- **Leave granted in *exceptional* circumstances**
- **Schools will be monitored and challenged if they do not adhere to legislation**

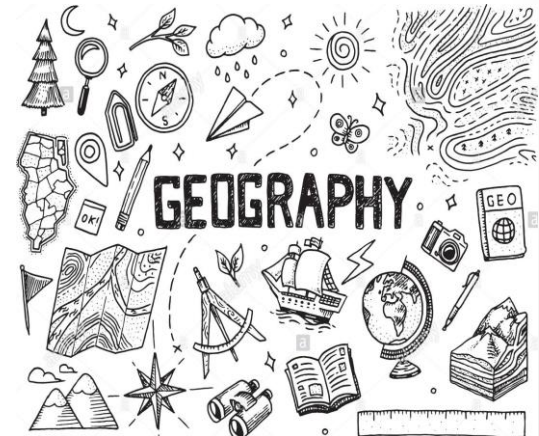

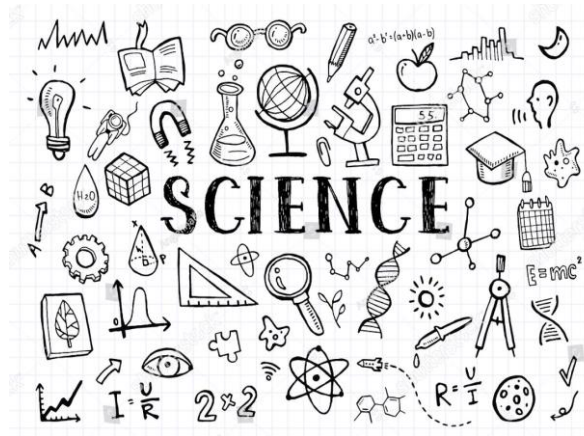

Curriculum Intent & Implementation

Our intent is to ensure that all pupils receive the very best teaching and learning experiences across all subject areas. We believe that teachers teach best when they are both knowledgeable and passionate about their subject. To reflect this we have established **Specialist Teaching Hubs** and **Immersive enrichment learning** opportunities and **Faculty Focus Days**.

Subject Specialism and Teaching Hubs

- **Reflecting our visionary drive for academic excellence in all subject areas in September 2019 we introduced our Subject Specialist Teachers and Teaching Hubs.**
- **Following a model which we had successfully trialled we have created a Subject Specialist in each year group for the teaching and delivery of History, Geography and Science.**

Faculty Focus Days

- This is linked to the 'aspirations' element of our School Vision.
- As a result of our own observations, research and feedback and verified by the responses from local employers. We have introduced a whole school termly focus on 3 identified areas- **Communication, Critical Thinking, Collaboration.**
- This unique aspect of our curriculum is dedicated a weekly afternoon session – Faculty Focus – where pupils explore, investigate and discover through practical activities aspects of these areas.
- Term 1 –Communication
- Term 2- Critical Thinking
- Term 3- Collaboration

These sessions will be recorded in children's individual Career Passports.

