4th March 2025

Dear Parents/Carers,

Science Family Learning

In a change to the school diary, we will be holding a 'family learning' morning for Year 1, 2, 3, 4, 5 and 6 parents with a focus on Science on **Thursday 27th March**.

Our family learning mornings have been great successes over the last couple of terms and we had very positive feedback from parents, children and teachers. We are hoping that lots of you will be able to attend the family learning morning this term; it will be another fun and informative morning!

The aim of the morning will be to keep you informed about the way we teach Science in school and how you can support at home. As you will know, Science is a key aspect of learning at our school.

The morning will start with tea and coffee, a welcome and a short talk for you in the hall at 9.00am. There will then be an opportunity to spend time in classrooms, learning alongside your children, until approximately 10am. We will then come back together in the hall for questions.

We hope to see as many of you there as possible. Please email the school office with the word 'Science' and the name and class of your child if you will be attending. This will enable us to know how many adults to expect in school.

Yours sincerely

Mr James
Headteacher
