

FCAT

Coronavirus (COVID-19) Implementing protective measures within FCAT

COVID-19 Risk Assessment

Academy	Unity Academy
Activity / Procedure	Full opening of schools - managing the risk and rate of transmission of coronavirus (COVID-19)
Assessment date	8th July
Review date	To be reviewed and updated frequently before and after the wider opening of school and in light of any updates to existing government guidance or any new guidance.

Identified groups at risk	
Employees	YES
Children	YES
Visitors	YES
Contractors	YES

Red text is control measures from Government Guidance Documents

Guidance for full opening: schools (2nd July 2020).

<https://www.gov.uk/government/collections/guidance-for-schools-coronavirus-covid-19>

This risk assessment does not supersede any legal obligations relating to health and safety, employment or equalities.

This risk assessment is completed based on the guidance and information available on the 2nd July 2020 and will be updated to reflect any changes in published guidance.

The word pod and bubble may be used interchangeably throughout this document.

FCAT

Issue that could cause harm:	Lack of Social Distancing in the learning environment (classroom/ workshop/ hall/ outdoors) which could increase the risk and rate of transmission of coronavirus (COVID-19)			
Existing level of risk:				
HIGH	MEDIUM	LOW	NEGLIGIBLE	
How to manage it (control measures)	List your control measures required to reduce risk – add appropriate detail about the type and location of controls			
<ol style="list-style-type: none"> 1. A staggered start to autumn term will be implemented for different groups of children 2. Available Capacity / Agreed number following Government guidelines: All pupils / students can attend the academy each day. 3. Reducing the number of children in the learning environment to enable social distancing: In secondary years, we envisage groups of no more than 24 in order to maintain the maximum possible social distancing and in primary years we envisage groups of no more than 30 in order to maintain the maximum possible social distancing. Primary classrooms have been reviewed with a maximum of 30 pupils in each classroom. Secondary classrooms have been reviewed with a maximum of 30 pupils in each classroom. 4. Defined members of staff are recommended to be with each small group of children. For pre-school children in early years settings, the staff to child ratios within <u>Early Years Foundation Stage</u> (EYFS) continue to apply and these are recommended to group children. 5. Ensure that children are in the same small groups at all times each day, and different groups are not mixed during the day, or on subsequent days. Groups of children will be placed into 'bubbles' with defined staff and children will not mix with other 'bubbles' and classrooms, wherever this is possible 6. Specific behaviour support rooms will be identified for each secondary Year group and primary group 7. PE changing rooms will not be used. 8. Where possible, practical PE will take place outdoors 9. Assemblies will take place for secondary Year groups only as defined groups. No primary assemblies will be scheduled 10. Cleaning rotas will be updated to be in synergy with the amended academy timetable from autumn term 2020. 11. Classrooms will be arranged so that desks are forward-facing wherever possible. Extraneous furniture will be removed to facilitate the maximum possible distancing within rooms. 12. Secondary classrooms will hold a maximum of 12 student tables (capacity 24 children) 13. Science laboratory maximum student capacity is set at 12 students 14. Specific arrangements will be put in place to enable secondary siblings to collect primary children in a distanced manner 15. Classrooms will have a defined teacher area to support social distancing, equipped also with a sneeze screen 16. Ensure that the same staff are assigned to each group of children and, as far as possible, these stay the same during the day and on subsequent days, recognising for secondary settings there will be some subject specialist rotation of staff. Changing the assignment of staff to each group of children/young people will be a last resort but may be necessary for example due to staff absence or redeployment of secondary staff to primary who then may need to return to secondary. 17. Staff will be assigned to no more than three group 'bubbles' 18. Any technical support staff required to enter a learning environment due to urgent operational requirements (e.g. IT Technician) will maintain a minimum 1 metre plus distance (ideally 2m) social distance, may wear PPE and the Class Teacher will ensure that children follow social distancing to enable the technical staff to work at a social distance. 19. Maximise the number of learning environments used including outdoor space as much as possible to more easily allow for distance between children and staff. 20. Access rooms directly from outside where possible to reduce mixing of groups. All reception, year 1 classrooms, year 6 classrooms (with the exception of 1) can be directly accessed from outside. 21. Ensure that wherever possible children use the same classroom or area of a setting throughout the day to minimise movement around school. 22. Remove excess furniture to increase space if able to do so.(Appendix A Premises / cleaning protocol). 23. Desks should be spaced as far apart as possible. (Appendix A Premises / cleaning protocol). Extraneous furniture will be removed. 24. In primary, unlike older children and adults, early years and primary age children cannot be expected to fully socially distance apart from each other and staff. Children will be spaced as far apart as possible, given group sizes. 25. In secondary schools re-arrange classrooms/workshops with desks facing forward and maximum distancing. 26. Children keep to their desks when in the learning environment. 				

FCAT

27. Where possible seat children at the same desk each day if they attend on consecutive days.
28. Personal property of children will be kept to a minimum e.g. bags, coats, lunchboxes. Children will be advised not to bring bags and coats if possible. If these are brought into school they should be stored in the individual storage area provided for each child.
29. Staff members will be briefed on keeping a minimum 1 metre plus distance (ideally 2m) from each other and children wherever possible in the learning environment.(Appendix B Staff information guidance) A staff information website has been issued to all staff members prior to reopening. Induction of Covid 19 are in operation for all staff prior to reopening and include; Infection Control and information on revised policies and procedures.
30. Mark out a 1 metre plus area (ideally 2m) e.g. with tape for the member(s) to of staff to be able to maintain social distancing from children and other staff.
31. Signage will be displayed in all learning environments regarding social distancing to reinforce, encourage and promote this for staff and children.
32. The academy will introduce staggered arrival and departure times of children, parents and children will be expected to maintain social distancing at all times – floor markings will indicate the distance required to be maintained. As far as possible each year group will use separate entrances in order to reduce the build-up of parents and children. Parents will be required to line up to collect children and children will be brought to them in turn. Primary children will be marshalled in the front car park on arrival where they will position themselves on separate markings in bubbles allowing for a full group of 12 children to arrive and be escorted to a teaching room. All door handles used will be cleaned before the next group moves to a location. Secondary children will arrive via the Milford Avenue (rear) entrance, with staggered arrival times and via specific 'lanes'.
33. Procedures will be in place to remind attendees of the need to safely remove any face covering worn on the journey to school and that this must not be worn during the school day
34. Toilets will revert to their original designation. All toilets will be cleaned at least hourly.
35. Staff will be urged to maintain social distancing where possible but will not work beyond the group (or groups in the case of secondary staff) of children they are allocated to. Year group classrooms will be identified and co-located wherever possible to minimise movement around school and potential contact with other Year group bubbles.
36. For children and staff, procedures will be revisited and managed in line with the academy behaviour policy, updated in light of the coronavirus epidemic.
37. There will be clear messaging to pupils on the importance and reasons for social distancing is reinforced throughout the school day by staff and through posters, electronic boards, and floor markings. For young children this will be through age-appropriate methods such as stories and games.
38. Assemblies and the coming together of other large groups, both staff and students will be suspended.
39. Off site visits will resume with additional protective measures under FCAT policy guidance, with full and thorough additional risk assessments for every visit.
40. Academy behaviour policy has been revised and a specific COVID appendix added to include compliance with social distancing and this has been communicated to staff, pupils and parents.
41. Senior leaders monitor areas where there are breaches of social distancing measures and arrangements are reviewed.
42. Intensive monitoring of the compliance with safety arrangements will avoid the need for quality assurance walk through classroom visits at this time.

