controls		
<ol style="list-style-type: none"> 1. Where a pupil is unable to attend school because they are complying with clinical and/or public health advice, school will immediately offer them access to remote education. Schools should monitor engagement with this activity. 2. Where children are not able to attend school as parents are following clinical and/or public health advice, absence will not be penalised. All other pupils must attend school 3. Shielding advice for all adults and children paused on 31st March 2021, subject to a continued decline in the rates of community transmission of coronavirus (COVID-19). This means that even the small number of pupils who will remain on the shielded patient list can also return to school, as can those who have family members who are shielding. If rates of the disease rise, children (or family members) may be advised to shield during the period where rates remain high and therefore they may be temporarily absent. In this event remote learning provision will be activated immediately. 4. FCAT has taken a position of the wearing of face masks in communal areas which reduces further the risk to vulnerable staff and students. (See separate Face coverings Protocol as Appendix at the end of this Risk Assessment). 5. Parents of pupils and staff with significant risk factors should discuss their concerns with pastoral staff and senior leaders respectively. 6. It is anticipated that fewer young people will be advised to shield and that the majority of pupils will be able to return to school. Some pupils no longer required to shield but who generally remain under the care of a specialist health 			

FCAT

professional may need to discuss their care with their health professional before returning to school (usually at their next planned clinical appointment).

7. Following the reduction in the prevalence of coronavirus (COVID-19) and relaxation of shielding measures from 1 August 2020, we expect that most staff will attend school.

8. It remains the case that wider government policy advises those who can work from home to do so. We recognise this will not be applicable to most school staff, but where a role may be conducive to home working, for example some administrative roles, school leaders might consider what is feasible and appropriate.

9. Individuals who were considered to be clinically extremely vulnerable and received a letter advising them to shield are now advised that they can return to work from 1st April 2021 as long as they maintain social distancing.

10. School leaders should be flexible in how those members of staff are deployed to enable them to work remotely where possible or in roles in school where it is possible to maintain social distancing.

11. People who live with those who are clinically extremely vulnerable or clinically vulnerable can attend the workplace.

Staff who are clinically vulnerable or extremely clinically vulnerable

12. The measures outlined in the DfE guidance for full opening of schools (page 1 of this risk assessment) will be applied and will mitigate risks significantly for staff, including those who are extremely clinically vulnerable and clinically vulnerable. This will allow most staff to return to the workplace, although we advise those in the most at risk categories to take particular care while community transmission rates continue to fall.

13. Parents of pupils and staff with significant risk factors should discuss their concerns with pastoral staff and senior leaders.

14. FCAT still wishes to support staff in continuing to work from home, if able to do so, balancing this with increasing operational requirements.

15. Staff who are extremely clinically vulnerable (those who have received a letter from Government or clinician advising them to shield) will be advised that they can return to work from 1st April 2021 as long as they maintain social distancing.

16. Staff who are clinically vulnerable should return to work where possible. Government advice is available for colleagues in these categories and those who are pregnant (in line with the latest advice and guidance from the Government, we strongly recommend that pregnant staff and/or indeed students in line with their wider health and safety obligations, play close attention to the advice and guidance on coronavirus (COVID-19) and pregnancy from the Royal College from the [guidance and advice on coronavirus \(COVID-19\) and pregnancy from the Royal College of Gynaecologists](#)). Education and childcare settings should endeavour to support flexible deployment where possible.

17. The government is currently undertaking an official review of whether factors including ethnicity can affect people's vulnerability to COVID-19. The government has said this is because a disproportionately higher number of people have died from COVID-19 from black, Asian and minority ethnic (BAME) backgrounds. As such the trust will undertake individual risk assessments for any staff who are within the high risk categories and/or BAME background.

18. Staff and children living with those that are clinically vulnerable can attend school and work with children or adults adhering to this risk assessment.

How to manage it (control measures)		List your control measures required to reduce risk – add appropriate detail about the type and location of controls	
1. Line Managers to maintain regular and reasonable contact with staff in their teams.			

