Coronavirus (COVID-19)

Implementing protective measures within FCAT

COVID-19 Risk Assessment

| Academy | Unity Academy |
|----------------------|---|
| Activity / Procedure | Phased wider opening of schools - managing the risk and rate of transmission of coronavirus (COVID-19) |
| Assessment date | 5th June |
| Review date | To be reviewed and updated frequently before and after the wider opening of school and in light of any updates to existing government guidance or any new guidance. |

| Identified groups at risk | |
|---------------------------|-----|
| Employees | YES |
| Children | YES |
| Visitors | YES |
| Contractors | YES |

Red text is control measures from Government Guidance Documents

Coronavirus (COVID-19); implementing protective measures in education and childcare settings (last updated on 1st June 2020)

Actions for educational and childcare settings to prepare for wider opening from 1 June 2020 (last updated on 1st June 2020)

Planning guide for primary schools (last updated on 25th May 2020)

Guidance for secondary school provision from 15th June 2020 (last updated 25th May 2020)

This risk assessment does not supersede any legal obligations relating to health and safety, employment or equalities.

This risk assessment is completed based on the guidance and information available on the 5th June 2020 and will be updated to reflect any changes in published guidance.

Updated 05/06/2020

The word pod and bubble may be used interchangeably throughout this document.

Lack of Social Distancing in the learning environment (classroom/ workshop/ hall/ outdoors) which could increase Issue that could cause harm: the risk and rate of transmission of coronavirus (COVID-19) **Existing level of risk:** HIGH MEDIUM LOW **NEGLIGIBLE** List your control measures required to reduce risk – add How to manage it (control measures) appropriate detail about the type and location of controls 1. Available Capacity / Agreed number following Government guidelines: An agreed total number of 250 pupils / students can attend the academy at any given time to enable compliance with social distancing rules. Reducing the number of children in the learning environment to enable social distancing: In year 10, we envisage groups of 2 no more than 12 in order to maintain social distancing. In Reception and Year 1 all classrooms have been reviewed with a maximum of 15 pupils in each classroom. In year 6 all classrooms have been reviewed with a maximum of 15pupils in each classroom. 1 or 2 members of staff only are recommended to be with each small group of children. For pre-school children in early 3. years settings, the staff to child ratios within Early Years Foundation Stage (EYFS) continue to apply and these are recommended to group children. Ensure that children are in the same small groups at all times each day, and different groups are not mixed during the day, or on subsequent days. Classes will be placed into 'bubbles' with a key person (either a teacher / teaching assistant) and will not mix with other 'bubbles' and classrooms. Ensure that the same staff are assigned to each group of children and, as far as possible, these stay the same during the day and on subsequent days, recognising for secondary settings there will be some subject specialist rotation of staff. Changing the assignment of staff to each group of children/young people will be a last resort but may be necessary for example due to staff absence or redeployment of secondary staff to primary who then may need to return to secondary. 6. Maximise the number of learning environments used including outdoor space as much as possible to more easily allow for distance between children and staff. 7. Access rooms directly from outside where possible to reduce mixing of groups. All reception, year 1 classrooms, year 6 classrooms (with the exception of 1) can be directly accessed from outside. 8. Ensure that wherever possible children use the same classroom or area of a setting throughout the day to minimise movement around school. 9. Remove excess furniture to increase space if able to do so. (Appendix A Premises / cleaning protocol). 10. Desks should be spaced as far apart as possible. (Appendix A Premises / cleaning protocol). In primary, unlike older children and adults, early years and primary age children cannot be expected to remain 2 metres 11. apart from each other and staff. Children will be spaced as far apart as possible, aim for 2 metres but accept this may not always be possible. 12. In secondary schools re-arrange classrooms/workshops with sitting positions 2 metres apart. 13. Children keep to their desks when in the learning environment. Where possible seat children at the same desk each day if they attend on consecutive days. 14. 15. Personal property of children will be kept to a minimum e.g. bags, coats, lunchboxes. Children will be advised not to bring bags and coats if possible. If these are brought into school they should be stored in the individual storage area provided for each child. 16 Staff members will be briefed on keeping a minimum 2 metre distance from each other in the learning environment.(Appendix B Staff information guidance) A revised staff handbook has been issued to all staff members prior to reopening. Induction of Covid 19 are in operation for all staff prior to reopening and include; Infection Control and information on revised policies and procedures. Mark out a 2 metre area e.g. with tape for the member(s) to of staff to be able to maintain social distancing from children and 17. other staff. Signage will be displayed in all learning environments regarding social distancing to reinforce, encourage and promote this 18. for staff and children. The academy will introduce staggered arrival and departure times of children, parents and children will be expected to 19. maintain social distancing at all times - floor markings will indicate the distance required to be maintained. As far as possible each year group will use separate entrances in order to reduce the build up of parents and children. Parents will be required to line up to collect children and children will be brought to them in turn. Children in Year 10 will be marshalled in the front car park on arrival where they will position themselves on one of 60 markings (spaced two metres away) in bubbles allowing for a full group of 12 children to arrive and be escorted to a teaching room. All door handles used will be cleaned before the next group moves to a location. In Reception and Year 1, children's toilets will be used by no more than 30 children during the day - these will be cleaned 20. hourly and a cubical will be assigned for each pod of 15 children so that the same toilet is not used by 2 pods. This will also apply in Y6 with one toilet for each pod of 15 children. All toilets will be cleaned hourly. Year 10 will have supervised toilet breaks with one toilet cubicle per bubble, these will be cleaned hourly.

