

Preesall Fleetwood's Charity School

Newsletter Friday 8th July

'The Lord your God is with you, the Mighty Warrior who saves. He will take great delight in you; in his love he will no longer rebuke you, but will rejoice over you with singing.'

Zephaniah 3:17

Highlights of the week

- We are celebrating our Year 6 SATS scores - their hard work has paid off and they have made us very proud (see further details below).
- Year 5 had a fantastic day at St. Aidan's on Wednesday and particularly enjoyed art and astronomy.
- We appointed our new Head Boy and Girl Team this week – the competition was strong and they were faced with a full interview panel! Congratulations to our new Head Boy and Girl – Luke and Holly and their Deputies John and Grace. I am sure they will make a great team!

Year 6 SATS results:

As a school, we pride ourselves on being so much more than SATS results but at the same time, we want our pupils to achieve their full potential and be ready for the next step of their learning journey at high school.

This year, we are delighted with the progress our year 6 pupils have made and this is reflected in a really fabulous set of results.

Reading **87%** at or above the expected level **17.4%** at the higher standard

Spelling & Grammar **78%** at or above the expected level **17.4%** at the higher standard

Maths **65.2%** at or above the expected level **13%** at the higher standard

Writing (teacher assessment) **73.9%** at or above the expected standard **13%** at the higher standard

Science (teacher assessment) **82.6%** at the expected standard

We knew this year that our maths scores would be lower than English because due to the pandemic, the pupils have had more than two years' worth of work to catch up on in some topics.

I have attached a document that gives the national headline figures for comparison. Our scores are above the national average in all areas apart from maths which shows the dedication and hard work that Miss Riding and the Year 6 team have put in this year.

Well done Year 6 and the Year 6 staff team!

New play equipment

On Monday, Pentagon will be installing our new play equipment which will replace part of the wooden climbing equipment on the grass. We are sure the pupils will be excited when they see it and we still have almost two weeks for them to try it out!

Happy Place

On Thursday lunchtime next week, our final group of year 5 pupils will be going to help at the 'Happy Place' at St. Oswald's Parochial Hall. Mrs Pollard and Mrs Lewis will be going along with them to make crafts and play games with members of the local community. This has been great project for our school to be involved with and we hope to continue next year.

Gala

Who will be watching the Gala procession on Saturday? Look out for our Cheerleaders who will be walking the route and then performing on the field at around 3:45pm. Our football team will also be competing against Carter's Charity School in the Plate Final from 4:30pm. Come along and give our pupils some support!

End of year Family Disco/Year 6 Prom Night – Friday 15th July 6:30 -8:30pm

We hope you will be joining us for this **FREE** event at St. Oswald's Parochial Hall so we can celebrate a successful school year and give our Year 6 pupils a huge send-off!

There will be a DJ, stalls, refreshments and much more. You are welcome to bring your own drinks to help celebrate and we would love you to dress up and join Year 6 in their 'Red Carpet' theme!

You should all have received a personal invite. Please complete and return the attached slip by Tuesday so we can get an idea of numbers.

Please note- pupils must be accompanied by an adult.

This evening is always a highlight of the school year and it is definitely the more the merrier!

Rock Steady Concert

On Friday 15th July, our Rock Steady groups will be putting on a concert for their parents and the rest of the school. If your child has lessons with Rock Steady, you are welcome to come along at 9:30am to watch their performance in the school hall.

Lancaster Dance Showcase

Don't forget to order your video and free photo – details on the Dance Class Dojo page.

Parent Pay Balances

Please ensure that all outstanding amounts are cleared by next Friday—15th July.

Knott End Library

We had a visitor from Knott End Library earlier this week. They have lots of activities over the summer holidays—details attached to this newsletter.

Matilda The Musical

St Oswald's Dramatists are performing Matilda the Musical JR following their week long Summer School in August. Details are attached to this newsletter.