Remaining level of risk

Consider the level of risk following use of the above control measures

HIGH

MEDIUM

LOW

NEGLIGIBLE

FCAT

Issue that could cause harm:		Lack of Social Distancing when using toilets and poor hygiene which could increase the risk and rate of transmission of coronavirus (COVID-19)	
Existing level of risk:			
HIGH	MEDIUM	LOW	NEGLIGIBLE
How to manage it (control measures)		List your control measures required to reduce risk – add appropriate detail about the type and location of controls	
<ol style="list-style-type: none"> 1. Ensuring that toilets do not become crowded by limiting the number of children who use the toilet facilities at one time. Toilets will be cleaned hourly. 2. Staff and children asked to clean hands after using the toilet - wash hands thoroughly for 20 seconds with hot running water and soap and dry them thoroughly or use alcohol hand rub or sanitiser ensuring that all parts of the hands are covered. 3. Ensure that help is available for children who have trouble cleaning their hands independently. Ensure supervision of hand sanitizer use given risks around ingestion. Small children and pupils with complex needs should continue to be helped to clean their hands properly, Skin friendly cleaning wipes can be used as an alternative. 4. Signage will be displayed in the toilets regarding hand washing to reinforce, encourage and promote this for staff and children. 5. Prop doors open, where safe to do so (bearing in mind fire safety and safeguarding), to limit use of door handles and aid ventilation. 6. Full stock of soap and sanitiser to be maintained in the toilets at all times. 7. Toilets will be cleaned according to the FCAT cleaning risk assessment schedule as a minimum throughout the day (at Unity Academy we intend to clean toilets at least hourly), as well as the start and end of each day. If any toilet needs cleaning urgently, staff should contact the cleaning team via main school reception. 8. Parents will not be allowed on site to use toilets. 9. All hand dryers have been isolated and lidded bins and paper towels are in place. 10. Ensure help is available for children who have trouble cleaning their hands independently. Ensure supervision of hand sanitizer use given risks around ingestion. Small children and pupils with complex needs should continue to be helped to clean their hands properly, Skin friendly cleaning wipes can be used as an alternative. 			
Remaining level of risk		Consider level of risk following use of control measures	
HIGH	MEDIUM	LOW	NEGLIGIBLE

FCAT

Issue that could cause harm:	Lack of social distancing and poor hygiene upon arrival and exit from school which could increase the risk and rate of transmission of coronavirus (COVID-19)		
Existing level of risk:			
HIGH	MEDIUM	LOW	NEGLIGIBLE
How to manage it (control measures)	List your control measures required to reduce risk – add appropriate detail about the type and location of controls		
<ol style="list-style-type: none"> 1. Tell staff, children, young people, parents, carers or any visitors, such as suppliers, not to enter the education or childcare setting if they are displaying any symptoms of coronavirus. 2. Non-Contact Infrared Thermometer with LCD Display will be available. 3. Staff will arrive through the canteen and will proceed to the main reception (all doors will be open) in order to activate their fob, sanitise hands and pick up any PPE. They will then proceed directly to work locations and will not congregate in groups of staff. Any staff briefing will be done virtually. Staff are required to maintain 1 metre plus (ideally 2m) social distancing wherever possible. Staff should not make stops to collect drinks etc on arrival and should where possible bring their own cutlery and utensils for personal use during the day. 4. The academy has staggered arrival and departure times of children, parents and children will be expected to maintain social distancing at all times – floor markings will indicate the distance required to be maintained. As far as possible each year group will use separate entrances in order to reduce the build up of parents and children. Parents will be required to line up to collect children and children will be brought to them in turn. Primary children will be marshalled in the front car park on arrival where they will position themselves on separate markings in bubbles allowing for a full group of children to arrive and be escorted to teaching room/s. All door handles used will be cleaned before the next group move to a location. 5. Installation of hand sanitiser stations at staff entrances/exits to building. 6. Staff to sanitise hands on each and every entry and exit from the building. 7. Prop doors open, where safe to do so (bearing in mind fire safety and safeguarding), to limit use of door handles and aid ventilation. 8. No more than 2 people will be allowed in the outer reception area of the academy, markings on the floor will provide adequate social distancing for reception staff. A perspex screen will be in place at the main reception window and on the desk in the inner reception area. No visitors will be admitted to the inner reception area unless in an emergency. Staff will be required to contact the office through phone or email rather than in person and no more than 2 people should be in the inner reception area at any one time. Where children arrive at front reception, they will be marshalled through the area in a socially distanced, self contained bubble by supervising staff. 9. As far as possible visitors to site will be limited and where possible no visitors will be allowed on site or face to face meetings undertaken, where an emergency or safeguarding need means a face to face meeting is necessary to safeguard a child, this will take place in the main meeting room, chairs will be removed to that social distancing is observed and a Perspex screen will be in place to separate attendees. Full PPE (including visors) is also available. 10. Make clear to parents and carers that they cannot gather at entrance gates or doors, or enter the site (unless they have a pre-arranged appointment, which should be conducted safely). Communication can be done via email or phone. 11. Visitors will be advised that they cannot enter the site unless they have a pre-arranged appointment, which should be conducted safely. Contact details of all visitors will be taken in line with Test and Trace protocols. 12. If it is agreed that a visitor does need to enter the school, they should give their details to the Receptionist – name, company, car registration, arrival time and who they are visiting, these details should be recorded on a daily sheet attached to a clipboard by the employee on Reception, which can then be taken outside in the event of a fire alarm. Neither visitors nor staff should use the touch screen or sign in themselves using a pen to avoid sharing equipment. 13. Visitors must be accompanied at all times for safeguarding reasons but also to ensure they do not access areas of the school that are not being used or may not be on the cleaning schedule. 14. The visitors should be given a disposable visitor badge (either a stick on label or a label in a plastic wallet that can be binned after use). The Receptionist will enter the time of leaving on the sheet and the badge should be placed in a lidded bin by the visitor. 15. The academy has staggered arrival and departure times of children, parents and children will be expected to maintain social distancing at all times – floor markings will indicate the distance required to be maintained. As far as possible each year group will use separate entrances in order to reduce the build-up of parents and children. Parents will be required to line up to collect children and children will be brought to them in turn. Primary children will be marshalled in the front car park on arrival where they will position themselves on separate markings in bubbles allowing for a full group of children to arrive and be escorted to a teaching room/s. All door handles used will be cleaned before the next group moves to a location. All external doors (which can be opened in line with fire regulations) will be opened and all staff/children will be expected to sanitise or wash hands upon entry and exit of any building or room. 16. Implement staggered drop off and pick up times for different groups of children. 17. Tell parents that if their child needs to be accompanied to the education or childcare setting, only one parent should attend. 18. Staff supervision throughout drop off/pick up to encourage and insist on social distancing. 19. Signage will be displayed outside and inside the building regarding social distancing and good hygiene to reinforce, encourage and promote this for staff, parents, carers and children. 20. Everyone should use a tissue or elbow to cough or sneeze and use bins for tissue waste ('catch it, bin it, kill it'). 21. Ensure there are lidded bins for tissues and these are emptied throughout the day. All bins are lidded around the site and in classrooms. 			
Remaining level of risk	Consider level of risk following use of control measures		
HIGH	MEDIUM	LOW	NEGLIGIBLE