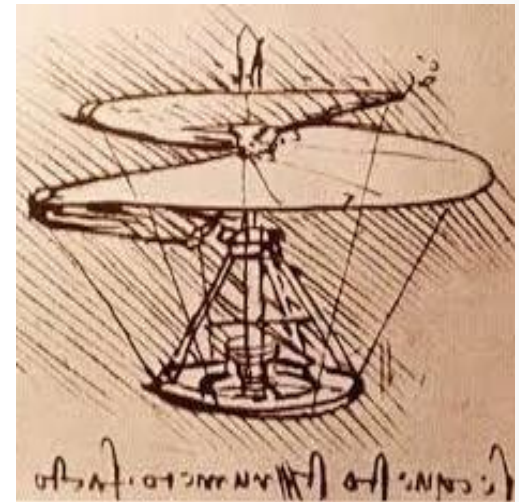

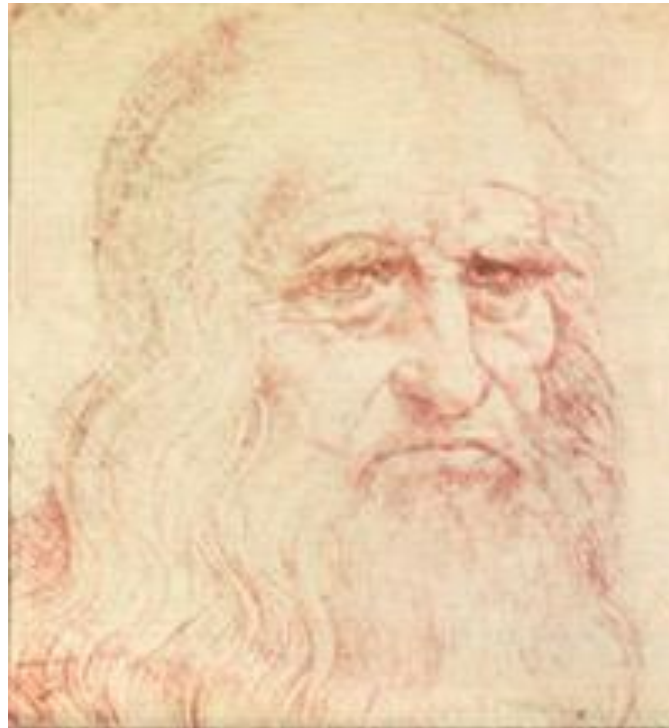

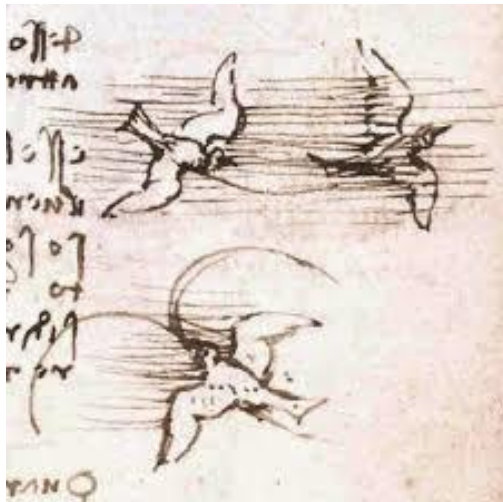

Careers Passport

- Each child will be given a Careers Passport, which will follow them through the school from Year 3 to Year 6.
- At the beginning and the end of each year, each child will identify three career options that appeal to them at each stage.
- Throughout the year, children will engage with a range of enrichment days, activities, visits and visitors to help to develop their aspirations.
- For each experience, children will be given a sheet with the title of the experience, a photo and a recount of what the experience entailed (produced by the class teacher).
- Each child will then complete their own reflections of the experience (what they enjoyed, what they learned, etc), and the impact it has had on their aspirations.

‘Take Flight’

Our focus for the next academic year will be based on exploring the links between Art and Science within the theme of flight.

Linked with our School Vision, developing the arts and creativity including progression towards achieving Artsmark Platinum Award, building our pupil's Cultural Capital remains a key element of this year's project. Our participation in bi-annual Shakespeare For Schools Festivals provide all pupils with the opportunity to take part in a performance of a Shakespeare play and perform it in front of a full audience at the Northern Stage.

MarvellousMe

Emotionally engaging for parents.

MarvellousMe tells you about the wonderful things that your child is learning, and pings you when they've been praised for good work or a great character skill.

It makes you smile, feel proud, and inspires better home learning support and encouragement.

Get pinged as your child does something marvellous. Hi5 back!

Invite partners, grandparents and carers to join up.

Tap links to useful resources.

See what your child is learning, and receive photos, videos and voice. Practise topics together and quickly find worksheets.

Smile as your child is awarded a badge. Celebrate and reinforce their success, to build fabulous life-long skills.

Keep on top of homework, school messages and events. Add dates to your calendar and tick off tasks in your school to-do list.
