Newsletter

Attendance

The whole school attendance for this week is 95.1%, with Elm class having 100% attendance this week and just 2 late marks.

Please ensure all absence is reported to the answerphone before 9am on each day of absence - 01253 810324 option 1

Highlights

- There have been some amazing activities through school this week linked to Chinese New Year – have a look at our Facebook page to see pictures of what the pupils have been doing.
- A huge number of pupils have now achieved their Bronze Class Dojo Award!
- We had our Rocksteady concert this morning and it was amazing! The progress the pupils have made is phenomenal! Well done to all who performed.

Bronze Award

250 DOJO POINTS

Well done to our Bronze Award winners this week – there were so many that they had to have their own photo! The Bronze Award is for achieving 250 dojo points, then Silver is 500 points, and Gold is 750 points. Dojos are awarded for a variety of reasons in school, including good behaviour, attendance, contribution in class, abiding by the school rules and being ready to learn.

Teachers' Strike

You may be aware that the first teachers' strike is to be held on Wednesday 1st February. This will not affect us; school will be open as normal.

Holiday Club

If you need holiday care in February half-term, please book places as soon as possible. The take-up so far is quite low. We need to be able to show there is a need for a holiday club Over Wyre for it to continue! If you know anyone who has children in other schools who may use it, please spread the word.

Tuesday 31/1/23 - Preschool, Ash and Oak Balance
Bike day (new date)

Wednesday 8/2/23 - KS2 Author visit

Thursday 9/2/23 - KS1 Sports Inclusion Festival @
Millfield

Friday 10/2/23 - School close for half term (3:30pm)

Monday 20/2/23 - School opens

Wednesday 22/2/23 - Tuesday 28/2/23 - Book Fair in
school

Thursday 23/2/23 - Parents' Evening in school

Friday 31/3/23 - School closes for Easter holiday

Uniform and Lost Property

Please name all items of uniform that come in to school, including forest kit and PE kit, lunchboxes etc. We have a partnership with My Nametags - code 62551. The school receive a percentage of all orders to support school funds. Writing initials on labels is sufficient, we just need to be able to reunite items with their owners.

Can we also remind parents that children with hair that can be tied up, that it should be tied up. This is for safety and also to avoid any unwanted 'visitors'. If you have any questions or wish to discuss anything uniform related, please speak with Mrs Gladwin or Mrs Adams.

Lunches

Please complete
the lunch form for
ALL pupils in
school

<https://forms.office.com/r/exTQMjTnLL>

Here are the fun packed activities planned for next week in the Woodland Den.

Please book on via ParentPay - sessions run until 4:30pm (half session) or 5:30pm (full session), and all children are provided with a drink and a snack. Booking closes 48 in advance online, but contact the office if you need a last minute place in the afterschool club.

Date	Activity	Snack
30/01/23	Fruit Kebabs	Fruit
31/01/23	Storytime	Mini pizzas
1/2/23	Colouring sheets	Crackers
2/2/23	Kids' Choice	Nibbles
3/2/22	Board games	Crisps

Meet at the park at 8:25am to
leave at 8:30am

12 Top Tips for BUILDING CYBER RESILIENCE AT HOME

As a society, we're increasingly using technology and tech services in the home. Digital assistants which can adjust the heating or turn lights on and off; streaming services for shows and movies on demand; games consoles; smart speakers; phones; laptops ... the list goes on. As we introduce each new gizmo to our homes, however, we increase the level of threat from cyber criminals. It's essential, therefore, that we learn to become more cyber resilient in relation to the devices and digital services that the people in our household use.

WHAT IS 'CYBER RESILIENCE'?

Cyber resilience focuses on three key areas: reducing the likelihood of a cyber attack gaining access to our accounts, devices or data; reducing the potential impact of a cyber incident; and making the recovery from a cyber attack easier, should we ever fall victim to one.

1. PASSWORDS: LONGER AND LESS PREDICTABLE

The longer, less common and predictable a password is, the more difficult it becomes for cyber criminals to crack. The National Cyber Security Centre's 'three random words' guidelines are ideal for creating a long password which is easy to remember but hard to guess.

2. AVOID RE-USING PASSWORDS

When you use the same password across different logins, your cyber resilience is only as strong as the security of the weakest site or service you've signed up for. If cyber criminals gain access your username and password for one site or service, they'll definitely try them on others.

3. USE A PASSWORD MANAGER

A good way to juggle different passwords for every site or service you use is to have a password manager. This software stores all your passwords for you, so you simply need to remember the master password. LastPass, Dashlane, 1Password and Keeper are all excellent password managers.

4. BACK UP YOUR DATA

Keep a copy of your data using OneDrive, Google Drive or another reputable cloud-based storage solution. If it's extremely important or sensitive information, you could even decide to keep more than one back-up version – by saving it to a removable USB drive or similar device, for example.

5. ENABLE MULTI-FACTOR AUTHENTICATION (MFA)

Multi-factor authentication is where you need access to your phone (to receive a code, for example) or another source to confirm your identity. This makes it far more difficult for cyber criminals to gain entry to your accounts and your data, even if they do manage to get your username and password.

6. CHOOSE RECOVERY QUESTIONS WISELY

Some services let you set 'recovery questions' – such as your birthplace or a pet's name – in case you forget your password. Take care not to use information you might have mentioned (or are likely to in future) on social media. More unpredictable answers make cyber criminals' task far harder.

7. SET UP SECONDARY ACCOUNTS

Some services provide the facility to add secondary accounts, phone numbers and so on to help with potentially recovering your account. Make sure you set these up: they will be vital if you're having trouble logging in or if you're trying to take back control of your account after a cyber attack.

12. STAY SCEPTICAL

Cyber criminals commonly use various methods, including emails, text messages and social media posts. Be cautious of any messages or posts that are out of the ordinary, offer something too good to be true or emphasise urgency – even if they appear to come from someone you know.

11. KEEP HOME DEVICES UPDATED

Download official software updates for your household's mobile phones, laptops, consoles and other internet-enabled devices regularly. Security improvements and fixes are a key feature of these updates – so by ensuring each device is running the latest version, you're making them more secure.

10. CHANGE DEFAULT IOT PASSWORDS

Devices from the 'Internet of Things' (IoT), such as 'smart' home appliances, are often supplied with default passwords. This makes them quicker to set up, but also less secure – criminals can identify these standard passwords more easily, so change them on your IoT devices as soon as possible.

9. CHECK FOR BREACHES

You can check if your personal information has been involved in any known data breaches by entering your email address at www.haveibeenpwned.com (yes, that spelling is correct!). It's useful if you're worried about a possible attack – or simply as motivation to review your account security.

8. KEEP HAVING FUN WITH TECH

Consider our tips in relation to the gadgets and online services your household uses. Protect yourself and your family, and don't let the bad guys win: devices are not only integral to modern life but also a lot of fun – so as long as you keep safety and security in mind, don't stop enjoying your tech.

Meet Our Expert

Gary Henderson is the Director of IT at a large boarding school in the UK, having previously taught in schools and colleges in Britain and the Middle East. With a particular interest in digital citizenship and cyber security, he believes it is essential that adults and children alike become more aware of the risks associated with technology, as well as the many benefits.