FCAT

Issue that could cause harm:		Lack of social distancing and poor hygiene during break/ playtimes and lunchtimes which could increase the risk and rate of transmission of coronavirus (COVID-19)	
Existing level of risk:			
HIGH	MEDIUM	LOW	NEGLIGIBLE
How to manage it (control measures)		List your control measures required to reduce risk – add appropriate detail about the type and location of controls	
<ol style="list-style-type: none"> 1. Stagger break times (including lunch), so that all children are not moving around the school at the same time and that any corridors or circulation routes used have a limited number of children or young people using them at any time. 2. Lunch service will be extended. Additional lunch service 'sittings' and venues will be put in place in order to allow for additional time to provide the required hot meal. 3. Dividers down the middle of the corridor to keep groups apart as they move through the setting where spaces are accessed by corridors. 4. Access rooms directly from outside where possible to reduce mixing of groups. 5. Ensure that children and young people are in the same small groups at all times each day, and different groups are not mixed during the day, or on subsequent days. 6. Ensure that the same staff are assigned to each group of children and, as far as possible, these stay the same during the day and on subsequent days, recognising for secondary settings there will be some subject specialist rotation of staff. Changing the assignment of staff to each group of children will be a last resort but may be necessary for example due to staff absence or redeployment of secondary staff to primary who then may need to return to secondary. 7. There will be allocated different areas for different groups of children and staff. Movement will be managed to minimise proximity of groups. 8. Children and young people should clean their hands before and after eating and enter in the groups they are already in, groups should be kept apart as much as possible and tables should be cleaned between each group. If such measures are not possible, children should be brought their lunch in their classrooms 9. Children and young people should clean their hands regularly including when they arrive at school, when they return from breaks, when they change rooms and before and after eating. 10. Ensure there is enough time built into the daily timetable to wash hands at regular intervals throughout the day and additional handwashing facilities installed, if required. 11. Prop doors open, where safe to do so (bearing in mind fire safety and safeguarding), to limit use of door handles and aid ventilation. 12. Where possible, all spaces should be well ventilated using natural ventilation (opening windows) or ventilation units. 13. Display signage will be outside and inside the building regarding social distancing and good hygiene to reinforce, encourage and promote this for staff and children. 14. There will be the use of markers e.g. paint/tape outside school and inside school at 1 metre plus (ideally 2m) intervals to encourage and maintain the maximum possible social distancing for children and adults. 15. Children and young people should clean their hands after sneezing or coughing, should be encouraged not to touch their mouth, eyes and nose, should use a tissue or elbow to cough or sneeze and use bins for tissue waste ('catch it, bin it, kill it'). This will be enforced and reminded by staff. 16. Ensure there are lidded bins in break/playtime and lunchtime areas for tissues and these are emptied throughout the day. 17. Ensure that sufficient handwashing facilities are available. Where a sink is not nearby, provide hand sanitiser in play/break time and lunchtime areas. 18. Reduce break/playtime equipment. Remove soft furnishings, soft toys and toys that are hard to clean (such as those with intricate parts). Consider how play equipment is used ensuring it is appropriately cleaned between groups of children using it, and that multiple groups do not use it simultaneously. (Appendix A Premises / cleaning protocol). 19. Games will be discussed which will encourage social distancing e.g. football passing and no sharing of equipment for games e.g. do not play catch, cordon off outdoor play equipment. 20. There will be staff supervision throughout break/play and lunchtimes to actively encourage and insist on social distancing. 21. Western yard outdoor play equipment has been fenced off to prevent use. Primary playground equipment will be cleaned more frequently and at least daily. Any sports or other equipment shared between bubbles or classes e.g. sports, art, science will be cleaned frequently and meticulously between use by other groups of children. 22. Water fountains have been turned off.

<ol style="list-style-type: none"> 1. Generally students will remain in the same classroom for most of the week for R-Y9 and for Y10/11 Core with staff being the only movement between classrooms. 2. Stagger break times (including lunch), so that all children are not moving around the school at the same time and that any corridors or circulation routes used have a limited number of children or young people using them at any time. 3. Divider markings will be in place down the middle of the corridor to keep groups apart as they move through the setting where spaces are accessed by corridors. 4. Access rooms directly from outside where possible to reduce mixing of groups. 5. Circulation plans have been reviewed. 6. One-way systems will be in operation where feasible. 7. Circulation routes will be clearly marked with appropriate signage. 8. Any pinch-points/bottle necks are identified and managed accordingly. 9. children and staff. 10. There will be staff supervision on corridors to actively encourage and insist on social distancing. 11. Staff will be encouraged to communicate via phone, radio or e-mail to limit unnecessary movement of staff on corridors. 12. Markers will be used e.g. paint/tape on corridors at 1 metre plus (ideally 2m) intervals to encourage and maintain social distancing for children and adults. 13. Prop doors open (except designated Fire Doors), where safe to do so (bearing in mind fire safety and safeguarding), to limit use of door handles and aid ventilation. 14. Where possible, all spaces should be well ventilated using natural ventilation (opening windows) or ventilation units. The movement of pupils around school will be minimised as much as possible. 15. Pupils will remain in classrooms with exceptions of break/lunch times and toilet breaks. 16. Pupils will be briefed regularly regarding observing social distancing guidance whilst circulating 17. Children and young people will be asked to walk in a single file on the corridor and consider having a member of staff at the front and back of the line to supervise and actively encourage and insist on social distancing. 18. Signage will be on corridors regarding social distancing to reinforce, encourage and promote this. 19. The lift will not be used except by the site team, children who can't use rooms upstairs will be accommodated in a bubble downstairs. 20. Where it is safe to do so, additional staff will be in place to supervise movement on corridors.