Lunches

Please use the following link for lunch arrangements— <https://forms.office.com/r/exTQMJtNLL>

Summer Term Events

Saturday 9th July—Preesall and Knott End Gala—cheerleaders will walk in the procession

Thursday 14th July—Year 6 end of year trip

Friday 15th July - Rock Steady concert for pupils and parents

Friday 15th July—Whole School Family End of Year Party—St Oswald's Parish Hall

Tuesday 19th July—End of year reports to be sent home

Thursday 21st July—Leavers Service / Awards Ceremony at St Oswald's Church, 9am

Thursday 21st July—School closes 1:30pm

Monday 5th September—School reopens for Autumn Term

Saint Oswald's Dramatists

26th & 27th August 2022
Start 7:30

Saint Oswald's Parish Hall,
Lancaster Road

Tickets Available From:
Knott-End Post Office - 01253 810261
Karen Taylor - 01253 921793
Or Any Cast Member

Tickets £8

Orchestrations and Additional Music by
Chris Nightingale

This amateur production is presented by arrangement with Music Theatre International (Europe)
All authorised performance materials are also supplied by MTI Europe www.mtishows.co.uk

Knott End Library

hosts many regular and one-off events for families.

Summer Activities

- **SCART Club Planet Savers Reading Challenge.**

3 Tasks to complete and 5 Books to read. Free to join with prizes along the way and a certificate once completed. Ages 5-11

- **Eco Activity workshops on:**

Tuesday 26th July 11am-12 noon

Tuesday 9th August 1am1-12 noon

Tuesday 23rd August 11am-12 noon

These free workshops support the Planet Savers Challenge and can count towards your tasks.

- **Wyre Council Fun Arts Summer Sessions for families.**

Every Monday 1.00pm-2.30pm

Family friendly, bring your children along and have a go - it's fun, it's free and there's no need to book!

- **Baby Bounce & Rhyme**

30 minutes of music and play.

Every Friday 10.30am-11.00am. Siblings welcome!

- **Lego Club**

Every Saturday 11am-12 noon

A free, relaxed session where children can become creative and build a masterpiece.

Knott End Library **Wildlife Shelter Workshop**

Free SCART event suitable for ages 5 to 11

**Tuesday 26 July
11.00am until 12.00pm**

Lancashire
County
Council

5 July 2022

This publication provides the latest headline statistics on attainment in key stage 2 national curriculum assessments in England.

This is the first publication of key stage 2 attainment statistics since 2019 due to cancellation of 2020 and 2021 assessments during the pandemic.

These statistics cover attainment in the following assessments taken by pupils at the end of year 6, when most are age 11:

- Reading test
- Maths test
- Grammar, punctuation and spelling test
- Writing teacher assessment
- Science teacher assessment

Attainment in 2022 is compared to 2019 and previous years where possible.

Headline facts and figures

These are the first key stage 2 attainment statistics since 2019, after assessments were cancelled in 2020 and 2021 due to the pandemic

These statistics cover the attainment of year 6 pupils who took assessments in summer 2022. These pupils experienced disruption to their learning during the pandemic, particularly at the end of year 4 and in year 5.

Attainment in all of reading, writing and maths has decreased compared to 2019

59% of pupils met the expected standard in all of reading, writing and maths, down from 65% in 2019.

In individual subjects, attainment increased slightly in reading and fell in all other subjects compared to 2019

74% of pupils met the expected standard in reading, up from 73% in 2019.

71% of pupils met the expected standard in maths, down from 79% in 2019.

69% of pupils met the expected standard in writing, down from 78% in 2019.

72% of pupils met the expected standard in grammar, punctuation and spelling, down from 78% in 2019.

79% of pupils met the expected standard in science, down from 83% in 2019.

