BTEC National AAQ in Early Childhood Development Summer learning Task 1

Preparing for September:

- You will need to ensure you have a **lever arch file** for Unit 1 (see picture if you aren't sure what this is). Please bring this with you to your first lesson.
- Pre-reading – you have been provided with a pack of documents, which includes course structure and programme of study, assessment information, the specification for Unit 1 and a few articles that would be useful to have read before starting in September. Please read and digest these documents and store them in your folder.

BTEC National AAQ in Early Childhood Development Summer learning Task 2

Imagine you are a childcare apprentice working in a local nursery and you have been asked to create a leaflet that can be given to parents/carers to support them in developing skills at home. E.g. You might select buttoning/zipping own coat and provide some ideas of activities that would help with hand fine motor development (such as threading games). You might include the norm/milestone for reaching this skill. Don't forget an image.

Resources you will require:

- Access to computer for research
- Paper/pens or computer for creating the leaflet.
- Possibly printer.
