

FCAT

Coronavirus (COVID-19) Implementing protective measures within FCAT

COVID-19 Risk Assessment Version 2 June 2020

Academy	Blackpool Gateway Academy
Activity / Procedure	Phased wider opening of schools - managing the risk and rate of transmission of coronavirus (COVID-19)
Assessment date	20/05/2020
Review date	To be reviewed and updated frequently before and after the wider opening of school and in light of any updates to existing government guidance or any new guidance.

Identified groups at risk	
Employees	YES
Children	YES
Visitors	YES
Contractors	YES

Red text is control measures from Government Guidance – Coronavirus (COVID-19); implementing protective measures in education and childcare settings last updated on 12th May 2020.

This risk assessment does not supersede any legal obligations relating to health and safety, employment or equalities.

FCAT

Issue that could cause harm: 1	Lack of Social Distancing in the learning environment (classroom/ workshop/ hall/ outdoors) which could increase the risk and rate of transmission of coronavirus (COVID-19)		
Existing level of risk:			
HIGH	MEDIUM	LOW	NEGLIGIBLE
How to manage it (control measures)	List your control measures required to reduce risk – add appropriate detail about the type and location of controls		
<ol style="list-style-type: none"> 1. Available capacity / Agreed number following Government guidelines: an agreed total number of pupils / students can attend the academy at any given time to enable compliance with social distancing rules. 2. Reduce the number of children in the learning environment to enable social distancing with no more than 15 children per small group. 3. 1 or 2 members of staff only are recommended to be with each small group of children. For pre-school children in early years settings, the staff to child ratios within <u>Early Years Foundation Stage (EYFS)</u> continue to apply and these are recommended to group children. 4. Ensure that children are in the same small groups at all times each day, and different groups are not mixed during the day, or on subsequent days. 5. Ensure that the same staff are assigned to each group of children and, as far as possible, these stay the same during the day and on subsequent days, recognising for secondary settings there will be some subject specialist rotation of staff. Changing the assignment of staff to each group of children/young people should be a last resort but may be necessary for example due to staff absence or redeployment of secondary staff to primary who then may need to return to secondary. 6. Maximise the number of learning environments used including outdoor space as much as possible to more easily allow for distance between children and staff. 7. Access rooms directly from outside where possible to reduce mixing of groups. All classrooms used for Year 1 pupils can be directly accessed from outside. 8. Ensure that wherever possible children use the same classroom or area of a setting throughout the day to minimise movement around school. 9. Remove excess furniture to increase space if able to do so. All excess furniture has been removed and stored in one location. 10. Desks should be spaced as far apart as possible. 11. In primary, unlike older children and adults, early years and primary age children cannot be expected to remain 2 metres apart from each other and staff. Children should be spaced as far apart as possible, aim for 2 metres but accept this may not always be possible. 12. In secondary schools re-arrange classrooms/workshops with sitting positions 2 metres apart. 13. Children keep to their desks when in the learning environment. 14. Where possible seat children at the same desk each day if they attend on consecutive days. 15. Personal property of children should be kept to a minimum e.g. bags, coats, lunchboxes. Children will be advised not to bring bags and coats if possible. If these are brought into school they should be stored in the classroom where the children are working.e.g. in boxes underneath individual desks. 16. Staff members to keep a minimum 2 metre distance from each other in the learning environment. Inductions are in operation for all staff prior to reopening including revised policies and procedures. 17. Mark out a 2 metre area e.g. with tape for the member(s) to of staff to be able to maintain social distancing from children and other staff. 18. Display signage in the learning environment regarding social distancing to reinforce, encourage and promote this for staff and children. 19. Blackpool Gateway Academy SLT to create academy social distancing procedures for staff and children specific to the academy environment (include instructions how to enter and exit the learning environment, use of toilet, moving around the classroom, how to maintain social distancing whilst teaching etc.) 			

FCAT

20. In Year 1 and Year 6, children's toilets will be used by no more than 20 children during the day – these will be cleaned throughout the day (see cleaning timetable). Cubicles will be assigned to each bubble.
21. In Year 6, children will not be able to move around the classroom and will remain at their own desk. The teacher will observe a two metre distance when supporting children. In Year 1 where this is more difficult, a more structured curriculum will be in place which allows for children to remain separated for longer periods of time. Staff will be urged to maintain social distancing where possible but will not work beyond the group of children they are allocated to.
22. For children, procedures revisited and managed in line with academy behaviour policy.
23. There will be clear messaging to pupils on the importance and reasons for social distancing is reinforced throughout the school day by staff and through posters, electronic boards and floor markings. For young children this will be through age-appropriate methods such as stories and games.
24. Assemblies and the coming together of other large groups, both staff and students will be suspended.
25. Off-site visits have been suspended.
26. Academy behaviour policy has been revised to include compliance with social distancing and this has been communicated to staff, pupils and parents.
27. Senior leaders monitor areas where there are breaches of social distancing measures and arrangements are reviewed.

