

FAQS

Will there be a reduction in the amount of all weather play space?

The build will commence in the summer term to maximise the best weather. In doing this, the school field will be available as play space. Additionally, we will be developing an all weather play space before the building work commences. This space will off-set any playground space which may be out of use during the build. Once the build is completed, as this is an elevated build, we will have gained, not lost, all weather play space.