21. In Y6 children will not be able to move around the classroom and will remain at their own desk, the teacher will observe a two metre distance when supporting children. In Reception and Year 1 where this is more difficult, a more structured curriculum will be in place which allows for children to remain separated for longer periods of time. Staff will be urged to maintain social distancing where possible but will not work beyond the group of children they are allocated to. In Year 10 children will be based in one classroom and will not be able to move around the room, staff will observe a two metre distance whilst supporting.

22. For children and staff, procedures will be revisited and managed in line with academy behaviour policy.

23. There will be clear messaging to pupils on the importance and reasons for social distancing is reinforced throughout the school day by staff and through posters, electronic boards, and floor markings. For young children this will be through ageappropriate methods such as stories and games.

Assemblies and the coming together of other large groups, both staff and students will be suspended. 24.

25. Off site visits have been suspended.

26. Academy behaviour policy has been revised and a specific COVID appendix added to include compliance with social distancing and this has been communicated to staff, pupils and parents.

27. Senior leaders monitor areas where there are breaches of social distancing measures and arrangements are reviewed.

28. A specific email address will be established for colleagues to provide feedback about learning within the bubble thus avoiding the need for quality assurance walk throughs at this time.

| Full stock of soap and sanitiser to be maintained in the toilets at all times. Foilets will be cleaned according to the FCAT cleaning risk assessment schedule as a minimum throughout the day (at Unity Academy we intend to clean toilets hourly), as well as the start and end of each day. If any toilet needs cleaning urgently, staff should contact the cleaning team via main school reception. Parents will not be allowed on site to use toilets. All hand dryers have been isolated and lidded bins and paper towels are in place. | | | | | | | |