Remaining level of risk		Consider the level of risk following use of the above control measures	
HIGH	MEDIUM	LOW	NEGLIGIBLE

Issue that could cause harm: 2	Lack of Social Distancing when using toilets and poor hygiene which could increase the risk and rate of transmission of coronavirus (COVID-19)
---------------------------------------	---

Existing level of risk:			
HIGH	MEDIUM	LOW	NEGLIGIBLE

How to manage it (control measures)	List your control measures required to reduce risk – add appropriate detail about the type and location of controls
--	---

1. Blackpool Gateway academy SLT to create social distancing procedures for all staff for all aspects of safe distancing. In Year 1 and Year 6, children's toilets will be used by no more than 20 children during the day – these will be cleaned throughout the day (see cleaning timetable). Cubicles will be assigned to each bubble.
2. Ensuring that toilets do not become crowded by limiting the number of children who use the toilet facilities at one time.
Staff and children asked to clean hands after using the toilet - wash hands thoroughly for 20 seconds with running water and soap and dry them thoroughly or use alcohol hand rub or sanitiser ensuring that all parts of the hands are covered.
2. Ensure that help is available for children who have trouble cleaning their hands independently.
3. Display signage in the toilets regarding handwashing to reinforce, encourage and promote this for staff and children.
4. Prop doors open, where safe to do so (bearing in mind fire safety and safeguarding), to limit use of door handles and aid ventilation.
5. Full stock of soap and sanitiser to be maintained in the toilets at all times.
6. Toilets will be cleaned according to the cleaning risk assessment and schedule as a minimum throughout the day. If any toilet needs cleaning urgently, staff should contact the cleaning team via main school reception. **Protocol from FCAT Premises to be issued to assist with this.**

FCAT

7. Parents will not be allowed on site to use toilets.			
8. All hand dryers have been isolated and lidded bins and paper towels are in place.			
Remaining level of risk		Consider level of risk following use of control measures	
HIGH	MEDIUM	LOW	NEGLIGIBLE

Issue that could cause harm: 3		Lack of social distancing and poor hygiene upon arrival and exit from school which could increase the risk and rate of transmission of coronavirus (COVID-19)	
Existing level of risk:			
HIGH	MEDIUM	LOW	NEGLIGIBLE
How to manage it (control measures)		List your control measures required to reduce risk – add appropriate detail about the type and location of controls	
<ol style="list-style-type: none"> 1. Tell staff, children, young people, parents, carers or any visitors, such as suppliers, not to enter the education or childcare setting if they are displaying any symptoms of coronavirus. 2. The use of Non-Contact Infrared Thermometer with LCD Display will be used. 3. Blackpool Gateway Academy SLT to create procedures for staff for entry and exit to the academy specific to the academy environment and to communicate these (Clear entrances/exits will be used by which staff, use of hand sanitiser as soon as possible each and every time enter/exit the building, staggered arrival times, sign in with fob instead of touching screen, maintain 2 metre distance, go straight to area of work and not to congregate with other staff etc.) Staff should not make stops to collect drinks etc. on arrival and should where possible bring their own cutlery and utensils for personal use during the day. 4. Parents and children to maintain social distancing at all times upon arrival – floor markings will indicate the distance required to be maintained. As far as possible, each bubble will use separate entrances in order to reduce the build-up of parents and children. 5. In Year 1, parents will be required to line up on the floor markings (spaced two metres apart) to collect children and children will be brought to them in turn. Children in Year 6 will be marshalled to the playground where they will position themselves on one of the markings (spaced two metres apart) at staggered times, to then be sent to a parent waiting. 6. Installation of hand sanitiser stations at staff entrances/exits to building. 7. Staff to sanitise hands on each and every entry and exit from the building. 8. Prop doors open, where safe to do so (bearing in mind fire safety and safeguarding), to limit use of door handles and aid ventilation. 9. Marshalls at playground entry and exit reminding and controlling the flow of students/parents within 2 metre distancing. 10. Blackpool Gateway Academy SLT to create procedures for operation of the academy Main Reception specific to the academy environment and to communicate these (e.g. keep the number of people in reception to a minimum, who may enter reception and on what basis, mark out a 2 metre area for the member(s) to of staff to be able to maintain social distancing from staff, parents, carers, visitors and children, advise visitors that they cannot enter the site unless they have a pre-arranged appointment, utilise glass/perspex screens at the reception desk, use of hand sanitiser for all visitors upon entry/exit etc). 11. Make clear to parents and carers that they cannot gather at entrance gates or doors, or enter the site (unless they have a pre-arranged appointment, which should be conducted safely). Communication can be done via email or phone. 12. Advise visitors that they cannot enter the site unless they have a pre-arranged appointment, which should be conducted safely. 			

