
Turkey-Syria Earthquake Appeal

In February, we raised money to support the Turkey-Syria Earthquake Appeal by holding a non-uniform day.

As a school, we raised a total of £470 which was donated to the British Red Cross in order to support the appeal.

To introduce our charitable event to the children, we held an assembly where we discussed the impact that the earthquake has had on other people and what they have lost. Our assembly theme was very much focused on the notion of helping others in need, linking to our CARE Values which encourage us to *take care of ourselves, each other and the world we live in.*

Our pupils showed both maturity and empathy for others when discussing this sensitive topic.