How to manage it (control measures)		List your control measures required to reduce risk – add appropriate detail about the type and location of controls	
<ol style="list-style-type: none"> 1. Learning environments will be properly cleaned at the start and end of each day and properly cleaned between uses by different groups of children. Live cleaning of high use areas (door handles, toilets, canteen tables and bannisters) will happen throughout the day. In addition each pod will be equipped with cleaning equipment (sanitising gel and tissues). All surfaces will be cleaned thoroughly at the start and end of each day as well as more regularly than normal throughout the day across school. (Cleaning schedule / Cleaning RA). 2. Clean surfaces that children and young people are touching, such as toys, books, desks, chairs, tables, doors, sinks, toilets, light switches, bannisters, more regularly than normal. (Cleaning schedule / Cleaning RA). 3. Shared materials and surfaces should be cleaned and disinfected more frequently than normal.(Cleaning schedule / Cleaning RA). 4. Ensure that sufficient handwashing facilities are available across the school. Where a sink is not nearby, provide sanitiser. 5. Children and staff to wash hands/use sanitiser frequently throughout the day - wash hands thoroughly for 20 seconds with hot running water and soap and dry them thoroughly or use alcohol hand rub or sanitiser ensuring that all parts of the hands are covered. 6. Children and young people should clean their hands on arrival at the setting, before and after eating, after sneezing or coughing, should be encouraged not to touch their mouth, eyes and nose, should use a tissue or elbow to cough or sneeze and use bins for tissue waste ('catch it, bin it, kill it'). 7. Ensure there are lidded bins in break/playtime and lunchtime areas for tissues and these are emptied throughout the day. Lidded bins throughout the academy. 8. Signage will be displayed across school regarding hand washing to reinforce, encourage and promote this for staff and children. 9. Disinfectant trigger spray and PPE in each learning environment (gloves, masks, aprons for use if required). 10. Full stock of soap and sanitiser will be maintained in I at all times. 11. Prop doors open (not designated Fire Doors), where safe to do so (bearing in mind fire safety and safeguarding), to limit use of door handles and aid ventilation. 12. Learning will be planned so resources are individual and not shared – or on white board. 13. Resources will be on tables ready for learning and not distributed during the learning. 14. Use plastic packets (zippy) bags used for individual resources. Each child will have a set of basic equipment/resources to use and sharing of resources will not take place unless disinfected regularly. 15. Limit the amount of shared resources that are taken home and limit exchange of take-home resources between children, young people and staff. Children cannot bring any resources from home e.g. iPad & pencil cases and no resources taken home from school to reduce the risk of cross contamination 16. Seek to prevent the sharing of stationery and other equipment where possible. Children will all have their own personal resources which will remain within their allocated space within their allocated room. 17. Practical lessons can go ahead if equipment can be cleaned thoroughly and properly cleaned between different groups of children. Specific guidance for practical subjects such as music and science will be fully implemented according to published DfE and CLEAPPS guidelines. Practical science will take place in groups of no more than 12 in a laboratory. Equipment will be thoroughly cleaned between its use by different children. Laboratories will be deployed as additional classrooms to facilitate through cleaning between its use by different groups of children. Music group sizes will be limited, practical work will take place in larger spaces/outside and children will be positioned and undertake activities to minimise possible transmission. 18. Children will keep to their desks when in the learning environment, wherever possible. 19. Where possible seating plans will place children at the same desk each day on consecutive days. 20. Equipment can be shared within bubbles but must be thoroughly cleaned (or left for 72 hours) if it is to be used in another bubble.

FCAT

Issue that could cause harm:		Risk of COVID-19 illness to extremely clinically vulnerable and clinically vulnerable children, staff and family members.	
Existing level of risk			
HIGH	MEDIUM	LOW	NEGLIGIBLE
How to manage it (control measures)		List your control measures required to reduce risk – add appropriate detail about the type and location of controls	
<ul style="list-style-type: none"> Where a pupil is unable to attend school because they are complying with clinical and/or public health advice, school will immediately offer them access to remote education. Schools should monitor engagement with this activity. <ul style="list-style-type: none"> Where children are not able to attend school as parents are following clinical and/or public health advice, absence will not be penalised. All other pupils must attend school Shielding advice for all adults and children will pause on 1 August, subject to a continued decline in the rates of community transmission of coronavirus (COVID-19). This means that even the small number of pupils who will remain on the shielded patient list can also return to school, as can those who have family members who are shielding. If rates of the disease rise children (or family members) may be advised to shield during the period where rates remain high and therefore they may be temporarily absent. In this event remote learning provision will be activated immediately. Parents of pupils and staff with significant risk factors should discuss their concerns with pastoral staff and senior leaders respectively. It is anticipated that fewer young people will be advised to shield and that the majority of pupils will be able to return to school. Some pupils no longer required to shield but who generally remain under the care of a specialist health professional may need to discuss their care with their health professional before returning to school (usually at their next planned clinical appointment). Following the reduction in the prevalence of coronavirus (COVID-19) and relaxation of shielding measures from 1 August, we expect that most staff will attend school. It remains the case that wider government policy advises those who can work from home to do so. We recognise this will not be applicable to most school staff, but where a role may be conducive to home working, for example some administrative roles, school leaders should consider what is feasible and appropriate. Individuals who were considered to be clinically extremely vulnerable and received a letter advising them to shield are now advised that they can return to work from 1 August as long as they maintain social distancing. School leaders should be flexible in how those members of staff are deployed to enable them to work remotely where possible or in roles in school where it is possible to maintain social distancing. People who live with those who are clinically extremely vulnerable or clinically vulnerable can attend the workplace. <p><u>Staff who are clinically vulnerable or extremely clinically vulnerable</u> The measures outlined in the DfE guidance for full opening of schools (page 1 of this risk assessment) will be applied and will mitigate risks significantly for staff, including those who are extremely clinically vulnerable and clinically vulnerable. This will allow most staff to return to the workplace, although we advise those in the most at risk categories to take particular care while community transmission rates continue to fall.</p> <ul style="list-style-type: none"> Parents of pupils and staff with significant risk factors should discuss their concerns with pastoral staff and senior leaders. FCAT still wishes to support staff in continuing to work from home, if able to do so, balancing this with increasing operational requirements. <ol style="list-style-type: none"> Staff who are extremely clinically vulnerable (those who have received a letter from Government or clinician advising them to shield) will be advised that they can return to work from 1 August as long as they maintain social distancing and the workplace is COVID secure. Staff who are clinically vulnerable should return to work where possible. Government advice is available for colleagues in these categories and those who are pregnant. Education/childcare settings should try to support flexible deployment where possible. The government is currently undertaking an official review of whether factors including ethnicity can affect people's vulnerability to COVID-19. The government has said this is because a disproportionately higher number of people have died from COVID-19 from black, Asian and minority ethnic (BAME) backgrounds. As such the trust will undertake individual risk assessments for any staff who are within the high risk category and/or BAME background as outlined in bullet point 6 above. Staff and children living with those that are extremely clinically vulnerable/clinically vulnerable can attend school and work with children or adults adhering to this risk assessment.