FCAT

13. Blackpool Gateway Academy SLT to create arrival and exit procedures for parents, carers and children specific to the academy environment and to communicate these (e.g. drop off and collection times, markers outside/inside school at 2 metre intervals to encourage and maintain social distancing for children and adults when waiting outside school, children are queuing and walking in/out of school, allocated times and points of entry/exit for specific groups of children, prop open external doors to limit use of door handles, use of hand sanitiser upon each and every entry/exit etc.).
14. Implement staggered drop off and pick up times for different groups of children.
15. Tell parents that if their child needs to be accompanied to the education or childcare setting, only one parent should attend.
16. Staff supervision throughout drop off/pick up to encourage and insist on social distancing.
17. Display signage outside and inside the building regarding social distancing and good hygiene to reinforce, encourage and promote this for staff, parents, carers and children.
18. Everyone should use a tissue or elbow to cough or sneeze and use bins for tissue waste ('catch it, bin it, kill it').
19. Ensure there are lidded bins for tissues and these are emptied throughout the day.

Remaining level of risk		Consider level of risk following use of control measures	
HIGH	MEDIUM	LOW	NEGLIGIBLE

Issue that could cause harm: 4	Lack of social distancing and poor hygiene during break/ playtimes and lunchtimes which could increase the risk and rate of transmission of coronavirus (COVID-19)		
---------------------------------------	---	--	--

Existing level of risk:			
HIGH	MEDIUM	LOW	NEGLIGIBLE

How to manage it (control measures)	List your control measures required to reduce risk – add appropriate detail about the type and location of controls		
--	---	--	--

1. Stagger break times (including lunch), so that all children are not moving around the school at the same time and that any corridors or circulation routes used have a limited number of children or young people using them at any time.
2. Consider using one-way circulation, or place a divider down the middle of the corridor to keep groups apart as they move through the setting where spaces are accessed by corridors.
3. Access rooms directly from outside where possible to reduce mixing of groups.
4. Ensure that children and young people are in the same small groups at all times each day, and different groups are not mixed during the day, or on subsequent days.
5. Ensure that the same staff are assigned to each group of children and, as far as possible, these stay the same during the day and on subsequent days, recognising for secondary settings there will be some subject specialist rotation of staff. Changing the assignment of staff to each group of children should be a last resort but may be necessary for example due to staff absence or redeployment of secondary staff to primary who then may need to return to secondary.
6. Allocate different areas for different groups of children and staff. Ideally only one group of maximum 15 children is in the same play area at any one time.
7. Children and young people should clean their hands before and after eating and enter in the groups they are already in, groups should be kept apart as much as possible and tables should be cleaned between each group. If such measures are not possible, children should be brought their lunch in their classrooms
8. Prop doors open, where safe to do so (bearing in mind fire safety and safeguarding), to limit use of door handles and aid ventilation.
9. Where possible, all spaces should be well ventilated using natural ventilation (opening windows) or ventilation units.

