You could use Myon. <input type="checkbox"/>

Celebration Work- Due Monday 13th December

This half term in Science we are learning all about ‘Forces’. **To celebrate your learning**, we would like you to work on a project throughout the half term. This is to showcase all of the skills and knowledge you have learnt. You can choose to complete any of the listed activities below or be as creative as you like and research something **you** are interested in! Please bring this **completed masterpiece** into school on **Monday 13th December** to share with your teachers and friends in class.

Some ideas:

- Research a force and present your findings- could be a poster or a PPT
- Create a model to showcase a force in action
- Take photos of you investigating a force and share your photos!
- Create a booklet explaining the different forces we have learnt about
