Dear Parents / Carers

Asthma Register

Asthma varies in severity from person to person and for individuals from month to month at different times in their lives. Symptoms include: coughing (particularly a night time cough); shortness of breath; wheezing; tightness in the chest, sometimes younger children will express this tightness as a tummy ache. Some children may experience a number of these symptoms, whilst others may experience only one.

To update our records and to ensure all staff are fully aware of the needs of individual children, I would be grateful if you would complete and return the form below. If we do not receive a response by Wednesday 23rd October 2024, we will assume you do not wish your child to be placed on the asthma register. The information given will be held in strict confidence. It is parent's responsibility to ensure that all medication and equipment brought or held in school is in date and has your child's name on it.

If you would like to discuss this matter, please do not hesitate to contact the school office 822405.

Yours sincerely
Hannah Gordon

..... ✂
Asthma Register Name of Child Class

If your child has medication to treat his/her condition, please give details below:

	Name of Medication in school	Dosage
Preventer Medication: (not usually in school)		
Reliever Medication: (should be carried by child or easily accessible in the classroom)		
Does your child have a spacer in school?		
Are there any other details we need to be aware of? (Please use back of slip if necessary).
