MONOPOLY

Bonjour les enfants!

I hope you are all looking after yourselves and your families.

Below, you will find a fun cultural game which you can make/play over a week. The instructions are on this page. Read them carefully!

How to play (1):

- Choose any French-speaking country on the planet. If you are unsure which countries speak French, there are plenty of lists on google. You can also listen to this song: **https://tinyurl.com/francophonieSONG**
- Your job is to use the board below to research that country, finding out as much information as possible.
- You will need to use a variety of sites to find your information.

How much money is each colour worth?

Colour	Value
Red	10 €
Yellow	20 €
Green	30 €
Blue	40 €
Grey	60 €
Brown	100 €

You will need:

A pen and, if possible, some crayons/colours

Access to the internet (on a computer or another device)

A dice (if you can't find one, google 'online dice')

If possible, a printer – this will work best printed out

How to play (2):

- **Start on the square that says 'go' – you earn 50 €. Keep a note of your money as you play the game.**
- **Roll the dice. When you land on a square, complete it with the information about that square. When you complete it, you earn more money.**
- **The different coloured squares are worth different amounts – you can see them here.**
- **Keep a note of your total money each day in the box below.**
- **When you have finished, add up your total score and then fill in the 'drawing' squares**

You will learn:

- To independently research a French-speaking country of your choice
- To present information clearly and concisely
- To produce a fact-file about that country for other people