Issue that could cause harm:		Lack of Social Distancing and poor hygiene in staff offices and meeting rooms which could increase the risk and rate of transmission of coronavirus (COVID-19)		
Existing level of risk				
HIGH		MEDIUM		LOW
HIGH		NEGLIGIBLE		
How to manage it (control measures)		List your control measures required to reduce risk – add appropriate detail about the type and location of controls		
<ol style="list-style-type: none"> 1. Staff offices will be properly cleaned at the start and end of each day and surfaces (e.g. desks, door and window handles, light switches etc.) cleaned more regularly than normal throughout the day. A cleaning schedule will be in place to ensure that all offices are cleaned daily, in the case of meeting rooms, these will be cleaned. Cleaning equipment will be provided to all offices should staff wish to clean additionally during the day. Offices that do not need to be used will remain closed. 2. Offices which normally accommodate more than 1 person and which can't when socially distancing will be restricted to 1 person (2 if space permits). Distances of 1 metre plus (ideally 2m) will be required and offices will be reorganised to avoid face to face working. 3. Limit the number of people in office at any one time. 4. There will be a 1 metre plus (ideally 2m) distance between staff work spaces. Use markers e.g. paint/tape in the office at 1 metre plus (ideally 2m) intervals to encourage and maintain social distancing. 5. Use back-to-back or side-to-side working (rather than face-to-face) whenever possible. 6. Reducing the number of people each person has contact with by using 'fixed teams or partnering' (so each person works with only a few others). 7. Provide hand sanitiser in offices and meeting rooms. Disinfectant trigger spray and PPE in each office/meeting room (gloves, masks, aprons for use if required). 8. Staff will be asked to clean hands upon arrival and exit from the office and regularly throughout the day - wash hands thoroughly for 20 seconds with hot running water and soap and dry them thoroughly or use alcohol hand rub or sanitiser ensuring that all parts of the hands are covered 9. Prop doors open, where safe to do so (bearing in mind fire safety and safeguarding), to limit use of door handles and aid ventilation. 10. Where possible, all spaces should be well ventilated using natural ventilation (opening windows) or ventilation units 11. Signage will be displayed in offices regarding social distancing and good hygiene to reinforce, encourage and promote this for staff. 12. Avoiding use of hot desks and spaces and, where not possible, for example, call centres or training facilities, cleaning and sanitising workstations between different occupants including shared equipment. Staff room computer workstations cannot be used and alternative IT facilities will be provided. 13. Use remote working tools to avoid in-person meetings. 14. Only absolutely necessary participants should attend meetings and should maintain 2m separation throughout. 15. Avoiding transmission during meetings, for example avoiding sharing pens and other objects. 16. Hold meetings outdoors or in well-ventilated rooms whenever possible.

Issue that could cause harm:	Risk of a person coming into work/school with COVID-19 which could increase the risk and rate of transmission of coronavirus (COVID-19)			
Existing level of risk				
HIGH	MEDIUM	LOW	NEGLIGIBLE	
How to manage it (control measures)	List your control measures required to reduce risk – add appropriate detail about the type and location of controls			
<ol style="list-style-type: none"> 1. Tell staff, children, young people, parents, carers or any visitors, such as suppliers, not to enter the education or childcare setting if they are displaying any symptoms of coronavirus (following the COVID-19: guidance for households with possible coronavirus infection). 2. If anyone becomes unwell with a new, continuous cough, a high temperature or a loss, or change to, your sense of smell or taste in an education or childcare setting, they must be isolated, sent home and advised to follow the COVID-19: guidance for households with possible coronavirus infection guidance. 3. Test and trace protocols will be applied in full 4. Proper cleaning of the area where anyone has become unwell with symptoms of COVID-19 should take place. 5. If a child is awaiting collection, they should be moved, if possible, to a room where they can be isolated behind a closed door, depending on the age of the child and with appropriate adult supervision if required. This will be the Library. Ideally, a window should be opened for ventilation. If it is not possible to isolate them, move them to an area which is at least 1 metre plus (ideally 2m) away from other people, wherever possible. 6. If they need to go to the bathroom while waiting to be collected, they should use a separate bathroom if possible. The bathroom should be cleaned and disinfected using standard cleaning products before being used by anyone else. 7. PPE should be worn by staff caring for the child while they await collection if a distance of 1 metre plus (ideally 2m) cannot be maintained (such as for a very young child or a child with complex needs). A fluid-resistant surgical face mask should be worn by the supervising adult if a distance of 1 metre plus (ideally 2m) cannot be maintained. If contact with the child or young person is necessary, then disposable gloves, a disposable apron and a fluid-resistant surgical face mask should be worn by the supervising adult. If a risk assessment determines that there is a risk of splashing to the eyes, for example from coughing, spitting, or vomiting, then eye protection should also be worn. 8. Staff and parents/carers should be advised about testing for COVID-19 for keyworkers and children in school. 9. Academy SLT should ensure any confirmed cases of COVID-19 following a positive test result should be notified to Jane McCumiskey (FCAT COO) to ensure that the FCAT and DfE procedure in the event of this can be followed. 10. All children with SEND (K Codes) in year groups who return will have a risk assessment carried out prior to return. 11. If anyone becomes unwell with a new continuous cough, or a high temperature, or has a loss/change in their normal sense of smell of taste (anosmia), they must be sent home to self-isolate for 7 days and arrange to have a test. Other members of their household must isolate for 14 days from when the symptomatic person first had symptoms. 12. When the child, young person or staff member tests negative, they can return to their setting and the fellow household members can end their self-isolation. 13. Where a child, young person or staff member tests positive, the academy will contact the local health protection team who will investigate and provide further guidance. The health protection team will provide definitive advice on who must be sent home. 14. The academy will maintain records of pupils and staff in each group and further close contacts 15. Where the child, young person or staff member tests positive, the rest of their class or group within their childcare or education setting should be sent home and advised to self-isolate for 14 days. The other household members of that wider class or group don't need to self-isolate unless the child or staff member they live with in that group subsequently develops symptoms. 16. Household members of those contacts who are sent home do not need to self-isolate themselves unless the child, young person or staff member who is self-isolating subsequently develops symptoms. If someone in a class or group that has been asked to self-isolate develops symptoms themselves within their 14-day isolation period they should follow 'stay at home: guidance for households with possible or confirmed coronavirus (COVID-19) infection'. They should get a test, and: <ul style="list-style-type: none"> • if the test delivers a negative result, they must remain in isolation for the remainder of the 14-day isolation period. This is because they could still develop the coronavirus (COVID-19) within the remaining days. • if the test result is positive, they should inform their setting immediately, and must isolate for at least 7 days from the onset of their symptoms (which could mean the self-isolation ends before or after the original 14-day isolation period). Their household should self-isolate for at least 14 days from when the symptomatic person first had symptoms, following 'stay at home: guidance for households with possible or confirmed coronavirus (COVID-19) infection' 17. As part of the national test and trace programme, if other cases are detected within the cohort or in the wider setting, Public Health England's local health protection teams will conduct a rapid investigation and will advise schools and other settings on the most appropriate action to take. In some cases a larger number of other children, young people may be asked to self-isolate at home as a precautionary measure – perhaps the whole class, site or year group. Where settings are observing guidance on infection prevention and control, which will reduce risk of transmission, closure of the whole setting will not generally be necessary. 18. Everyone must wash their hands thoroughly for 20 seconds with soap and running water or use hand sanitiser after any contact with someone who is unwell. 19. Schools should not request evidence of negative test results or other medical evidence before admitting children or welcoming

