# Key Stage 3 Computing

Task 4: Preventing threats

In the space below, design a poster to be put up in form rooms in schools that encourages people to use computer systems sensibly and securely. Include advice on what to do / not to do.

- ⭐ Longer is stronger!
- ⭐ Have a vary of passwords for different accounts
- ⭐ Use password generators!
- ⭐ Follow guidelines

To prevent hackers from intercepting and stealing your files, always use an encryption or a secure email.

Avoid using personal information in your passwords. It can be easily found.

PREVENT THREATS!

Wow! Amazing design!

Key Stage 3 Computing

Task 4: Preventing threats

In the space below, design a poster to be put up in form rooms in schools that encourages people to use computer systems sensibly and securely. Include advice on what to do / not to do.