Attainment in reading, writing and maths

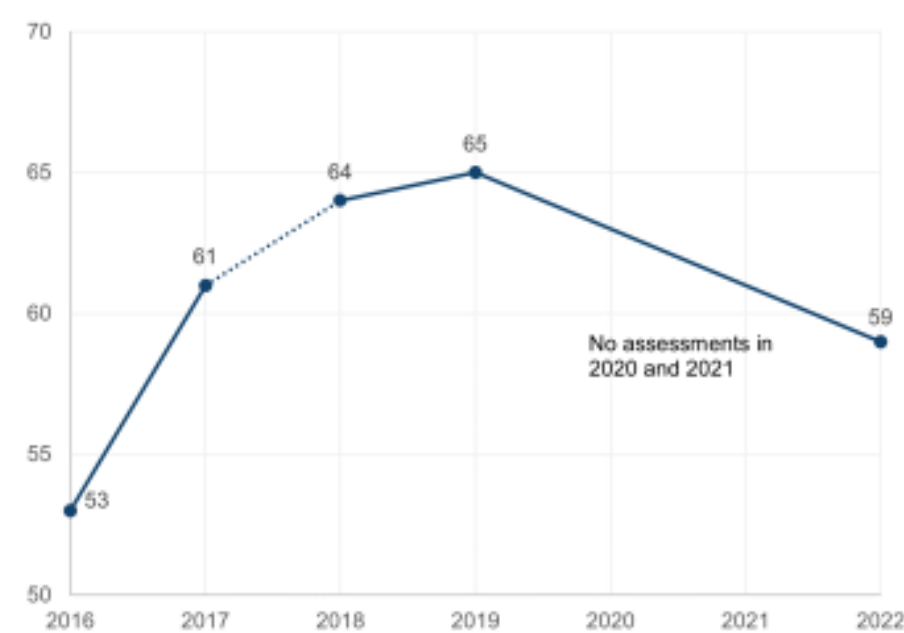

The Department for Education considers meeting the expected standard in reading, writing and maths to be key for success in secondary school and beyond. Therefore, we report on the proportion of pupils who meet the expected standard in all three of these subjects.

In 2022, 59% of pupils reached the expected standard in all of reading, writing and maths, down from 65% in 2019. Attainment in all of reading, writing and maths is not directly comparable to some earlier years (2016 and 2017) because of changes to writing teacher assessment frameworks in 2018.

This decrease in attainment in reading, writing and maths is due to decreases in attainment in writing and maths (see 'Attainment in individual subjects' section).

Earlier this year, the Department announced a [Levelling Up mission](#) for 90% of pupils to meet the expected standard in reading, writing and maths at the end of key stage 2 by 2030.

Percentage of pupils meeting the expected standard in reading, writing and maths at the end of key stage 2

Footnotes

1. Includes all schools with pupils eligible for assessment at key stage 2. Participation by independent schools is voluntary, therefore figures include results from independent schools that chose to submit data and met the requirements for assessment and moderation.
2. Includes pupils who reached the expected standard in all of reading, writing and maths. The expected standard in reading and maths is a scaled score of 100 or above. The expected standard in writing is a teacher assessment of 'working at the expected standard' or 'working at greater depth'.
3. Data is not available for 2020 and 2021 as assessments were cancelled in these years due to the COVID-19 pandemic.
4. Attainment in all of reading, writing and maths is not directly comparable to 2016 and 2017 because of changes to writing teacher assessment frameworks in 2018

Attainment in individual subjects

In **reading**, 74% of pupils reached the expected standard in 2022, up from 73% in 2019.

In **writing** teacher assessment, 69% of pupils reached the expected standard in 2022, down from 78% in 2019. Attainment in writing is not directly comparable to some earlier years (2016 and 2017) because of changes to writing teacher assessment frameworks in 2018.

In **maths**, 71% of pupils reached the expected standard, down from 79% in 2019.