FCAT

10. Display signage outside and inside the building regarding social distancing and good hygiene to reinforce, encourage and promote this for staff and children.
11. Use markers e.g. paint/tape outside school and inside school at 2 metre intervals to encourage and maintain social distancing for children and adults.
12. Children and young people should clean their hands after sneezing or coughing, should be encouraged not to touch their mouth, eyes and nose, should use a tissue or elbow to cough or sneeze and use bins for tissue waste ('catch it, bin it, kill it'). **This will be enforced and reminded by staff.**
13. Ensure there are lidded bins in break/playtime and lunchtime areas for tissues and these are emptied throughout the day.
14. Ensure that sufficient handwashing facilities are available. Where a sink is not nearby, provide hand sanitiser in play/break time and lunchtime areas.
15. Reduce break/playtime equipment. Remove soft furnishings, soft toys and toys that are hard to clean (such as those with intricate parts). Consider how play equipment is used ensuring it is appropriately cleaned between groups of children using it, and that multiple groups do not use it simultaneously.
16. Games discussed which encourage social distancing e.g. football passing and no sharing of equipment for games e.g. do not play catch, cordon off outdoor play equipment.
17. Staff supervision throughout break/play and lunchtimes to actively encourage and insist on social distancing.
18. Commence with lunch in classrooms delivered initially as cold lunch to avoid congestion in hall and phase in an alternative plan based on numbers attending

Remaining level of risk		Consider level of risk following use of control measures	
HIGH	MEDIUM	LOW	NEGLIGIBLE

Issue that could cause harm: 5	Lack of social distancing and poor hygiene during staff break or lunch times which could increase the risk and rate of transmission of coronavirus (COVID-19)		
---------------------------------------	--	--	--

Existing level of risk			
HIGH	MEDIUM	LOW	NEGLIGIBLE

How to manage it (control measures)	List your control measures required to reduce risk – add appropriate detail about the type and location of controls
--	---

1. Staff room to be properly cleaned at the start and end of each day and surfaces cleaned more regularly than normal throughout the day.
2. Blackpool Gateway Academy SLT to create social distancing procedures for staff use of staff room specific to the academy environment (e.g. how many staff, queue system etc.).
3. Staff to stagger break and lunch times.
4. Limit the number of people in staffroom at any one time. **Signage will be displayed.**
5. **Ensure that sufficient handwashing facilities are available. Where a sink is not nearby, provide hand sanitiser in staff rooms.**
6. Staff asked to clean hands upon arrival and exit from the staff room - **wash hands thoroughly for 20 seconds with running water and soap and dry them thoroughly or use alcohol hand rub or sanitiser ensuring that all parts of the hands are covered**
7. Prop doors open, where safe to do so (bearing in mind fire safety and safeguarding), to limit use of door handles and aid ventilation.
8. Where possible, all spaces should be well ventilated using natural ventilation (opening windows) or ventilation units
9. **Ensure chairs in staffrooms use back-to-back or side-to-side (rather than face-to-face) whenever possible. Seating in the classroom will be organised as such that they are 2 metres apart and remaining furniture will be removed. Staff will not be able to congregate in the staff room in large numbers and it will be closed other than use of the photocopier and access to hot water for drinks.**

FCAT

Markings and signage will be in place to indicate that only 1 member of staff can access the work surface at any one time.

10. Use markers e.g. paint/tape in the staff room at 2 metre intervals to encourage and maintain social distancing for staff.
11. Display signage outside and inside the building regarding social distancing and good hygiene to reinforce, encourage and promote this for staff.

Remaining level of risk		Consider level of risk following use of control measures	
HIGH	MEDIUM	LOW	NEGLIGIBLE

Issue that could cause harm: 6	Lack of social distancing in the corridors which could increase the risk and rate of transmission of coronavirus (COVID-19)		
---------------------------------------	--	--	--

Existing level of risk:			
HIGH	MEDIUM	LOW	NEGLIGIBLE

How to manage it (control measures)	List your control measures required to reduce risk – add appropriate detail about the type and location of controls		
--	---	--	--

1. Stagger break times (including lunch), so that all children are not moving around the school at the same time and that any corridors or circulation routes used have a limited number of children or young people using them at any time.
2. Consider using one-way circulation, or place a divider down the middle of the corridor to keep groups apart as they move through the setting where spaces are accessed by corridors.
3. Access rooms directly from outside where possible to reduce mixing of groups.
4. Children and young people to walk single file on the corridor and consider having a member of staff at the front and back of the line to supervise and actively encourage and insist on social distancing.
5. Use markers e.g. paint/tape on corridors at 2 metre intervals to encourage and maintain social distancing for children and adults.
6. Prop doors open, where safe to do so (bearing in mind fire safety and safeguarding), to limit use of door handles and aid ventilation.
7. Where possible, all spaces should be well ventilated using natural ventilation (opening windows) or ventilation units.
8. Display signage on corridors regarding social distancing to reinforce, encourage and promote this for children and staff.
9. Staff supervision on corridors to actively encourage and insist on social distancing.
10. Encourage staff communication via phone, radio or e-mail to limit unnecessary movement of staff on corridors.
11. Circulation plans have been reviewed.
12. One-way systems will be in operation where feasible.
13. Circulation routes will be clearly marked with appropriate signage.
14. Any pinch-points/bottle necks are managed accordingly.
15. Pupils will remain in classrooms with exceptions of break/lunch times and toilet breaks.
16. Pupils will be briefed regularly regarding observing social distancing guidance whilst circulating.