Issue that could cause harm:		Lack of Social Distancing and poor hygiene in before Extracurricular including Before/After School Club provision which could increase the risk and rate of transmission of coronavirus (COVID-19)	
Existing level of risk			
HIGH	MEDIUM	LOW	NEGLIGIBLE
How to manage it (control measures)		List your control measures required to reduce risk – add appropriate detail about the type and location of controls	
<p>1. Keeping children within their year groups or bubbles where possible. If it is not possible to maintain bubbles being used during the school day then schools should use small, consistent groups.</p> <p>1. Ensure regular cleaning of environment and equipment in line with COVID Cleaning Schedule.</p> <p>2. Follow the control measures as outlined under section titled “Lack of Social Distancing in the learning environment (classroom/ workshop/ hall/ outdoors) which could increase the risk and rate of transmission of coronavirus (COVID-19)” and section titled “Lack of social distancing and poor hygiene during break/ playtimes and lunchtimes which could increase the risk and rate of transmission of coronavirus (COVID-19)” and section titled Contact with surfaces/shared resources and poor hygiene which could increase the risk and rate of transmission of coronavirus (COVID-19)</p>			
Remaining level of risk		Consider level of risk following use of control measures	
HIGH	MEDIUM	LOW	NEGLIGIBLE

FCAT Risk Assessment Guidance for Educational Trips

09/07/2020

Issue	How to manage it
Travel to venues	<ul style="list-style-type: none"> ● Whenever possible, plan activities in your local learning area. ● Where local venues/locations can be reached via the means of walking, follow the schools walking risk assessment whilst ensuring social distancing is possible or walking in social bubbles. ● The government currently advises that public transport should be avoided if possible. Where walking or cycling is not possible, dedicated transport (such as a minibus or coach) should therefore be used. DfE guidance recommends considering: <ol style="list-style-type: none"> 1. how pupils are grouped together on transport, where possible this should reflect the bubbles that are adopted within school; 2. use of hand sanitiser upon boarding and/or disembarking; 3. additional cleaning of vehicles; 4. organised queuing and boarding where possible; 5. distancing within vehicles wherever possible; 6. the use of face coverings for children over the age of 11, where appropriate, for example, if they are likely to come into very close contact with people outside of their group or who they do not normally meet.
Local indoor space	<ul style="list-style-type: none"> ● Review terms of use and have an agreed contract in place. ● Ensure Public Liability insurance in place. ● Check that a venue risk assessment is in place. ● Ensure the space is appropriate for the age, needs and planned activities and that social distancing rules can be adhered to. ● Confirm that good hygiene facilities are available and that personal protective equipment is provided and meets PHE recommended standards. ● Negotiate sole access and use of the site. ● A first aider must be provided by the school appropriate to the age of the students.
Local outdoor spaces	<ul style="list-style-type: none"> ● If possible, negotiate temporary exclusive use of the outdoor space. ● Ensure a risk assessment is in place for use of the site including considerations for the weather. ● Agree terms of use with the landowner such as what activities are prohibited, rules and regulations, access and egress and discuss any specific hazards the site may have e.g. lakes. ● Ensure Public Liability insurance is in place if the land is privately owned. ● Confirm that good hygiene facilities are available and that there is sufficient space for social distancing including factoring in members of the public and other groups who may also be using the space. ● If a shelter is erected in the event of the weather declining, ensure that social distancing can still be maintained. ● Set up the environment to prevent bottle necks occurring and consider staggering the start of tasks.

FCAT

	<ul style="list-style-type: none"> • A first aider must be provided by the school appropriate to the age of the students.
Activity Selection	<ul style="list-style-type: none"> • Avoid activities that have a higher likelihood of minor injuries. • Avoid activities that require physical contact. • Ensure that there is adequate space for the activity. It may be possible to mark out designated areas/zones for individuals to work in to reduce the likelihood of contact. • Only deliver activities that conform with FCAT policies, procedures and any generic risk management plans or standard operating procedures.
Equipment	<ul style="list-style-type: none"> • Sort equipment into batches to reduce multi-use by different groups/bubbles. • Equipment must not be reused before it has been cleaned. • Where equipment cannot be cleaned, it should be left for 72hrs before being used again. • Equipment should be appropriate for the age of the student and the activity for which it was designed.
External Provider visiting site	<ul style="list-style-type: none"> • Follow academy procedures for selecting and contracting external providers. Ensure the provider staff remain outside for the duration of the visit. • Before booking, ensure the external provider has a risk management plan that covers Covid 19 measures which are in line with the academy requirements. • Ensure social distancing rules are adhered to.
Poor Hygiene	<ul style="list-style-type: none"> • Ensure facilities and means for regular hand washing are available. • Hands must be washed before and after touching shared objects, such as activity equipment, before eating and after using the toilet. • Participants should provide their own food and drink and not share with others. • All staff and students should avoid touching objects shared by the public such as gates and door handles. • Anyone who wishes to wear a face covering should be permitted to do so unless it is agreed that it would cause a serious risk to their safety during the activity. • Regular reminders of the rules and enforcement of them is the responsibility of all staff. • Antiseptic gels and/or wipes, tissues and bags for waste must be carried by staff. • All waste must be properly disposed of.
First Aid	<ul style="list-style-type: none"> • Ensure a bag is carried for any waste produced by the administration of first aid or personal care such as gloves, masks, disposable aprons and eye protection. • First aid needs to be appropriate to the age of the children. • Wherever possible, encourage self-administration of first aid or being 'talked through' from a distance

