<b>Useful revision resources:</b>  Your first point of revision should be your class books and work books.  Your work books, class books and structured notes.	
Past papers are available on the AQA website.	
<b>Revision Tips</b>  The first step should be to identify gaps in your knowledge. Use the title blue sheets and knowledge organisers to RAG your confidence.  Use the structured revision that you have completed to 'crunch' your notes into smaller manageable pieces.  Ask your parents to help to check your facts.
