In His Light We Flourish

Enrichment and Spirituality Curriculum Overview

Year 2

You are the Light of the world. A school that stands upon a hill cannot be hidden. (Matthew 5:14 adapted)

Love Laugh Learn in God's World

Term One			
Spirituality	**British Values**	**Christian Value: Respect**	**Christian Value: Thankfulness**
Through studying **Art Painting** and exploring further through the forest, pupils develop spiritually through awe and wonder at the beauty, colours, textures and patterns found in the natural world, reflecting on how nature makes them feel and appreciating the creativity and diversity of the world around them. Through studying **Science Animals' Needs for Survival**, pupils develop spiritually through awe and wonder at the variety and complexity of living things, reflecting on the value of life, the importance of caring for animals and their habitats, and our responsibility to protect the natural world.	Through their study of **Geography Continents, Countries and Cities**, pupils will develop an understanding of the different communities and cultures that make up our world, recognising that people live in diverse ways and have different traditions, languages and customs. This encourages them to value difference, broaden their perspectives and understand their place within a wider global community. Through studying **PSHE Me and My Relationships**, pupils will explore how their words and actions affect others, learning to listen to different viewpoints, manage disagreements, show kindness and take responsibility for their choices. They will develop an understanding of fairness, equality and the importance of positive relationships within their school and wider community.	Through studying **PSHE Me and My Relationships**, pupils will explore the importance of treating others with kindness, fairness and consideration, learning to value different feelings, opinions and experiences. Through studying **Science Animals' Needs for Survival**, pupils will develop respect for living things by understanding their needs, considering how animals depend on their environments and reflecting on our responsibility to care for the natural world.	Through studying **Art Painting and exploring further through the forest**, pupils will develop thankfulness by noticing and appreciating the beauty of the natural world around them. They will explore colours, shapes, patterns and textures found in the forest and use these observations to inspire their own paintings, reflecting on the things in nature they are grateful for. Through studying **Science Animals' Needs for Survival**, pupils will develop thankfulness by learning that animals, including humans, need **air, water, food and shelter** to survive. They will appreciate the variety of animals around them and recognise how important the natural world is, considering simple ways they can care for animals and their habitats.
