BTEC National AAQ in Health and Social Care
Summer learning Task 1

Preparing for September:

- You will need to ensure you have a **lever arch file** for Unit 1 (see picture if you aren't sure what this is). Please bring this with you to your first lesson.
- Pre-reading – you have been provided with a pack of documents, which includes course structure and programme of study, assessment information, the specification for Unit 1 and a few articles that would be useful to have read before starting in September. Please read and digest these documents and store them in your folder.

BTEC National AAQ in Health and Social Care
Summer learning Task 2

Imagine you have been recruited by Healthwatch (if you don't know who Healthwatch are then find out about them first: https://www.healthwatchsheffield.co.uk/). They have asked you to produce a document that explains the impact of health inequalities on society. You might like to focus on a specific area such as deprivation, the elderly, mental health or children, or you could choose to cover a few. Try to include some statistics and maybe a graph/chart or other suitable images.

Resources you will require:

- Access to computer for research
- Paper/pens or computer for creating the document.
- Possibly a printer if using a computer.
