Barriers to educational achievement:

All pupils are individuals and the barriers they face are not a generic set of barriers, but generally personal to the individual pupil. All Pupil Premium children are monitored individually, in the same way as all other children in the school, however, these children are identified to ensure that grant money is spent appropriately to support any specific needs e.g. reading, writing and maths interventions in all year groups, personal and social development, access to ICT, sporting opportunities and one to one support. For a very small number of children, issues such as attendance and behaviour can act as a barrier to learning, in which case, for eligible children, funding may be used to support the child and family in overcoming such barriers.

In terms of specific barriers to learning, the Executive Head, the Head of School and one of the Assistant Head Teachers (Assessment coordinator) liaises with support staff, SENCO and class teachers and sets up intervention programmes following regular assessments and pupil progress meetings. Depending on specific needs and barriers, different intervention groups are set up, for example, year 6- EGPS, year 6 boys- writing, year 4- maths, year 6- Greater Depth- reading. Intervention groups are time-limited (usually 6 weeks) to ensure that they are having impact. After review, if the particular intervention is not working a different strategy will be used.

High impact activities are selected to accelerate progress and to target specific knowledge, skills and understanding. We are aware of the evidence from the Education Endowment fund on the effective use of Support Staff in delivering interventions, 2015, and ensure that our Additional Teachers and Teaching Assistants are well briefed to enable them to deliver high quality one-to-one and small group support using structured interventions, closely monitored by SLT.

Within our school, there is some correlation between children in receipt of additional funding and those with Special Educational Needs. We are aware that we can include 'other' children in activities designed to 'close the gap' and in creating intervention groups, we may well choose to select a group of disadvantaged and 'other' children to improve the learning environment for the group.

Support from PP funding is not used solely for those performing below age-related expectations. The DfE has clarified that the purpose of the grant is no only to 'close the gap'

between eligible pupils and their peers but also to raise the attainment of disadvantaged pupils. Intervention groups and additional staff are therefore used to stretch and challenge able pupils who qualify for this additional funding.

Pupil premium funding is used to support pupils in attending clubs in school for which a charge is usually made to parents. This use of funding helps ensure inclusion of all children, with the cost not being a barrier.
