

## DfE funded leadership and teacher development for schools in Lancashire and West Yorkshire with Ambition Institute.

### Coronavirus response – we're ready when you are

At Ambition Institute, we're more determined than ever to support teachers and school leaders with high-quality professional development.

We are still welcoming applications and expressions of interest for our programmes and are working hard to adapt programmes due to start this summer, to help teachers and school leaders address the new and different challenges they're facing, and to make development as accessible as possible.

### Help your middle leaders to keep getting better

We've designed our [Expert Middle Leaders](#) programme using the latest research, evidence and cognitive science. It's two years of targeted development starting summer 2020 and it's **fully-funded** by the DfE.

With only 500 places available, places are now filling up fast. Please contact Talia at [talia.akhtar@ambition.org.uk](mailto:talia.akhtar@ambition.org.uk) for further information including eligibility criteria and how to nominate your middle leaders. **Deadline for applicants is 2 July.**

---

### The final call for Future Leaders

For senior school leaders with the potential to become a headteacher within three years, this developmental two-year programme is focused on helping senior leaders who want to increase their expertise and prepare for leadership success.

[Future Leaders \(with NPOH\)](#) is **heavily subsidised by the DfE** with limited places now remaining for our final cohort that will begin online in July.

Please contact Nadine at [Nadine.Nelson@ambition.org.uk](mailto:Nadine.Nelson@ambition.org.uk) for further information including eligibility criteria and how to nominate your middle leaders. **Deadline for applicants is 9 June.**

### Develop your NQTs with our fully-funded Early Career Teachers programme

We believe the Early Career Framework (ECF) is the most significant reform in a generation. It has the potential to transform the working lives of NQTs in your school as well as across your region.

Available to schools in Greater Manchester and Bradford, our evidence-based, two-year [Early Career Teachers programme](#) provides high-quality training linked directly to the Early Career Framework.

Please contact Stephen at [Stephen.Hanson@ambition.org.uk](mailto:Stephen.Hanson@ambition.org.uk) for further information or to book in a conversation with a member of the team.

### Big problems need brave solutions: join our Summer Series webinars

We've just launched our Summer Series – a programme of practical training webinars and virtual roundtables to address the current challenges schools are facing and the widening disadvantage gap that we will have to close, together.
