

Make your own slush drink by freezing a cup of juice. How long does it take to freeze? How about making different coloured drinks by mixing different juices? Write down your slush drink recipe; why not give it a name too?

Create a picture with paint using only your hands and feet!

Cook something with an adult and create a picture record of what you have done. Maybe you could try using one of Roald Dahl's revolting recipes?

## Muck, Mess and Mixtures

In the bath, use a measuring jug to measure different amounts of water. Can you create a capacity problem and bring it into school for the children to work out.

Compare how long it takes for sugar lumps to dissolve in warm water and cold water. How could you record this?

Set up a melting experiment. Put the same amount of ice in two different cups. Put each cup in a different place, which ice melted the quickest?
