

FAQs

Will there be a change to school entrances and exits?

The plan has been carefully designed to ensure that both the 'purple' (main playground gates) and 'turquoise' (gates off Scholes Field) gates remain fully operational during the building works.

This will ensure our families are still able to 'come onto the school playground' at the start and the end of the school day, dependent upon the wave of entry they have chosen for their child.

This will also ensure our popular Scholes Field walking bus will continue to run as usual during the building works.
