

## Year 3 Autumn 1 Homework Project

We would like to invite you to create a project about one of our topics from this half term and bring it into school on **Monday 20<sup>th</sup> October** to show your classmates!

You could create a PowerPoint presentation, an interactive poster, a 3D model or even a comic strip! It is completely your choice how you decide to present your learning. Please note, if you decide to create a PowerPoint presentation, this will need to be emailed in advance to the Y3 homework project email address (this will be shared in the near future). Alternatively, you could save it to a USB stick and bring this into school.

This half term, our topic is called 'Understanding Us'. Some of the things we are learning about are:

- Animals including humans in Science
- The United Kingdom in Geography
- Andy Goldsworthy in Art
- Playing and performing percussion in Music.

Some ideas:

- Create a poster about your favourite animal we have learnt about in school.
- Design and create your own local landmark.
- Find out about the human and physical features of your local area.
- Create your own art work using natural materials from your garden or an outside space.
- Compose or perform using a percussion instrument.