Existing level of risk:			
HIGH	MEDIUM	LOW	NEGLIGIBLE
How to manage it (control measures) 7		List your control measures required to reduce risk – add appropriate detail about the type and location of controls	
<ol style="list-style-type: none"> 1. Learning environments to be properly cleaned at the start and end of each day and properly cleaned between uses by different groups of children. Blackpool Gateway Academy SLT to agree with the Site Supervisor cleaning schedule and frequency for the academy in line with operational requirements (e.g. what needs to be cleaned, how should it be cleaned and how often). This should be at the start and end of each day as well as more regularly than normal throughout the day across school. Cleaning protocol from FCAT Premises to be issued to assist with this. 2. Clean surfaces that children and young people are touching, such as toys, books, desks, chairs, tables, doors, sinks, toilets, light switches, bannisters, more regularly than normal. 3. Shared materials and surfaces should be cleaned and disinfected more frequently than normal. 4. Ensure that sufficient handwashing facilities are available across the school. Where a sink is not nearby, provide hand sanitiser. 5. Children and staff to wash hands/use sanitiser frequently throughout the day - wash hands thoroughly for 20 seconds with running water and soap and dry them thoroughly or use alcohol hand rub or sanitiser ensuring that all parts of the hands are covered. 6. Children and young people should clean their hands on arrival at the setting, before and after eating, after sneezing or coughing, should be encouraged not to touch their mouth, eyes and nose, should use a tissue or elbow to cough or sneeze and use bins for tissue waste ('catch it, bin it, kill it'). 7. Ensure there are lidded bins in break/playtime and lunchtime areas for tissues and these are emptied throughout the day. Lidded bins throughout the academy. 8. Display signage across school regarding handwashing to reinforce, encourage and promote this for staff and children. 9. Full stock of soap and sanitiser to be maintained in school at all times. 10. Prop doors open, where safe to do so (bearing in mind fire safety and safeguarding), to limit use of door handles and aid ventilation. 11. Learning planned so resources are individual and not shared – or on white board. 12. Resources on tables ready for learning and not distributed during the learning. 13. Use plastic packets (zippy) bags used for individual resources. 14. Limit the amount of shared resources that are taken home and limit exchange of take-home resources between children, young people and staff. Children cannot bring any resources from home and no resources taken home from school to reduce the risk of cross contamination. 15. Seek to prevent the sharing of stationery and other equipment where possible. 16. Practical lessons can go ahead if equipment can be cleaned thoroughly and properly cleaned between different groups of children. 17. Children keep to their desks when in the learning environment. 18. Where possible seat children at the same desk each day if they attend on consecutive days.

1. Ensure there is a member of First Aid trained staff on site and only trained staff carry out First Aid (for primary requires Paediatric First Aid).
2. Ensure full and complete first aid stock on site at all times.
3. Ensure FCAT First Aid, Accident Administering medicines and EHP Policies are followed.
4. Staff should wear PPE if a child or young person becomes unwell with symptoms of coronavirus while in their setting and needs direct personal care until they can return home. A fluid-resistant surgical face mask should be worn by the supervising adult if a distance of 2 metres cannot be maintained. If contact with the child or young person is necessary, then disposable gloves, a disposable apron and a fluid-resistant surgical face mask should be worn by the supervising adult. If a risk assessment determines that there is a risk of splashing to the eyes, for example from coughing, spitting, or vomiting, then eye protection should also be worn.
5. Staff should wear PPE for children, young people and students whose care routinely already involves the use of PPE due to their intimate care needs. They should continue to receive their care in the same way.
6. Full and complete stock of PPE on site at all times.