FCAT

2. Encourage staff to undertake a workstation risk assessment and consider any equipment staff may require in order to work from home safely.
3. Encourage staff to take short and regular rest breaks when using a computer screen.
4. To encourage staff not to work excessively long hours and to take a lunch break.
5. To promote the Team FCAT Work and Wellbeing Charter.
6. Continued access for staff to remote wellbeing support from qualified professionals via Line Manager or teamfcatwellbeing.fcat.org.uk monitored by HR daily.
7. Ongoing signposting of staff to online/phone wellbeing support.

Remaining level of risk		Consider level of risk following use of control measures	
HIGH	MEDIUM	LOW	NEGLIGIBLE

Issue that could cause harm:	Lack of Social Distancing and poor hygiene in staff offices and meeting rooms which could increase the risk and rate of transmission of coronavirus (COVID-19)		
-------------------------------------	---	--	--

Existing level of risk			
HIGH	MEDIUM	LOW	NEGLIGIBLE

How to manage it (control measures)	List your control measures required to reduce risk – add appropriate detail about the type and location of controls		
--	---	--	--

1. Staff offices to be properly cleaned through the day and at the end of each day and surfaces (e.g. desks, door and window handles, light switches etc.) cleaned more regularly than normal throughout the day. Academy SLT to agree with the Site Supervisor cleaning schedule and frequency for the offices and meeting rooms in line with operational requirements (e.g. what needs to be cleaned, how should it be cleaned and how often). **Cleaning protocol from FCAT Premises to be issued to assist with this.**
2. Staff who are office based and can undertake their job role at home, should continue to work from home.
3. Limit the number of people in office at any one time.
4. Ensure a 2 metre distance between staff work spaces. Use markers e.g. paint/tape in the office at 2 metre intervals to encourage and reinforce social distancing.
5. Use back-to-back or side-to-side working (rather than face-to-face) whenever possible.
6. Reducing the number of people each person has contact with by using 'fixed teams or partnering' (so each person works with only a few others) inter-cross bubble meetings should be the preserve of virtual meetings, wherever possible. It is accepted that there may be the exception to the rule, given the dynamics of a fully functioning academy. SLT will be required to have access to all aspects of the school, appropriate to their overarching responsibilities to the school. Notwithstanding strict social distancing parameters and COVID secure measures need to be adopted at all times in such isolated circumstances.
7. Provide hand sanitiser in offices and meeting rooms.
8. Staff asked to clean hands upon arrival and exit from the office and regularly throughout the day - wash hands thoroughly for 20 seconds with running water and soap and dry them thoroughly or use alcohol hand rub or sanitiser ensuring that all parts of the hands are covered
9. Prop doors open, where safe to do so (bearing in mind fire safety and safeguarding), to limit use of door handles and aid ventilation.
10. Where possible, all spaces should be well ventilated using natural ventilation (opening windows) or ventilation units
11. Display signage in offices regarding social distancing and good hygiene to reinforce, encourage and promote this for staff.
12. Avoiding use of hot desks and spaces and, where not possible, for example, call centres or training facilities, cleaning and sanitising workstations between different occupants including shared equipment as appropriate.
13. Use remote working tools to avoid in-person meetings.
14. Only absolutely necessary participants should attend meetings and should maintain 2m separation throughout.
15. Avoiding transmission during meetings, for example avoiding sharing pens and other objects.
16. Hold meetings outdoors or in well-ventilated rooms whenever possible.

How to manage it (control measures)	List your control measures required to reduce risk – add appropriate detail about the type and location of controls
--	---

