

SCAMMING

Scamming is something that happens regularly in life, so we're going to tell you about it.

PREVENTING SCAMS

You can prevent from getting

Phishing

Phishing is when you impersonate a company and ask for personal info or money or trade asked for so they can steal from you and rob all your money and take your email address. An example of phishing would be: Congratulations! You have won £1000 reply to this message with your name and bank account number ASAP!! So I can transfer the £1000!
