
Bart Gee

On Thursday 8th September, Bart Gee visited Gorse Hill School.

Bart gave an inspirational talk to children in Yr2 - Yr6 about always believing in yourself and that things are possible if you show determination and resilience. The children were fascinated to listen to his life story and hear about his amazing achievements. As well as listening to Bart, they also watch some clips of the challenges he has overcome, you can watch these clips here.

[Bart Gee - Breaking Limits](#)

Bart was born with a physical disability called Arthrogryposis. Doctors said he would never walk, may never have the strength to be able to sit up and would have a bleak outlook to life.

Bart started to walk when he was 3 years old and, since then, has been able to take part in many different activities at varying levels of ability including running, football, table tennis and swimming.

Bart is now 39 years old and he lives a relatively independent and normal life. He plays piano regularly at Church and he is also able to drive a car which has been adapted.