1. Tell staff, children, young people, parents, carers or any visitors, such as suppliers, not to enter the education or childcare setting if they are displaying any symptoms of coronavirus (following the [COVID-19: guidance for households with possible coronavirus infection](#)).
2. If anyone becomes unwell with a new, continuous cough or a high temperature in an education or childcare setting, they must be sent home and advised to follow the [COVID-19: guidance for households with possible coronavirus infection guidance](#).
3. Proper cleaning of the area where anyone has become unwell with symptoms of COVID-19 should take place.
4. If a child is awaiting collection, they should be moved, if possible, to a room where they can be isolated behind a closed door, depending on the age of the child and with appropriate adult supervision if required. Ideally, a window should be opened for ventilation. If it is not possible to isolate them, move them to an area which is at least 2 metres away from other people.
5. If they need to go to the bathroom while waiting to be collected, they should use a separate bathroom if possible. The bathroom should be cleaned and disinfected using standard cleaning products before being used by anyone else.
6. PPE should be worn by staff caring for the child while they await collection if a distance of 2 metres cannot be maintained (such as for a very young child or a child with complex needs). A fluid-resistant surgical face mask should be worn by the supervising adult if a distance of 2 metres cannot be maintained. If contact with the child or young person is necessary, then disposable gloves, a disposable apron and a fluid-resistant surgical face mask should be worn by the supervising adult. If a risk assessment determines that there is a risk of splashing to the eyes, for example from coughing, spitting, or vomiting, then eye protection should also be worn.
7. Academy SLT should ensure any confirmed cases of COVID-19 following a positive test result should be notified to Jane McCumiskey (FCAT COO) to ensure that the FCAT procedure in the event of this can be followed.
8. Everyone must wash their hands thoroughly for 20 seconds with soap and running water or use hand sanitiser after any contact with someone who is unwell.

How to manage it (control measures)	List your control measures required to reduce risk – add appropriate detail about the type and location of controls
<ol style="list-style-type: none"> 1. Encouraging parents and children and young people to walk or cycle to their education setting where possible and are aware of the <u>Coronavirus (COVID-19): safer travel guidance for passengers</u> when planning their travel 2. Where using transport providers e.g. school buses; Academy SLT to review the transport provider's control measures for the risk of COVID-19 and to confirm if you are satisfied with these if children or your people from the academy will be using the transport. Please discuss any questions or concerns with Gary Fletcher, FCAT Health and Safety Lead. (N/A in the context of Armfield). 3. Taking appropriate actions to reduce risk if hygiene rules and social distancing is not possible, for example when transporting children and young people with complex needs who need support to access the vehicle or fasten seatbelts. 4. Encouraging staff to travel to work by personal vehicle, walk or cycle instead of using public transport. 5. Advise staff not to car share where appropriate. 6. Pupils on dedicated school services do not mix with the general public on those journeys and tend to be consistent. This means that the advice for passengers on public transport to adopt a social distance of two metres from people outside their household or support bubble, or a 'one metre plus' approach where this is not possible, will not apply from the autumn term on dedicated transport. The approach to dedicated transport should align as far as possible with the principles underpinning the system of controls set out in this document and with the approach being adopted for your school. It is important to consider: <ol style="list-style-type: none"> a. how pupils are grouped together on transport, where possible this should reflect the bubbles that are adopted within school b. use of hand sanitiser upon boarding and/or disembarking c. additional cleaning of vehicles d. organised queuing and boarding where possible e. distancing within vehicles wherever possible f. the use of face coverings for children over the age of 11, where appropriate, for example, if they are likely to come into very close contact with people outside of their group or who they do not normally meet 7. Encourage staff to follow social distancing in the staff car park.

<ol style="list-style-type: none"> 1. Tell parents that if their child needs to be accompanied to the education or childcare setting, only one parent should attend. 2. Tell parents and young people their allocated drop off and collection times and the process for doing so, including protocols for minimising adult to adult contact (for example, which entrance to use) 3. Make clear to parents that they cannot gather at entrance gates or doors, or enter the site (unless they have a pre-arranged appointment, which should be conducted safely). 4. Advise visitors that they cannot enter the site unless they have a pre-arranged appointment, which should be conducted safely. 	
--	--

FCAT

5. Ensure parents and young people are aware of recommendations on transport to and from education or childcare setting (including avoiding peak times). Read the [Coronavirus \(COVID-19\): safer travel guidance for passengers](#).
6. Talk to staff about the plans (for example, safety measures, timetable changes and staggered arrival and departure times), including discussing whether training would be helpful.
7. Communicate early with contractors and suppliers that will need to prepare to support your plans for opening for example, cleaning, catering, food supplies, and hygiene suppliers.
8. Discuss with cleaning contractors or staff the additional cleaning requirements and agree additional hours to allow for this.