| Tell staff, children, young people, parents, carers or any visitors, such as suppliers, not to enter the education or childcare setting if they are displaying any symptoms of coronavirus. The use of Non-Contact Infrared Thermometer with LCD Display will be used. Staff will arrive through the canteen and will proceed to the main reception (all doors will be open) in order to activate their fob, sanitise hands and pick up any PPE. They will then proceed directly to work locations and will not congregate in groups of staff. Any staff briefing will be done virtually. Staff are required to maintain 2 metre social distancing wherever possible. Staff should not make stops to collect drinks etc on arrival and should where possible bring their own cutlery and utensils for personal use during the day. The academy has staggered arrival and departure times of children, parents and children will be expected to maintain social distancing at all times – floor markings will indicate the distance required to be maintained. As far as possible each year group will use separate entrances in order to reduce the build up of parents and children. Parents will be required to line up to collect children and children will be brought to them in turn. Children in Year 10 will be marshalled in the front car park on arrival where they will position themselves on one of 60 markings (spaced two metres away) in bubbles allowing for a full group of 12 children to arrive and be escorted to a teaching room. All door handles used will be cleaned before the next group move to a location. Installation of hand sanitiser stations at staff entrances/exits to building. | | | | | | | |
| Staff to sanitise hands on each and every entry and exit from the building. Prop doors open, where safe to do so (bearing in mind fire safety and safeguarding), to limit use of door handles and aid ventilation. No more than 2 people will be allowed in the outer reception area of the academy, markings on the floor will provide adequate social distancing for reception staff. A perspex screen will be in place at the main reception window and on the desk in the inner reception area. No visitors will be admitted to the inner reception area unless in an emergency. Staff will be required to contact the office through phone or email rather than in person and no more than 2 people should be in the inner reception area at any one time. Where children arrive at front reception, they will be marshalled through the area in a socially distanced, self contained bubble by supervising staff. As far as possible no visitors will be allowed on site or face to face meetings undertaken, where an emergency or safeguarding need means a face to face meeting is necessary to safeguard a child, this will take place in the main meeting room, chairs will be removed to that social distancing is observed and a Perspex screen will be in place to separate attendees. Full PPE (including visors) is also available. Make clear to parents and carers that they cannot gather at entrance gates or doors, or enter the site (unless they have a pre-arranged appointment, which should be conducted safely). Communication can be done via email or phone. | | | | | | | |
| 11. Visitors will be advised that they 12. If it is agreed that a visitor does negistration, arrival time and who they are will be accompanied at being used or may not be on the cleaning so 14. The visitors should be given a dis Receptionist will enter the time of leaving on 15. The academy has staggered arritimes – floor markings will indicate the distareduce the build up of parents and children in Year 10 will be marshalled in the front car bubbles allowing for a full group of 12 child group moves to a location. Divider markings will be in place down the middle of the corridor to keep groups apart as they move through the setting where

spaces are accessed by corridors. 3. Access rooms directly from outside where possible to reduce mixing of groups. 4. Circulation plans have been reviewed. One-way systems will be in operation where feasible. Circulation routes will be clearly marked with appropriate signage. 7. Any pinch-points/bottle necks are identified and managed accordingly. children and staff. 9. There will be staff supervision on corridors to actively encourage and insist on social distancing. 10. Staff will be encouraged to communicate via phone, radio or e-mail to limit unnecessary movement of staff on corridors. Markers will be used e.g. paint/tape on corridors at 2 metre intervals to encourage and maintain social distancing for children 11. and adults. 12. Prop doors open, where safe to do so (bearing in mind fire safety and safeguarding), to limit use of door handles and aid ventilation. Where possible, all spaces should be well ventilated using natural ventilation (opening windows) or ventilation units. The 13. movement of pupils around school will be minimised as much as possible. Pupils will remain in classrooms with exceptions of break/lunch times and toilet breaks. 14. Pupils will be briefed regularly regarding observing social distancing guidance whilst circulating 15. Children and young people will be asked to walk in a single file on the corridor and consider having a member of staff at the 16. front and back of the line to supervise and actively encourage and insist on social distancing. 17. Signage will be on corridors regarding social distancing to reinforce, encourage and promote this. 18. The lift will not be used except by the site team, children who can't use rooms upstairs will be accommodated in a bubble downstairs. 19. Where it is safe to do so, additional staff will be in place to supervise movement on corridors. **Remaining level of risk** Consider level of risk following use of control measures HIGH MEDIUM LOW NEGLIGIBLE

| There will be a member of First Aid trained staff on site and only trained staff carry out First Aid (for primary requires Paediatric First Aid). All primary first Aiders are paediatric trained. There is a full and complete first aid stock on site at all times. FCAT First Aid, Accident Administering medicines and EHP Policies are followed. | | | | | | | | |

4. Staff should wear full PPE (including visor) if a child or young person becomes unwell with symptoms of coronavirus while in their setting and needs direct personal care until they can return home. A fluid-resistant surgical face mask should be worn by the supervising adult if a distance of 2 metres cannot be maintained. If contact with the child or young person is necessary, then disposable gloves, a disposable apron and a fluid-resistant surgical face mask should be worn by the supervising adult. If a risk assessment determines that there is a risk of splashing to the eyes, for example from coughing, spitting, or vomiting, then eye protection should also be worn.