FCAT

COSHH	<ul style="list-style-type: none"> Any antiseptic sprays, wipes and/or hand gels should not be left unsupervised. Only sprays and wipes supplied by the establishment should be used and all staff must be briefed on their use. All substances must be used as specified on the container.
Group Size	<ul style="list-style-type: none"> Group work must be delivered following COVID-19 procedures and normal activity procedures. Ensure the group size is manageable considering SAGE and enabling social distancing.
Expeditions	<ul style="list-style-type: none"> The local area should be used for expeditions to reduce travel requirements. Activities should start and finish within the school grounds or at a pre-arranged location utilising parental drop-off/collection whenever possible. Students should be arranged into groups of no more than 6 people and each group must remain within a social bubble throughout. Maintain social distancing among students, staff and parents. Groups should be reminded to socially distance from members of the public. Guard against groups 'bunching up'. Pre-packaged food and drink to be carried individually. Participants are trained in basic first aid and encouraged to self-administer or to receive more expert advice from a distance Advise against equipment sharing and ensure that participants carry individual maps, compasses etc. Participants should carry tissues, hand sanitiser or wipes to regularly clean hands and have a bag to dispose of tissues and wipes. First aid kits should include masks. All participants should understand rescue procedures in the event of an accident including the requirement for increased self-reliance as a party owing to limitations placed on the services of Mountain Rescue services at present
Further Guidance and Support.	<p>The Department for Education (DfE) has issued a range of guidance for staff, school leaders, carers, parents, and students at: www.gov.uk/coronavirus/education-and-childcare This includes guidance about implementing protective measures at: https://www.gov.uk/government/publications/coronavirus-covid-19-implementing-protective-measures-in-education-and-childcare-settings Guidance about safe working at: https://www.gov.uk/government/publications/safe-working-in-education-childcare-and-childrens-social-care DfE has also issued specific travel advice for educational settings: https://www.gov.uk/government/publications/coronavirus-covid-19-travel-advice-for-educational-settings</p>

Appendix D - FCAT Cleaning Protocol and Premises Checklist Covid

FCAT CLEANING PROTOCOL and PREMISES CHECKLIST COVID

ACADEMY: Unity Academy DATE: 22/5/20

Signed: Anne Rawcliffe (Cleaning Supervisor), Damion Spencer (Site Supervisor – on behalf of Clive Mason), Simon Brennand (Senior Deputy Headteacher)

No.	ACTIONS ON SITE	RESPONSIBLE	YES/NO
1	Entrances/exits and routes are clearly planned and marked for staff and students. The number of entrances and exits has been reviewed to support social distancing. One-way routes are in place where feasible with clear signage.	SLT/Site team	Yes. Signage being finalised.
2	Reconfiguration of classrooms, chairs and desks has been undertaken to allow for compliance with government guidance on social distancing. Seating arrangements for staff and pupils are clearly marked, communicated and all non- essential furniture, fixtures and equipment has been removed and stored. (Including toys and soft furnishings).	Site team	Yes. Under way.
3	Rooms which are not being used have been cleaned, disinfected and locked or access to them restricted.	Site team	Yes. Under way.
4	COVID-19 signage for hygiene, social distancing and any new routes is displayed throughout the school.COVID-19 hygiene signage is in prominent areas and circulation routes.	Site team	Yes. Signage being finalised.
5	Dining area layouts are configured to ensure separation in line with government guidance on social distancing. Tables/chairs are cordoned off where this is not possible. Floor markings are used to manage queues and enable social distancing.	Site team	Yes. Signage being finalised.
6	Zones for toilets and handwashing have been established and are monitored. Floor markings have been provided to enable social distancing.	Site team / SLT	Yes. Signage and floor marking being finalised.
7	First Aid rooms have been reconfigured to ensure social distancing provisions are met. Additional rooms close to reception have been designated for isolating pupils with suspected COVID-19 whilst collection is arranged.	Site team / SLT	Yes. Signage being finalised.
8	Social distancing in Reception is reinforced through floor marking and signage.	Site team	Yes
9	A plan to manage external play areas is in place, no play equipment to be used, incorporating social distancing, staggering of breaks and lunch times, designated areas for different groups, signage and increased levels of supervision.	Site team / SLT	Yes
10	PE lessons have been planned to observe social distancing during activities.	SLT	Yes
11	Social distancing in Reception is reinforced through floor marking and signage.	Site team	See 8
12	Screens have been fitted in key areas	Site team / SLT	Yes

FCAT

13	Visitors to school are kept to a minimum. Visitors are checked for symptoms in advance (where possible) and on arrival. There is a designated waiting area/meeting room for visitors and their movement around school is limited.	SLT	Yes
14	Contractors are managed closely, and where possible, supervised if attending whilst school is operational. All contractors accessing the school site have confirmed they are symptom free; and have procedures in place to address COVID-19 issues, e.g. infection control, hygiene and social distancing. This is set out clearly in the academy Risk Assessment.	Site team / SLT	Yes
15	Deliveries to school are managed effectively in a timely manner adhering to social distancing.	Site team	Yes
16	The fire evacuation and assembly point briefing for staff includes guidance on social distancing at assembly points. A review has been undertaken to assess whether the current assembly points are sufficient to accommodate the number of pupils and additional assembly points have been designated if required.	SLT	Yes
17	Students are managed when entering and exiting school gates/entrances/exit doors and social distancing guidance is applied.	SLT	Yes

MAINTENANCE/SERVICING/MONITORING (FCAT SYSTEMS IN PLACE)

Compliance and documentation checked and confirmed with GF (22/5/20)

No.	FIRE	RESPONSIBLE	Yes/No
18	Weekly fire tests are carried out and recorded.	Site team	Yes
19	Emergency lighting visual checks are carried out ensuring all lighting is fully operational.	Site team	Yes
20	Procedures are in place to ensure fire exits are clear from obstructions.	Site team	Yes
21	External gates are operational and functioning fully.	Site team	Yes
22	Servicing arrangements are in place for the fire alarm.	External	Yes
23	Fire extinguishers are checked on a weekly basis.	Site team	Yes

Compliance and documentation checked and confirmed with GF (22/5/20)

No.	WATER	RESPONSIBLE	Yes/No
24	Water outlets are flushed on a weekly basis, including during any closure periods. Also disinfecting of tanks.	Site team	Yes
25	Monthly water temperature monitoring is in place.	Site team	Yes

Compliance and documentation checked and confirmed with GF (22/5/20)

No.	GAS	RESPONSIBLE	Yes/No
26	Certificates in date	Site team	Yes
27	Servicing schedule	Site team	Yes
28	Gas taps in science labs are operational	Site team	Yes
29	Temperature checks	Site team	Yes

