

FOGS- Grange Junior School

As we come to the end of another school year we would like to thank our FOGS team for all the fantastic fundraising they have done. Because of this hard work we have been able to buy a range of items to enhance the school further.

Some of our Year 6's have written the following;

Grange Junior School has spent some money on our Den this year. This has included storage which has helped clubs and has turned the space into a functioning chess club once a week. This room is also used for intervention and as a second sensory room to those who need it.

We have also put money towards equipment for our sensory room. This space helps children to calm down and get ready to go back to class and complete their work. This room has many different sensory tools for children with different sensory needs. These things include a blackout tent, trampoline, and balance beam.

As well as this we have also voted for new library seating to enhance the space further. All classes visit the library once a week and it is a very popular space. We have also put money toward reorganising the books into genres and reading abilities to help us choose books.

Thank you to the FOGS team and all the parents who continue to support our school.