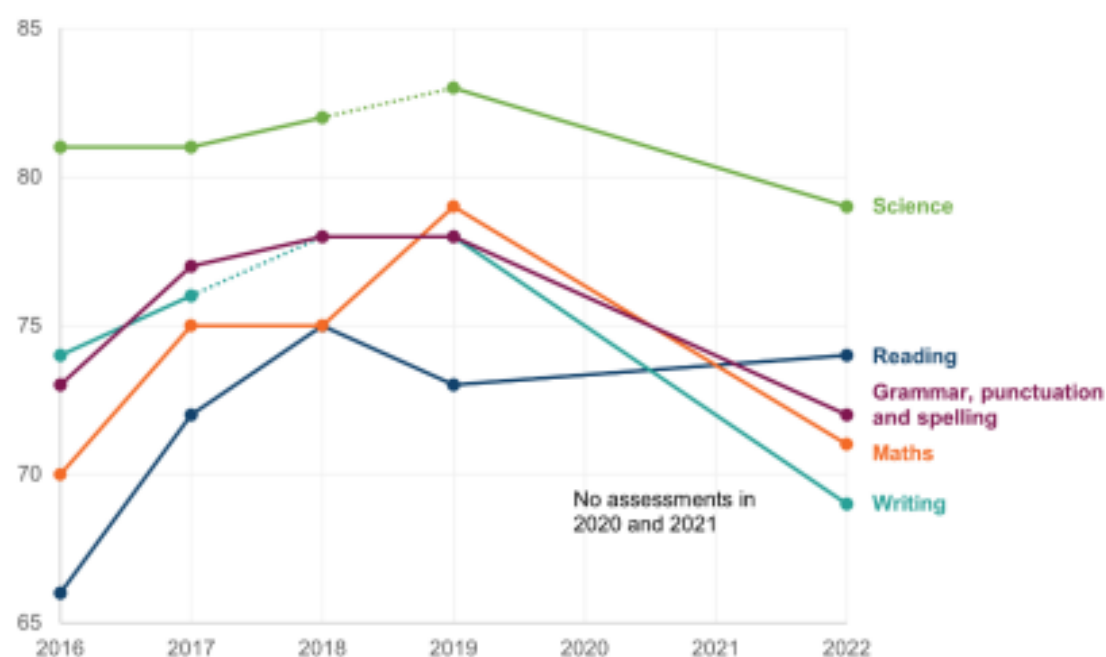

Among reading, writing and maths, attainment is now highest in reading. This is a reversal from previous years (2016 - 2019) when attainment was lowest in this subject. Of these three subjects, attainment is now lowest in writing.

In **grammar, punctuation and spelling**, 72% of pupils reached the expected standard, down from 78% in 2019. This is the lowest figure since new assessments were introduced in 2016, when 73% of pupils met the expected standard in grammar, punctuation and spelling.

In **science** teacher assessment, 79% of pupils reached the expected standard in 2022, down from 83% in 2019. Attainment in science is not directly comparable to some earlier years (2016, 2017 and 2018) because of changes to science teacher assessment frameworks in 2019.

Among all subjects, the largest fall in attainment compared to 2019 was in writing (9 percentage points), followed by maths (7 percentage points), grammar, punctuation and spelling (6 percentage points) and science (4 percentage points).

Percentage of pupils meeting the expected standard at the end of key stage 2

Footnotes

1. Includes all schools with pupils eligible for assessment at key stage 2. Participation by independent schools is voluntary, therefore figures include results from independent schools that chose to submit data and met the requirements for assessment and moderation.
2. The expected standard in the reading, maths and grammar, punctuation and spelling tests is a scaled score of 100 or above. The expected standard in writing is a teacher assessment of 'working at the expected standard' or 'working at greater depth'. The expected standard in science is a teacher assessment of 'working at the expected standard'.
3. Data is not available for 2020 and 2021 as assessments were cancelled in these years due to the COVID-19 pandemic.

4. Attainment in writing is not directly comparable to 2016 and 2017 because of changes to writing teacher assessment frameworks in 2018
5. Attainment in science is not directly comparable to 2016, 2017 and 2018 because of changes to science teacher assessment frameworks in 2019

Average scaled scores in reading, maths and GPS tests

We use [scaled scores](#) to report the results of tests so we can make accurate comparisons of performance over time.

In **reading**, the average scaled score is 105, up from 104 in 2019.

In **maths**, the average scaled score is 104, down from 105 in 2019.

In **grammar, punctuation and spelling**, the average scaled score is 105, down from 106 in 2019.