- Blackpool Gateway Academy SLT to ensure continuous clear and effective communication with staff regarding the detail of plans for the phased wider re-opening of schools and this COVID-19 risk assessment and control measures in advance and following 1st June 2020 to aim to minimise uncertainty and anxiety.
- At least one SLT member of staff on site every day for staff to share any questions or concerns with
- Continued access for staff to remote wellbeing support from qualified professionals via Line Manager or **teamfcatawellbeing.fcata.org.uk** monitored by HR daily.
- Ongoing signposting of staff to online/phone wellbeing support.
- Ongoing review of COVID-19 risk assessment to ensure control measures are implemented and updated if necessary to maintain a safe working environment.
- To promote the Team FCAT Work and Wellbeing charter.

FCAT

7. Set up of trust-wide e-mail address for staff to share/report and health and safety concerns relating to COVID-19.
8. The Headteacher (or delegated senior leader) will operate weekly with school based union representatives in order for any concerns to be addressed.

Remaining level of risk		Consider level of risk following use of control measures	
HIGH	MEDIUM	LOW	NEGLIGIBLE

Issue that could cause harm: 14	Risk of COVID-19 illness to extremely clinically vulnerable and clinically vulnerable children staff and family members.
--	---

Existing level of risk			
-------------------------------	--	--	--

HIGH	MEDIUM	LOW	NEGLIGIBLE
-------------	---------------	------------	-------------------

How to manage it (control measures)	List your control measures required to reduce risk – add appropriate detail about the type and location of controls
--	---

1. Children who are extremely clinically vulnerable should not attend school.
2. Children who live with someone who is extremely clinically vulnerable are advised they only attend an education or childcare setting if stringent social distancing can be adhered to and they are able to understand and follow those instructions.
3. Staff who are extremely clinically vulnerable (those who have received a letter from Government or clinician advising them to shield) should work from home. Staff who are living with someone who is clinically extremely vulnerable should be supported to work from home.
4. Staff who are clinically vulnerable should work from home where possible. Education and childcare settings should endeavour to support this, for example by asking staff to support remote education, carry out lesson planning or other roles which can be done from home. If clinically vulnerable individuals cannot work from home, they should be offered the safest available on-site roles, staying 2 metres away from others wherever possible, although the individual may choose to take on a role that does not allow for this distance if they prefer to do so. If they have to spend time within 2 metres of other people, settings must carefully assess and discuss with them whether this involves an acceptable level of risk.
5. Staff and children living with those that are clinically vulnerable can attend school and work with children or adults adhering to this risk assessments.
6. Parents and carers have been provided with clear guidance and this is reinforced on a regular basis.
7. Parents and carers have been asked to make the school aware of pupils' underlying health conditions and the school has sought to ensure the appropriate guidance has been acted upon.
8. FCAT, parents and carers are clear about the definitions and associated mitigating strategies in relation to people who are classified as 'clinically vulnerable' and 'clinically extremely vulnerable.'
9. All members of staff with underlying health issues, those within vulnerable groups or who are shielding have been instructed to make their condition or circumstances known to the school. Records are kept of this and updated regularly.
10. In response to the UK ICNARC report, the UK Department for Health and Social Care (DHSC) has commissioned a formal review by Public Health England and NHS England into the apparently higher level of COVID-19 mortality among people from BAME backgrounds. FCAT will monitor Government advice and act accordingly.
11. Members of staff with underlying health conditions have been asked to seek and act on the advice of the current government advice and FCAT HR.
12. Staff are clear about the definitions and associated mitigating strategies in relation to people who are classed as 'clinically vulnerable' and 'clinically extremely vulnerable.'

FCAT

13. All staff with underlying health conditions that put them at an increased risk from COVID-19 are working from home in line with national guidance. Current government guidance is being applied.

Remaining level of risk		Consider level of risk following use of control measures	
HIGH	MEDIUM	LOW	NEGLIGIBLE

Issue that could cause harm: 15 Staff health and wellbeing when working from home for which FCAT remains responsible for as the employer.

Existing level of risk			
HIGH	MEDIUM	LOW	NEGLIGIBLE

How to manage it (control measures) List your control measures required to reduce risk – add appropriate detail about the type and location of controls

1. Line Managers to maintain regular and reasonable contact with staff in their teams.
2. Encourage staff to undertake a workstation risk assessment and consider any equipment staff may require in order to work from home safely.
3. Encourage staff to take short and regular rest breaks when using a computer screen.
4. To encourage staff not to work excessively long hours and to take a lunch break.
5. To promote the Team FCAT Work and Wellbeing Charter.
6. Continued access for staff to remote wellbeing support from qualified professionals via Line Manager or teamfcatwellbeing.fcat.org.uk monitored by HR daily.
7. Ongoing signposting of staff to online/phone wellbeing support.

