Autumn 1

Ecofriendly

Eco Warriors in school

Last school year, Mrs Oxley and the Eco Team made some changes in school which will have a lasting impact. These included introducing compost bins in classrooms to reduce waste, and stopping the use of laminator pouches in school to allow for more recycling.

Last half term, our Eco team met and discussed some things they would like to implement and change in school this year - these are detailed below.

Our Eco Team

Change disposable spoons at lunchtime for reusable ones

Do more walking to school - more than 2 days

Get a suggestion box gong - allow the whole school to offer their eco ideas!

We look forward to updating you throughout the year!
