

6th June 2024

Dear Parents/Carers,

At Grange Juniors we use Jigsaw, the mindful approach to PSHE, as our scheme of work to teach PSHE (Personal, Social, Health Education).

In the second half of this Summer Term, we will be teaching the unit 'Changing Me'. This helps children learn to cope positively with all sorts of change. In Key Stage 2 they will learn about puberty in this Puzzle.

The purpose of this letter is to inform you of the statutory requirements placed on schools, and what we plan to teach when for this topic in PSHE this term.

The government statutory guidance gives parents the right to request to withdraw their child from Sex Education, and this letter explains more about what Sex Education is and how you can find out more about this if you wish to.

Health, Relationship and Sex Education

Health and Relationship Education is statutory in all primary schools, and it is recommended that all primary schools have a Sex Education programme that is tailored to the age of the pupils.

The Health and Relationship curriculum content is woven throughout the entire programme of Jigsaw, with a specific focus within the 'Healthy Me' and 'Relationships' Puzzles.

In Key Stage 2, there is a particular focus on the Health Education element of puberty in (including menstruation) and the changes that happen inside and outside the body. This is taught in a way that helps pupils feel prepared for the main changes that happen before puberty starts, and to encourage them to talk to an adult at home or at school if they have any questions.

The right to withdraw.

As parents/carers you have the right to withdraw your child from the non-statutory elements of our teaching. These will be the lessons on human reproduction (please refer to the contents table below for the exact lessons). You are unable to withdraw your child from any lessons within Relationship or Health Education (this includes puberty and menstruation). If you do wish to withdraw your child from the human reproduction lessons, please email the school and you will be sent appropriate forms to withdraw your child. **FORMS NEED TO BE COMPLETED AND HANDED IN AT THE OFFICE BY FRIDAY 14TH JUNE 2024.**

What will my child be taught about puberty and human reproduction?

The Jigsaw unit 'Changing Me' is taught in the Summer Term and contains 6 pieces (lessons). Each year group will be taught appropriate to their age and developmental stage. This content will be taught by the class teachers. We will not teach beyond the remit of the year group. If questions are asked that the teacher feels are inappropriate or are beyond the content for that year group, the teacher may ask the child to ask their parent/carer or the teacher may acknowledge the question and explain that we will learn about that aspect at another time.

The table below only covers the lessons (pieces) that relate to life cycles, the human body, puberty and human reproduction. The lessons (pieces) that parents are able to withdraw their children from are highlighted in red font.

School Year group	Piece (lesson) Number and Name	Learning Intentions relating to Puberty and Human Reproduction
Ages 7-8 Year 3	Piece 1 How Babies Grow	<ul style="list-style-type: none"> I understand that in animals and humans lots of changes happen from birth to fully grown, and that usually it is the female who has the baby. I can express how I feel when they see babies or baby animals.
	Piece 2 Babies	<ul style="list-style-type: none"> I understand how babies grow and develop in the mother's uterus and understand what a baby needs to live and grow. (New vocab - uterus /womb) I can express how I might feel if they had a new baby in their family.
	Piece 3 Outside Body Changes	<ul style="list-style-type: none"> I understand that boys' and girls' bodies need to change so that when they grow up their bodies can make babies. I can identify how boys' and girls' bodies change on the outside during this growing up process (introduce term puberty)
	Piece 4 Inside Body Changes	<ul style="list-style-type: none"> I can identify how boys' and girls' bodies change on the inside during the growing up process and why these changes are necessary so that their bodies can make babies when they grow up (introduce vocab sperm, ovaries, egg, Ovum/ Ova, womb/uterus, vagina and period) I can recognise how I feel about these changes happening to me and know how to cope with these feelings. <p>Note - this lesson briefly introduces the term 'period' and explains what a period is in simple terms.</p> <p>This lesson does not attempt any explanation of how the sperm and egg come together. If a child asks the question we will explain that the male and female decide when this happens and we will learn more about it at another time.</p>
Ages 8-9 Year 4	Piece 1 Unique Me	<ul style="list-style-type: none"> I understand that some of my personal characteristics have come from my birth parents and that this happens because I am made from the joining of their egg and sperm. I appreciate that I am a truly unique human being
	Piece 2 Having A Baby Parents have the right to withdraw children from this session as it is classed as human reproduction.	<ul style="list-style-type: none"> I can correctly label the internal and external parts of male and female bodies that are necessary for making a baby and explain in simple terms how this happens. I understand that having a baby is a personal choice and express how they feel about having children when they are adults. Note: This is a simple introduction to sexual intercourse with the teacher using a script which includes 'an especially close and loving embrace which allows the sperm to be released through the penis into the vagina.'
	Piece 3 Puberty and Menstruation	<ul style="list-style-type: none"> I can describe how a girl's body changes in order for her to be able to have babies when she is an adult, and that menstruation (having periods) is a natural part of this I have strategies to help me cope with the physical and emotional changes I will experience during puberty <p>Note - teachers will also recap the puberty learning for both girls and boys from year 3 and revisit some of the content if required.</p>

Age 9-10 Year 5	Piece 2 Puberty for Girls	<ul style="list-style-type: none"> I can explain how girls' bodies change during puberty and understand the importance of looking after themselves physically and emotionally. I understand that puberty is a natural process that happens to everybody and that it will be OK for me
	Piece 3 Puberty for Boys	<ul style="list-style-type: none"> I can describe how boys' and girls' bodies change during puberty. I can express how I feel about the changes that will happen to me during puberty.
	Piece 4 Conception <i>Parents have the right to withdraw children from this session as it is classed as human reproduction.</i>	<ul style="list-style-type: none"> I understand that sexual intercourse can lead to conception and that is how babies are usually made. I also understand that sometimes people need IVF to help them have a baby. I appreciate how amazing it is that human bodies can reproduce in these ways
Age 10-11 Year 6	Piece 2 Puberty	<ul style="list-style-type: none"> I can explain how girls' and boys' bodies change during puberty and understand the importance of looking after yourself physically and emotionally. I can express how I feel about the changes that will happen to me during puberty.
	Piece 3 Babies - Conception to Birth <i>Parents have the right to withdraw children from this session as it is classed as human reproduction.</i>	<ul style="list-style-type: none"> I can describe how a baby develops from conception through the nine months of pregnancy, and how it is born. I recognise how I feel when I reflect on the development and birth of a baby.
	Piece 4 Attraction	<ul style="list-style-type: none"> I understand how being physically attracted to someone changes the nature of the relationship. I can express how they feel about the growing independence of becoming a teenager and their confidence that they can cope with this

We hope that the information we have provided is useful in understanding what your child will be learning this term.

Please refer to our PSHE policy on the school's website for further information.

If you have any further questions, please contact your child's teacher or the school office.

Kind regards,

Miss Holley
PSHE / RSE Lead
