

## ***Teaching for Learning Tfl***

The role of teaching at GCA is to promote learning and to raise pupils' achievement.

Teachers at GCA plan and implement learning activities which engage and include all pupils with work which is challenging and meets individual needs (including those of the most able). Teachers set appropriate homework across the whole curriculum, and mark, assess and give useful feedback.

Judgements on the quality of teaching will take account of evidence of pupil learning and progress over time.