Year 7 & Year 8 Parental consultations Monday 29th June 2020 – end of term (last three weeks)

Protocol worked incredibly well in-situ; was very well received and fully appreciated by staff, parents and students alike; therefore, the measure will remain here in the RA, should it be necessary to implement a similar measure in the future – MKI
28/08/2020

- Separate Entrance & Exits; Mem hall (7s) & Sports Hall (8s)
- Clear directional markings evidenced upon arrival
- Sanitisation stations x 2 on entrance and exits; both the hall and sports hall.
- Guided by senior staff on hand to help steer traffic, which given the planning should be for any one time, minimal.
- Socially distanced stations keyed to A, R, M, F, L, D forms (double staffed to reduce numbers meetings) approximate number of meetings equals 26; divided by 2 = 13 to be completed over the course of three weeks.
- Staff provided with a separate socially isolated station within a 'bubbles'
- Screens, Cleaning Caddies, and aprons provided for staff and parents together with disposable bins/sanitisation equipment.
- Meetings should last no longer than 20 – 25 minutes and are separated by a 20 minute break
- Cleaning team on site constantly refreshing the hall and sports hall as appropriate after use.

Appendix 1 - Face Coverings Policy Updated 13th May 2021

General Principles and Protocol

This is a strengthening of Covid secure measures following Government guidance.

- This protocol is based on the updated Government guidance (published 10/05/2021).
- This guidance applies to students from Y7 upwards and to all staff working in schools which educate children 12 and above.
- All face masks worn by students in school should be plain without patterns or branded logos (the exception to the rule is the face masks that Armfield Academy has purchased at great cost for all staff and students, which form part of the school uniform; we appreciate that young people from time to time do forget, and a makeshift alternative will be accepted until such time that an appropriate can be worn).

FCAT

- All face masks worn by staff in school should be plain without patterns or branded logos (the exception to the rule is the face masks that Armfield Academy has purchased at great cost for all staff and students).
- This advice may change should a local lockdown be in place or should Government guidance change.
- Armfield Academy (and the wider Fylde Coast Academy Trust) will **still** require the use of face coverings to be worn by all students in Y7 above and staff in areas **indoors** where social distancing is more difficult. These include, but are not limited to: -
 - Corridors
 - In the Assembly Hall when moving to their seat and when exiting
 - Staff rooms and kitchens
- Each student (and member of staff if they wish) will be provided with 3 washable fabric face coverings, the coverings should be washed regularly (this is the responsibility of the student/parent and the staff member). These will be part of the uniform and students should only wear the provided mask or a disposable mask.
- If a student or member of staff forgets a mask, they will be required to wear a disposable face mask.
- Staff should be consistent in requiring the use of face coverings and the usual behaviour policies will apply with sanctions up to and including time in isolation.
- Some staff and children will be exempt; however, parents will be required to discuss this with their child's Pastoral Manager or Progress Manager. In such a case, the SSC should be informed and an exemption pass will be issued.
- **Staff should wear face masks in the corridors and other inside communal spaces between the hours of 8am and 4pm. Outside of these hours social distancing should still apply when not wearing a mask. Staff can remove their masks when sat down in designated staff work areas.**
- As a general principle face masks should not be used in classrooms, children will remove them when they are sat at their own desk however should a child wish to wear a face mask this is appropriate and they should not be challenged. However, as indicated with the national guidance if there is a localized outbreak, the Headteacher and Executive Headteacher can make the decision to expect them to be worn by staff and students in classrooms. This will be reviewed at half term.
- Staff will be required to wear face masks in communal staff areas, but will not be required to wear them in offices when working at a desk. Staff who wish to wear a visor may wear them, though they are not a substitute for a mask. When meeting with parents or visitors (including in the Reception area) if social distancing cannot be adhered to, staff should wear masks and/or visors.
- Parents or visitors will not be able to speak to members of staff unless they have pre-arranged an appointment. For such meetings, a meeting room will need to be booked by appointment. Visitors will not be allowed to enter the main school unless they are wearing a face mask.
- **To facilitate good order in busy dining halls, staff will continue to maintain social distancing where possible. This will mean that staff instructions can be given (as masks make it difficult to communicate in environments with raised noise levels). This is critical if good order and safety is to be maintained in these areas. If the member of staff needs to leave the designated area they will need to replace their face mask.**