5. Staff should wear PPE for children, young people and students whose care routinely already involves the use of PPE due to their intimate care needs. They should continue to receive their care in the same way.

6. Full and complete stock of PPE will be on site at all times.

7. Student services will not be staffed, children can enter and seek assistance but will be forced to maintain social distance enabling staff to apply PPE.

8. Disinfectant trigger spray and PPE in each learning environment (gloves, masks, aprons for use if required).

| HIGH | Μ | EDIUM | LOW | NEGLIGIBLE | | | |
| How to manage it (control mea | asures) | | ol measures required to re tail about the type and loc | | | | |
| Children who are extremely clinically vulnerable should not attend school. Children who live with someone who is extremely clinically vulnerable are advised they only attend an education or childcare setting if stringent social distancing can be adhered to and they are able to understand and follow those instructions. Clinically vulnerable (but not clinically extremely vulnerable) people are those considered to be at a higher risk of severe illness from coronavirus (COVID-19). A small minority of children will fall into this category, and parents should follow medical advice if their child is in this category. FCAT still wishes to support staff in continuing to work from home, if able to do so, balancing this with increasing operational requirements. Staff who are extremely clinically vulnerable (those who have received a letter from Government or clinician advising them to shield) should work from home. Staff who are living with someone who is clinically extremely vulnerable should be supported to work from home. Staff who are clinically vulnerable should work from home where possible. Education and childcare settings should endeavour to support this, for example by asking staff to support remote education, carry out lesson planning or other roles which can be done from home. If clinically vulnerable individuals cannot work from home, they should be offered the safest available on-site roles, staying 2 metres away from others wherever possible, although the individual may choose to take on a role that does not allow for this distance vulnerability to COVID-19. The government has said this is because a disproportionately higher number of people have died from COVID-19 from black, Asian and minority ethnic (BAME) backgrounds. As such the trust will undertake individual risk assessments for any staff who are within the high risk category and/or BAME background as outlined in bullet point 6 above. | | | | | | | |

The | | | | |

6. PPE should be worn by staff caring for the child while they await collection if a distance of 2 metres cannot be maintained (such as for a very young child or a child with complex needs). A fluid-resistant surgical face mask should be worn by the supervising adult if a distance of 2 metres cannot be maintained. If contact with the child or young person is necessary, then disposable gloves, a disposable apron and a fluid-resistant surgical face mask should be worn by the supervising adult. If a risk assessment determines that there is a risk of splashing to the eyes, for example from coughing, spitting, or vomiting, then eye protection should also be worn.

Staff and parents/carers should be advised about testing for COVID-19 for keyworkers and children in school.
 Academy SLT should ensure any confirmed cases of COVID-19 following a positive test result should be notified to Jane McCumiskey (FCAT COO) to ensure that the FCAT procedure in the event of this can be followed.

9. All children with SEND (K Codes) in year groups who return will have a risk assessment carried out prior to their return to the academy.

10. When the child, young person or staff member tests negative, they can return to their setting and the fellow household members can end their self-isolation.

11. Where the child, young person or staff member tests positive, the rest of their class or group within their childcare or education setting should be sent home and advised to self-isolate for 14 days. The other household members of that wider class or group do not need to self-isolate unless the child, young person or staff member they live with in that group subsequently develops symptoms.

12. As part of the national test and trace programme, if other cases are detected within the cohort or in the wider setting, Public Health England's local health protection teams will conduct a rapid investigation and will advise schools and other settings on the most appropriate action to take. In some cases a larger number of other children, young people may be asked to self-isolate at home as a precautionary measure – perhaps the whole class, site or year group. Where settings are observing guidance on infection prevention and control, which will reduce risk of transmission, closure of the whole setting will not generally be necessary.