The average scaled score is the mean scaled score of all pupils awarded a scaled score. It gives us a measure of the typical performance of a pupil taking the tests. It is affected by the performance of pupils at all points in the range of scores. By contrast, the percentage of pupils achieving the expected standard

Average scaled scores

	2015/16	2016/17	2017/18	2018/19	2019/20	2020/21	2021/22
Reading test	103	104	105	104	x	x	105
Maths test	103	104	104	105	x	x	104
Grammar, punctuation and spelling test	104	106	106	106	x	x	105

Footnotes

1. Includes all schools with pupils eligible for assessment at key stage 2. Participation by independent schools is voluntary, therefore figures include results from independent schools that chose to submit data and met the requirements for assessment and moderation.
2. Scaled scores range from 80 to 120. The average scaled score only includes pupils who took the test and achieved a scaled score.
3. Data is not available for 2020 and 2021 as assessments were cancelled in these years due to the COVID-19 pandemic.

About these statistics

This publication provides headline statistics for attainment in key stage 2 national curriculum assessments for pupils in schools in England. It provides key figures at national level to help schools and parents put results in context.

1. The expected standard

Key stage 2 assessments tell us if pupils have met the expected standard in five subjects by the end of primary school:

- reading
- maths
- writing
- grammar, punctuation and spelling

- science

Tests are used to assess pupils in reading, maths and grammar, punctuation and spelling. Teacher assessment is used to assess pupils in writing and science.

In the tests, pupils meet the expected standard if they achieve a scaled score of 100 or more. The [test frameworks](#) provide performance descriptors for the typical characteristics of pupils working at the expected standard.

The [teacher assessment frameworks](#) include 'pupil can' statements. For example, 'the pupil can maintain legibility in joined handwriting when writing at speed'. To meet the expected standard, the teacher must judge there to be evidence that the pupil can meet all of the relevant statements.

DfE [raised the expected standard in 2016](#), following the introduction of a new, more challenging national curriculum in 2014.

DfE considers meeting the expected standard in reading, writing and maths to be key for success in secondary school and beyond. Therefore, we report on the proportion of pupils who meet the expected standard in these three subjects.

Pupils not meeting the expected standard

It is incorrect to say that pupils who have not met the expected standard in reading cannot read, or that those who have not met the expected standard in writing cannot write, and so on.

There is a spectrum of attainment among pupils who do not meet the expected standard, with some coming close and others further away.

A pupil who achieves below the expected standard will still be able to read. For example, they may be able to retrieve simple information from a text but be unable to make developed inferences about what they have read.

We also classify pupils as not meeting the expected standard when it has not been possible to assess their ability, for example, because of absence. This is the case for less than 1% of pupils.

2. Technical information

National curriculum assessment figures published here are based on test and teacher assessment data provided to the Department by the Standards and Testing Agency on 2 July 2022.

This data contained all available marked key stage 2 tests and teacher assessments:

- Reading test: 99.8%
- Maths test: 99.5%
- Grammar, punctuation and spelling test: 99.5%
- Writing teacher assessment: 96.8%
- Science teacher assessment: 96.8%

These volumes are lower than in 2019, however we have assessed them to be sufficient to produce national-level headline figures.

See the methodology for further detail.

Further information will be available

Further provisional statistics will be published on 6 September 2022 in the 'National curriculum assessments: key stage 2 (provisional)' publication.

Revised figures will be published in the 'National curriculum assessments at key stage 2 (revised)' publication in December 2022.

1. National level figures broken down by pupil and school characteristics

National level data with pupil characteristics breakdowns, including data broken down by gender, ethnicity, month of birth, free school meal eligibility, special educational needs provision, disadvantage and the disadvantage gap index, will be published in the provisional publication on 6 September.

School characteristics breakdowns, including school type, phase, cohort size and religious character, will also be published on 6 September.

2. Regional, local authority and local authority district level figures

Regional, local authority and local authority district level data - including data broken down by gender - will be published in the provisional publication on 6 September.

Regional, local authority and local authority district level data with pupil characteristics breakdowns will be published in the revised publication in December.

3. Progress measures

Progress measures for different pupil groups and for local authorities will be published in the revised publication in December.

4. School level figures

We will not publish key stage 2 data for academic year 2021/22 in performance tables (also known as Compare School and College Performance). The Department will, however, still produce the normal suite of key stage 2 accountability measures at school and multi-academy trust level and share these securely with primary schools, academy trusts and local authorities to inform school improvement discussions.
