WHOO!

Apple Class Home Learning Task- Summer 1

Hi everyone!

We hope you are all okay and having fun while keeping safe at home! We miss you lots but as we are all currently being 'Stay at Home' superheroes, we would like you to complete some of the following Superhero themed activities. Remember to also check Tapestry every Monday, Wednesday and Friday after the Easter Holidays for some new challenges to complete:

1. Design your very own superhero costume of a mask and cuffs- don't forget to include your superhero logo, what is your superhero name and power?

2. Create your own 'Superhero City' using either 2D or 3D shapes (card, boxes etc).

3. Research different superhero vehicles and then design your own. What special things can this vehicle do? Can you label your picture or model or write a sentence to tell us about it?

4. Carry out a superhero science experiment. You could investigate some superhero powers such as magnetism, freezing and melting, floating and sinking or invisibility!

We would love to see some photos, work or even videos of your completed tasks on [Tapestry](#) or emailed to reception@gca.herts.sch.uk
From Miss Kane, Miss Nichols, Mrs Cole and Mrs O'Gorman

BOOOOM!