Remaining level of risk		Consider level of risk following use of control measures	
HIGH	MEDIUM	LOW	NEGLIGIBLE

Issue that could cause harm: 16 Lack of Social Distancing and poor hygiene in staff offices and meeting rooms which could increase the risk and rate of transmission of coronavirus (COVID-19)

Existing level of risk			
HIGH	MEDIUM	LOW	NEGLIGIBLE

How to manage it (control measures) List your control measures required to reduce risk – add appropriate detail about the type and location of controls

1. Staff offices to be properly cleaned at the start and end of each day and surfaces (e.g. desks, door and window handles, light switches etc.) cleaned more regularly than normal throughout the day. Blackpool Gateway Academy SLT to agree with the Site Supervisor cleaning schedule and frequency for the offices and meeting rooms in line with operational requirements (e.g. what needs to be cleaned, how should it be cleaned and how often). **Cleaning protocol from FCAT Premises to be issued to assist with this.**
2. Staff who are office based and can undertake their job role at home, should continue to work from home.
3. Limit the number of people in office at any one time.
4. Ensure a 2 metre distance between staff work spaces. Use markers e.g. paint/tape in the office at 2 metre intervals to encourage and maintain social distancing.

FCAT

5. Use back-to-back or side-to-side working (rather than face-to-face) whenever possible.
6. Reducing the number of people each person has contact with by using 'fixed teams or partnering' (so each person works with only a few others).
7. Provide hand sanitiser in offices and meeting rooms.
8. Staff asked to clean hands upon arrival and exit from the office and regularly throughout the day - wash hands thoroughly for 20 seconds with running water and soap and dry them thoroughly or use alcohol hand rub or sanitiser ensuring that all parts of the hands are covered
9. Prop doors open, where safe to do so (bearing in mind fire safety and safeguarding), to limit use of door handles and aid ventilation.
10. Where possible, all spaces should be well ventilated using natural ventilation (opening windows) or ventilation units
11. Display signage in offices regarding social distancing and good hygiene to reinforce, encourage and promote this for staff.
12. Avoiding use of hot desks and spaces and, where not possible, for example, call centres or training facilities, cleaning and sanitising workstations between different occupants including shared equipment.
13. Use remote working tools to avoid in-person meetings.
14. Only absolutely necessary participants should attend meetings and should maintain 2m separation throughout.
15. Avoiding transmission during meetings, for example avoiding sharing pens and other objects.
16. Hold meetings outdoors or in well-ventilated rooms whenever possible.

--	---

1. Tell staff, children, young people, parents, carers or any visitors, such as suppliers, not to enter the education or childcare setting if they are displaying any symptoms of coronavirus (following the [COVID-19: guidance for households with possible coronavirus infection](#)).
2. If anyone becomes unwell with a new, continuous cough or a high temperature in an education or childcare setting, they must be sent home and advised to follow the [COVID-19: guidance for households with possible coronavirus infection guidance](#).
3. Proper cleaning of the area where anyone has become unwell with symptoms of COVID-19 should take place.
4. If a child is awaiting collection, they should be moved, if possible, to a room where they can be isolated behind a closed door, depending on the age of the child and with appropriate adult supervision if required. Ideally, a window should be opened for ventilation. If it is not possible to isolate them, move them to an area which is at least 2 metres away from other people.
5. If they need to go to the bathroom while waiting to be collected, they should use a separate bathroom if possible. The bathroom should be cleaned and disinfected using standard cleaning products before being used by anyone else.
6. PPE should be worn by staff caring for the child while they await collection if a distance of 2 metres cannot be maintained (such as for a very young child or a child with complex needs). A fluid-resistant surgical face mask should be worn by the supervising adult if a distance of 2 metres cannot be maintained. If contact with the child or young person is necessary, then disposable gloves, a disposable apron and a fluid-resistant surgical face mask should be worn by the supervising adult. If a risk assessment determines that there is a risk of splashing to the eyes, for example from coughing, spitting, or vomiting, then eye protection should also be worn.
7. Staff and parents/carers should be advised about testing for COVID-19 for keyworkers and children in school.
8. Academy SLT should ensure any confirmed cases of COVID-19 following a positive test result should be notified to Jane McCumiskey (FCAT COO) to ensure that the FCAT procedure in the event of this can be followed.