No.	ELECTRIC	RESPONSIBLE	Yes/No
30	Social distancing signage is displayed outside lifts.	Site team	Yes
31	Lift servicing	Site team	Yes
32	Servicing of doors/gates and barriers is up to date.	Site team	Yes
33	All air conditioning systems remain energised in normal operating mode with any re-circulatory systems adjusted to	Site team	Yes

FCAT

	full fresh air. Servicing of air conditioning service/general ventilation certification is up to date.		
34	Servicing of intruder alarms/access control and CCTV is up to date.	Site team	Yes

CLEANING

No.	CLEANING	RESPONSIBLE	Yes/No
35	The 'cleaning schedule during the day' is applied on a daily basis.	Site Lead / Cleaning Supervisor / cleaners	Yes
36	The site is checked regularly for any pest activity and the pest control contractor has been assigned as necessary.	Site team	Yes
37	Hand sanitisers are available in prominent areas.in the school and are regularly replenished.	Site team	Yes
38	Cleaning regimes during the school day have been stepped up, applying the 'Cleaning schedule during the day' set out below.	Site Lead / Cleaning supervisor	Yes
39	Appropriate PPE is worn by cleaning staff and there are arrangements in place for safe disposal.	Cleaners	Yes
40	Risk Assessment to be completed set out below	Site Lead	Yes

No.	CLEANING SUPPLIES / PPE	RESPONSIBLE	Yes/No
41	There are sufficient supplies of gloves foot protectors and aprons on site for staff.	Site Lead / Cleaning supervisor	Yes
42	There are sufficient supplies of safety goggles on site. (To be used if risk of chemical splash, dust, projectiles)	Site Lead / Cleaning supervisor	Yes
43	There are sufficient supplies of hand sanitiser available.	Site Lead / Cleaning supervisor	Yes
44	There are sufficient cleaning products available for cleaning all the required areas within school cleaning materials, cloths, mops, disinfectant spray bin bags etc. available.	Site Lead / Cleaning supervisor	Yes
45	Where possible, separate bins for PPE disposal have been established. (To be double bagged)	Site Lead	Yes
46	There are lidded bins throughout the site	Site Lead	Yes. Will be in place once delivered

KITCHEN / CATERING

Confirmed by Unity Academy Catering Manager.

No.	Actions	RESPONSIBLE	Yes/No
-----	---------	-------------	--------

FCAT

47	Equipment in good working order and fully tested	Responsible person	Yes
48	Cleaning schedules up to date	Responsible person	Yes
49	Vending machines are out of use and clearly marked as such	Responsible person	N/A

CLEANING SCHEDULE

The following areas within your academy that will require regular and enhanced frequency of cleaning:

Windows, window-sills, light fittings and covers, light switches, doors, door handles, toilets, wash hand basins, floors cupboards, shelving, radiator and radiator covers, refrigerator, food storage facilities, sinks, tables, including underside and legs, work and play surfaces, chairs, plates, cups, cutlery, toys, PE equipment, photocopiers, entry system points, kitchens and equipment, countertops, computers mouse /keyboard, light switches, grab rails, bannisters, telephones, shared learning resources such as toys, equipment for SEND pupils, and other areas touched regularly.

AREA	Operational Task (with above areas where applicable)	Priority	Pre P1	P 1	P 2	Break	P 3	P 4	Lunch	P 5	Pos t P5
Main reception	Wipe signing in system.		x			x			x		x
Office Main office next to reception	Wipe IT equipment and telephone handsets where possible. Empty bins and clear rubbish. Wipe down printers and office machinery. Wipe desks.		x	'Live' episodic cleaning through day by cleaning staff and office users							x
Classrooms not currently in use	Warm soapy water first / Disinfectant product. Wipe all pupil desks and chairs. Empty bins and clear rubbish. Wipe teacher boards and surfaces.		Deep clean over half term. Mark was cleaned and out of use. Lock rooms.								
Year R, 1 and 2 Classrooms	Warm soapy water first / Disinfectant product. Wipe all pupil desks and chairs. Empty bins and clear rubbish. Wipe teacher boards and surfaces.		x	At least 3 times daily. 'Live' cleaning by colleagues in room. Regular clearing of lidded bins. Cleaning Supervisor to disinfect any necessary equipment remotely each afternoon.							x
Key Worker Classrooms (SEND/Isolation area)	Warm soapy water first / Disinfectant product. Wipe all pupil desks and chairs. Empty bins and clear rubbish. Wipe teacher boards and surfaces.		x	At least 3 times daily. 'Live' cleaning by colleagues in room. Regular clearing of lidded bins.							x

FCAT

Year 3 and 4 Classroom	Warm soapy water first / Disinfectant product. Wipe all pupil desks and chairs. Empty bins and clear rubbish. Wipe teacher boards and surfaces.		x	At least 3 times daily. 'Live' cleaning by colleagues in room. Regular clearing of lidded bins.							x	
Year 5 and 6 Classrooms	Warm soapy water first / Disinfectant product. Wipe all pupil desks and chairs. Empty bins and clear rubbish. Wipe teacher boards and surfaces.		x	At least 3 times daily. 'Live' cleaning by colleagues in room. Regular clearing of lidded bins.							x	
Year 10 Classrooms	Warm soapy water first / Disinfectant product. Wipe all pupil desks and chairs. Empty bins and clear rubbish. Wipe teacher boards and surfaces.		x	'Live' cleaning by colleagues in room. Regular clearing of lidded bins.							x	
Waste Disposal	Avoid cross-contamination when addressing body fluids spillage. Double-bag any cleaning waste and used PPE and store securely for 72 hours before disposal. Where possible, establish separate bins for PPE disposal		x	Ongoing through each day.							x	
Stairs	Wipe down all banister rails. Mop/h Hoover all floors. Wipe staircase bannister and glass.		x	3 times each day.							x	
All Toilets, including disabled and staff room toilets.	Clean toilets and door handles. Wipe down sink units, basins and taps. Mop up any spillages. Wipe down toilet flushers. Wipe down soap dispensers, hand sanitiser units. Wipe down mirrors.		x	x	x		x	x	x	x	x	x
PE Equipment Toys	Wipe play equipment down after use. Wipe any PE equipment used. Disinfect overnight, as appropriate.		x	Also cleaned after use								

FCAT

<p>Corridors</p> <p>Back corridor leading to English black</p>	<p>Wipe down fob access readers.</p> <p>Wipe all door handles, glass panels, door plates and light switches.</p> <p>Wipe down push plates.</p> <p>Clean glass windows.</p>		x	<p>Ongoing through each day.</p>	x
<p>Kitchenette in main office</p> <p>Staff kitchen in staffroom</p>	<p>Wipe down surfaces.</p> <p>Wipe all door handles, glass panels, door plates and light switches.</p> <p>Wipe down push plates.</p> <p>Clean glass windows</p>		x	<p>'Live' episodic cleaning through day by cleaning staff and office users.</p>	x
